Go for IT, SFBs.

Even ebay says "do not spam the News Groups"

nothing 4 an obveious fool.. <G> how appropriate.

Just My Opinion..

Bob

Looking for a very clean FT-102 transceiver. Must be cosmetically and electrically very good or perfect.

Will be at Hosstraders later this week, or shipping is ok.

Thanks,
Bruce W1UJR

"Courier" and "Thunderbolt" do sound like CB amp's but they may well be too old to be illegal. They'd be useable on 10 meters and possibly other bands provided they don't generate too much harmonic power. I have zero knowledge of there particular units but most old tube amps date back to the days before 11m became CB and some are of decent quality. They're worth little $$ but if I had them I'd try them on 10m then other bands after checking harmonics and adding a low-pass filter if needed; especially if I also had an old SSB CB I could convert to 10m.

Freedom is about making your own choices and
taking personal responsibility for those choices.
We cannot legitimately blame others for our own actions.

"Loonies" are not censored in our free land because:

People are not forced to listen to what some loony says.

Therefore, people are not harmed by what some loony says.

Therefore, if people listen, they do so willingly,
are actively seeking something about which to be offended,
and have only themselves to blame.

This is common sense and
taking responsibility for one's own choices.

Too bad the rest of the world doesn't get it.

LET FREEDOM RING

Actually, in most places in the world GI's don't need a SW radio to listen
to news and programming from back home, thanks to the fact that AFRTS has
AM, FM and TV outlets in anyplace they have a presence. I'm sure that if we
are in Afghanistan for any length of time, there will be at least an FM
station set up with a satellite feed from AFN in the states. Here in Korea,
we have an AFN TV transmitter in every city of over 500,000 that covers most
of the populated area... I would guess the main AFN TV transmitter in Seoul,
plus perhaps 8 others, and an AM and FM outlet in each of these localities
as well.

The problem with that is simply that the programming is
edited/filtered to what the regional agencies think is appropriate. A
SW receiver allows the listener to get stuff from around the world.

Which would be great if they 'featured' the kind of programming you wanted,
I guess...

I'll second that opinion. A-FaRTS is a real joke.

I worked in SITE-TV shops when in the Navy during the 80's,
running the ship's entertainment and instructional TV and
audio systems. News coverage was a real joke. The Army
and Air Force got the same tapes as we did...

Hmmm... I think a real ironic sign of the end of the
Cold War might be to set up a Non-Profit to purchase
cheap COBY's and distribute them to the Armed Forces.

You know, your just the type of person who should be
put into a uniform and put on the front lines for, oh, an hour.
Then we will ask you if you feel the same way.

Should we start with the ones on the Wall in DC?

Yep, the committed themselves to keeping A-holes like yourself
alive so you could send this email.

I hope you never need to defend yourself or your loved ones
on your land, in your house.

God Bless America, John, USA 1965-74

ps: Boy do I hate your type of person!

A large percentage of 'em were actually forced to do it, weren't they?...
Not that they shouldn't have been willing, but they weren't there for
patriotic reasons or even to protect their loved ones... They were there

simply because they were forced to be. Most would have probably been at home watching it on tv if they'd been a few yrs older or younger, had some medical excuse, could get a ride to canada, etc...
Not that I'd have the guts to volunteer for such, but I'm not anti what you were saying.. just being realistic...

Horseshit. Even in the days when courts would condemn a juvenile
delinquent to military service, that wasn't the mindset. Those who
volunteered would have liked to be home watching the TV too. When it
comes to being shot at, there were no polls taken as to who wanted to be
there.
Stop your 'realistic' teenage diatribe.

Horseshit. Even in the days when courts would condemn a juvenile
delinquent to military service, that wasn't the mindset. Those who
volunteered would have liked to be home watching the TV too. When it
comes to being shot at, there were no polls taken as to who wanted to be
there.
Stop your 'realistic' teenage diatribe.

So just how do you define being drafted, if not forced-fighting, sir?...
I don't recall it exactly being a voluntary thing...
And if you'll notice, I did say that I *didn't* agree with what I said.. It
was pretty much a "devils' advocate" post, iow...

For the first 6 days following the attacks in NYC and DC, all AFN Korea
carried was news from Fox News, ABC, CBS, NBC, MSNBC.. the only thing had
that was of AFN origination were the crawl lines announcing the FP levels.
I agree that AFN's own new IS a joke.. highly filtered and definately
lacking.

I would like to add my 2 cents to this 'discussion' --

eBay stores are NOT auctions - they are fixed-price and therefore
the use of FS instead of FA is accurate.  However, the store format
does display all items the seller is offering, both the fixed-price items
and the auction items.  You can always tell the difference because
the auction items have a date shown in the 'Auction Only' column. <Grin>

Perhaps if one would just look at the subject being 'discussed' before
expounding on it, one could save themselves from being embarrassed
by displaying their lack of knowledge.

I would like to add my 2 cents to this 'discussion' --
<p>eBay stores are NOT auctions - they are fixed-price and therefore
<br>the use of FS instead of FA is accurate.&nbsp; However, the store format
<br>does display all items the seller is offering, both the fixed-price
items
<br>and the auction items.&nbsp; You can always tell the difference because
<br>the auction items have a date shown in the 'Auction Only' column. &lt;Grin>
<p>Perhaps if one would just look at the subject being 'discussed' before
<br>expounding on it, one could save themselves from being embarrassed
<br>by displaying their lack of knowledge.

If you had been reading the msg and paying attention, you would have noticed the following.

>"If interested, please check out the following eBay STORE (not auction) listing:"

This is an auction, NOT the Store...
>http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1638921967

What he should have left was the STORE URL.
http://www.ebaystores.com/id=1927549

Obveiously this was a thinly veiled attempt to SPAM the group
with the CRAP on the auction page. as that was the URL the
SPAMMER left.

Now, SFB, read and understand the complete post before
making an ass out of your self..

That's BULLSH*T. All of the sellers auction are shown
at the store and the current price AND a link to the page
where the auction is being conducted.

Perhaps you should practice what you preach, See Quote below..

>"Perhaps if one would just look at the subject being 'discussed' before
>expounding on it, one could save themselves from being embarrassed
>by displaying their lack of knowledge"

Get your head out of your SIX and Comprehend the post you are
replying to Do NOT just "read" it, UNDERSTAND it..

Some people talk about things they know.
Some people talk to hear there own Voice.

You are the latter...

Just another opinion..

Bob

Ok! so you are this guy's second banana shooting
flames around his adds for the very same items
FS and FA. Could it be that the FA is so stagnant
that you need to help him out? Perhaps I should
charge an advertising fee for the number of posts
where I include his url?

You SAMFCWSBP

: What he should have left was the STORE URL.
: http://www.ebaystores.com/id=1927549
:
: Obveiously this was a thinly veiled attempt to SPAM the group
: with the CRAP on the auction page. as that was the URL the
: SPAMMER left.

```
:
: Now, SFB, read and understand the complete post before
: making an ass out of your self..
:

Of course soldiers have nothing better to do than break dance
all day and get down with Tupac and the funky thumps from
their $1000, 100watt boom boxes... and yes I have seen radios
confiscated.

But then there are those whose sole function is to guard cleaning
supplies and swap answer sheets out of RTMs.

My next door neighbor is a Capt. in the AF, he insists they are regarded
as contraband at this time and will be confiscated if found on an
airman's person. ?????

And you guys wonder why the sellers all go to Ebay...

>A bit pricey. I bought mine for $299 4 years ago brand new.

>Defender catalog, page 236, has it for $399 new. Why is your used one so
expensive?

I have for sale an absolutely mint Kenwood TS-850SAT.  I am the original
non smoking owner.  I have both shipping boxes, hand mic, owners manuals
and unopened accessory bag.  The radio is a 10 out of a 10 functionally
and cosmetically.  The radio includes the SO-2 TCXO unit which is a
$180.00 option.  This is one of the last 850's manufactured.  The serial
number is 80200024.  This is most likely one of the finest 850's you
will find.  I am asking $1,000 plus shipping from 48026.

I need a manual or a copy of a manual for this transceiver. Anyone out there
have one and can you help me? I recently moved and lost it in the shuffle. I
also have the matching power supply and antenna tuner. Same problem with
these!
Thanks. Willliam

Thanks for reading my posting.

I have a ADI Sender-145 good condition, no bells and whistles, however it's solid state and does work excellently! No PL board (atleast none that I can find) nor does it come with a manual. Radio does RECEIVE out of band, to 169.990. Battery seems to be fine, it's a Nicad 12V 600mAH. I also have a wall charger (wall wart). Radio is sold as-is, however I will assure you it will not arrive DOA.

Hi Howard,

Interesting. I'd have to ask where/what your neighbor does but of course I won't since this isn't the place to go into personal particulars. I wouldn't insist that it could never happen and believe those who say it has in the past. But, think of it: what good's AFRTS if you can't have a radio? "Damnit! I can't have my men listening to the news and Tupac and the Funky Thumps!" [Sorry, just had to do it:) though I've never heard Tupac on SW] We can believe the young Capt. Some might have some kind of funky restriction like that to accomodate the possibility of being prepositioned in a country that has a law against owning a radio but political correctness like that will fall along the wayside as soon the shooting starts and the hootch opens for business...

I'm a former sailor. Where is my radio? I want my damn radio! NOW!! I've been out of the Navy for 40 years just think how much listening pleasure I've missed, well additional listening pleasure. I coulda been listening with both ears to two different things for yearz and yearz and,........oh well, screwed agin.

Butch

I need a working audio board for my Icom IC-24AT. I don't know, but suspect
that one from an IC-2SAT is likely the same board. I am willing to buy a
junk radio to get this part, if someone has one that maybe has a bad
processor or PA or whatever but a good audio board. I don't do well with
SMT, or I would simply repair the board I have. TIA

I have a Yaesu FT-3000 70W wide band receive mobile 2 meter radio I would
like to trade for a Yaesu FT-90 if anyone is interested. The radio is in
excellent
condition, working just great.

So limit it to the swap groups.. Seems pretty common-sense to me,
atleast......

Make offer.  This rig is in basically good condition.  I switched it on the
other day and got a nonsense display.  CPU won't reset.

Rig is an HT, covers 2 meters and 440 MHz.

Make offer.  I have a desk charger too.  Maybe a speaker mike.  Owner's
manual.

Model SP-101PB includes manual, very clean condition.

Works as good sounding external speaker for any rig and includes hybrid
telephone patch with balance meter, etc.

$75 or trade.

For sale my Phoenix SX 440mHz 2 channel rig. I started the 9k6 baud conversion over a year ago and never got to finish it.Since packet is dying out here in W.N.Y. I might as well put it up for sale.This rig can be programed for any 2 freqs,either simplex or repeater.I wired a mic to the outputs on the back of the rig and it works,so this unit will not be DOA,just the finishing touches for 9k6 baud packet,or un-converted for repeater use.$125.00 plus shipping in U.S.A. dollars from 14120 zip.
tnx de dave-n2rhl

Hello,

i have a motorola ASTRO mobile radio for sale, in Canada,

it is a model T99DX+138W with remote control head model 9000.

It is mint condition, the data cable linking the control head to the
radio is in perfect condition, full lenght.
I live in Canada, close to Montreal, and would prefer local buyers, to

avoid the problems of having to exchange money and merchandise.

Any question is welcomed...

Thanks...

Marc

Hi,
Selling a nice Gonset GSB100, SSB,CW, and AM transmitter. New Peter Dahl power transformer, filter capacitors. We all know how these have problems with the power transformers. The rectifiers have been replaced. (5U4) New driver and final tubes. Several capacitors and resistors have been replaced as needed. Front panel is very good, all lettering great. Tested on 75 and 40. Now the bad part. The string for the band selector slips, causing the drum to be off a little. Will need to be replaced. Also, it needs a 9006 tube in the "Relative RF" output meter circuit. Asking $425.00 plus shipping from Arkansas. Includes a W7FG manual. Also included, is a small card, indicating that this was number 29 of 250 made in this particular run from Gonset. There are quality control stamps and names on the tag. Pictures available to serious folks. I have a nice double box to ship to your QTH safely. Please reply to me direct, as I sometimes miss reading the list for

a few days at a time. I can be reached during the day at 1-501-394-5589.
Will list on the bay if it doesn't go here.

Thanks
Mike-K5VSE

My favorite brother-in-law is being called up to active duty. He's a
U.S. Army Drill Sargent. I've had a dormant DX-375 collecting dust on
my shelf for many months. So I've decided to send it down to him along
with a portable antenna.

Might I suggest that if you have a friend or loved one who is or will be participating in active military duty, that you consider getting them a shortwave receiver as a gift. There are many inexpensive units available at Radio Shack or many mail order companies. It will give them the opportunity to listen to programming from home as well as from our allies.

May God Bless America.

73, Bill - WA8MEA

Yes this is a very good idea make sure the radio has single side band capability. WWFV will begin broadcasting more programming in SSB to our men and women in uniform stationed overseas to hear the message of freedom!

I have for sale an absolutely mint Kenwood TS-850SAT. I am the original
non smoking owner. I have both shipping boxes, hand mic, owners manuals

```
and unopened accessory bag.  The radio is a 10 out of a 10 functionally
and cosmetically.  The radio includes the SO-2 TCXO unit which is a
$180.00 option.  This is one of the last 850's manufactured.  The serial
number is 80200024.  This is most likely one of the finest 850's you
will find.  I am asking $1,000 plus shipping from 48026.

want to buy: "101 Easy Amateur Radio Projects" book...

Hello there,

I'd like to find and purchase a copy of the original "101 Easy Amateur
Radio Projects" book... authored by Tom Knitel and another Ham.

Just this book is what I'm looking for.... if you have a copy in most any
condition, please drop me a note to the Email address below.

thanks and 73's
skipp

How do they listen to SW, then? I know I've heard several stations and
programs 'aimed' at servicemen, so... They limited to a community-radio or
something?

Command discretion (maybe). It pretty much depends on things they don't know
about yet.

Well, when my brother's squadron was called up for Desert Storm duty, he took a Radio Shack multi-band portable with him, in fact he bought it just to take with him. He didn't have any problems. Of course, a Major (Command Pilot) in the Air Force might not be hassled as much as a PFC in the Army. Like my brother said "It sure beats walking!"

Here we have another spammer. It misleads in the subject line by saying this item is FS "OR" For Sale "OR" misleads and indicates said item is for sale when it is actually FA = For Auction. The FA is used by those of us that do not Do Auctions. We set our spam filters for FA in the subject line and we do NOT have to see the auction spam. Do not trust this person.

"If they Lie in the subject line"

They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Syntor X Programming

We can program your Syntor X EEPROM memory modules for $30.00 each plus shipping and handling to and from your location. We however do not supply the memory modules you must provide your own. We guarantee our work and can program the following ranges.

800 MHz

UHF 406 - 420 MHz
450 - 470 MHz
470 - 488 MHz
482 - 500 MHz

VHF 136 - 154 MHz
HI 148 - 172 MHz
150 - 174 MHz
148 - 174 MHz

VHF 30 - 50 MHz
LO

You must know which range your radio covers for the programming to work correctly.

We need to know the following information for each channel programmed.

If the radio is 8 / 16 or 32 channel

Transmit frequency and Transmit PL/DPL or blank for each channel.

Receive frequency and Receive PL/DPL for each channel.

Duration of the TOT (time out timer) or disabled for each channel.

Scan list for each channel.

I.e. Channel 1 selected (scan 3 6 8)
Or Channel 5 selected (scan 1 4 7 9 15)

Your radio must support scan on the control unit to use this feature. If there is no scan button on your control unit then don't bother with a scan list.

If you don't know the information or don't understand the information being requested then ask your local radio dealer for the correct info or don't bother. I am not psychic just psycho. We can not guarantee misinformation provided by you.

If you pay the shipping and handling round trip to us we can test the radio with the EEPROM in it to make sure every thing works.

For More info contact Brad Kellison KA8TOK by E-Mail:
KA8TOK@Ameritech.net
or KA8TOK@juno.com .

All,

I've read all the threads associated with this post, and agree it's a good idea. For those soldiers staying in the US, there really is no need for a SW receiver - soldiers today have easy access to cable TV and the internet in their barracks, so staying informed is no problem. However, for soldiers deploying for "points unknown" a good AM/FM/SW radio with a simple wire antenna can be a godsend. During Desert Storm I remember laying in my bunk in the middle of the Saudi desert the night the bombing campaign started and listening to a faint BBC AM broadcast on my old pocket radio - and hearing a live report from Israel that Iraq had fired SCUD missiles at Tel Aviv and that the Israeli military had detected nerve gas! (Fortunately this report was later retracted - the SCUDs did hit, but no nerve gas). Talk about immediate reporting!

There is little chance that the military will confiscate personal radios. Once a significant US military presence is established in an area (and the host nation agrees), Armed Forces Radio will establish a broadcast site, usually low power FM. This will bring servicemembers music, live feeds from stateside radio news and 'offical' information, so the military sees radio as a valuable way to distribute information and keep the troops entertained. However, until this service is established SW is about the only reliable way to get 'western' news and information. If you have a service member who is deploying my strong recommendation is to provide him/her with a good, small, inexpensive AM/FM/SW receiver that uses AA batteries (so they can also use them in their cd player), LOTS of spare batteries, a switchable (110/220) 'wall wart' power supply with interchangable plugs (RS sells them), headphones (ear buds are best) and a long wire antenna (a simple length of wire with an alligator clip works just fine). Pack it well and keep it small (remember, if it can't fit in a duffle bag it can't go!).

73!

Don't know what your problem is. Obviously you didn't look at the ad. They are in fact not FA they are FS and below wholesale to boot! I wanted to make an antenna entrance and patch panel once, and the price of these items stopped me. It took me a couple of years to happen across a couple at the swap meet or I would buy a few now.

In lashing out like you do, you actually make a pretty good recommendation for those who can read and think for themselves.

Unless you have personal experience???

Jim, ac6tk
Stuff for sale (not FA)

Well put Brian.
I've never heard of a commander confiscating radios. They usually have better things to do and they have MUCH bigger problems if they're concerned with troops hearing about military operations via open source, global broadcasts:)
Can't stress how right you are about AA batteries. Sure, the military has better resources for cable tv and internet but it's a misperception that a soldier, sailor, airman, marine conducts business from a barracks. All the services are familiar with the luxury of canvas, whether it's to prevent heat stroke in the desert or frostbite in the balkans.
What it all boils down to is this: If a serviceman is deployed, ONE luxury is probably the only thing he can squeeze in. Some carry a deck of cards, others carry a walkman (I used to carry a hairbrush because a cargo pocket was my personal refuge).
Help a brother out and ensure that he's got at least ONE thing to remind him he's still human and deserves something just for him. It'll keep him closer to home.
Drink, WP3JQ

Here we have another spammer. It misleads
in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

 I was interested in Buying it NOT Bidding on it. It said
FS. = For Sale.. If it had CORRECTLY IDENTIFIED
ITSELF IN THE SUBJECT LINE, AS An "FA" I WOULD
NOT HAVE DOWNLOADED THE MESSAGE. You dumb F***.

Like it say's

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Now F.O.A.D.

Just my opinion..

Bob

Yaesu FT 1000D Excellent condition with original manual and carton. Make me a fair market value offer. Remember what you would pay if you purchased this new. Anything I feel to be an insult will not warrant a response. I am located on Long Island and prefer not to ship.

Mark, w2ufo

I suppose you'd rather protest than actually buy anything, but in case
you are actually trying to buy, I happen to have a extra TS440S/AT

that I'd be willing to sell.   A civil email would elicit more information.

Because although we loathe what they might say, we defend their right to say it. The first ammendment essentially agrees with the old saying, "Sticks and stones may break my bones but words can never hurt me." And freedom is always better than fascism.

Syntor X Programming

We can program your Syntor X EEPROM memory modules for $30.00 each plus shipping and handling to and from your location. We however do not supply the memory modules you must provide your own. We guarantee our work and can program the following ranges.

800 MHz

UHF 406 - 420 MHz
450 - 470 MHz
470 - 488 MHz
482 - 500 MHz

VHF 136 - 154 MHz
HI 148 - 172 MHz
150 - 174 MHz
148 - 174 MHz

VHF 30 - 50 MHz
LO

You must know which range your radio covers for the programming to work correctly.

We need to know the following information for each channel programmed.

If the radio is 8 / 16 or 32 channel
Transmit frequency and Transmit PL/DPL or blank for each channel.
Receive frequency and Receive PL/DPL for each channel.
Duration of the TOT (time out timer) or disabled for each channel.
Scan list for each channel.
I.e. Channel 1 selected (scan 3 6 8)
Or Channel 5 selected (scan 1 4 7 9 15)
Your radio must support scan on the control unit to use this feature. If there is no scan button on your control unit then don't bother with a scan list.

If you don't know the information or don't understand the information being requested then ask your local radio dealer for the correct info or don't bother. I am not psychic just psycho. We can not guarantee misinformation provided by you.

If you pay the shipping and handling round trip to us we can test the radio with the EEPROM in it to make sure every thing works.

All tubes are used, but tested very good. Here is the list:

3- 6MJ6/6LQ6/6JE6C $12.00 EA.
2- 6JS6C $10.00 EA.
1- 6JS6B $8.00 EA.
1- 6JZ6 $1.00 EA.
2- 6LX6 $8.00 EA.
1- 6ME6 $10.00 EA.
1- 6JM6 $1.00 EA.
1- 6JSE6C $12.00 EA.
5- 6JE6C/6LQ6 $12.00 EA.
3- 6LQ6 $12.00 EA.
2-6JT6A $8.00 EA.
2- 6KG6/EL505 $4.00 EA.
2- 6KD6 $12.00 EA.
1- 6DQ5 $2.00 EA.
1-24LQ6 $5.00 EA.

Please add for shipping from 95210.

Or, $185 for all shipped! Please e-mail if interested.

Thanks,

Kelly

I am looking for a used but in good condition Kenwood TM-D700. Please
email me with a description of the condition of the radio (wear marks,
scratches on the face plate, anything broken or missing, problems with
the unit, etc., how much you want for the unit , and any extras included.

email to ghopper@eskimo.com and I will return your email within a day or two.

Grant

I have a complete Motorola Syntor X High power, lowband unit. This package as the 100 (110 ?) watt drawer unit with the 16 chan. pushbutton control head and mounting bracket, brand new speaker and bracket, mic and hanger with the PL decode control, complete cable, drawer unit with the mounting tray, and copy of the very complete manual.

This is one of the units that will cover both the 10 meter band and the

6 meter band.

The whole thing is in great condition.

I would like $195 plus shipping. Questions? email ghopper@eskimo.com

I have a mint JRC JST-145 HF radio with original box, manual and optional service manual. It comes complete with the hand-mic, optional desk-mic and the optional 2.7kHz SSB filter with bandwidth control. This radio was just aligned and checked out. I also have a home-brewed PSK31 interface I will throw in as well. I have the QST review if anyone is interested. I am looking to buy a new FT-1000MP MkV or trade for ??. I am also looking for a plain FT-1000MP for possible trade.

Darren

Im selling my AOR-7030 SW receiver. This is made in England and is a
Passport's choice for Dxing. For more info you can look here

http://www.dxing.com/rx/ar3030.htm

http://www.universal-radio.com/catalog/commrxvr/3396.html

Receiver is considered top of the line, it is in excellent working and
aesthetic shape and comes with manual and power supply and remote.

725.00 + shipping from California. Photos are available upon request.

Patrick

Why get "cheap" when you can get the best !!
Tektronix R7603 100 MHz Mainframe, comes with
(1) Vertical Amp (7A18) and (1) Time Base (7B53A),
has room for one more plug-in.
Just released from Cal Lab, works fine, can demo
(with PG-506/TG-501 cal setup).
$125, pickup in Lexington, MA
Packing and shipping extra if you want it shipped.
Thanks, Dick, W1KSZ

Hi,
I am looking to buy a later Racal RA-117 receiver. It needs to be unmodified
and in
excellent condition, both electrically and cosmetically. I am looking for a
rack mounting version without the desktop cabinet. I am (needless to say)
quite happy to pay freight costs to New Zealand and indeed could arrange
shipping from here.
I wonder whats is out there.
Thanks
Ted
ZL1MT

I have for sale an absolutely mint Kenwood TS-850SAT. I am the original non smoking owner. I have both shipping boxes, hand mic, owners manuals and unopened accessory bag. The radio is a 10 out of a 10 functionally and cosmetically. The radio includes the SO-2 TCXO unit which is a $180.00 option. This is one of the last 850's manufactured. The serial number is 80200024. This is most likely one of the finest 850's you will find. I am asking $1,000 plus shipping from 48026.

I have for sale a new sony ICF-SC1PC hand held scanner. I bought this radio to take on business trips and never did have a chance to take it with me. This scanner covers 25-1300 MHz continuous but excludes the cellular frequencies. It has 300 memory channels and is pc programable with the included software and accessories. I am the original owner and bought this brand new.
I am asking $150.00 plus shipping from 48026.

If you are serious about 432mhz, then these antennas are just what you need.
For sale - Four K1FO 25 element 432mhz yagis, two are new in the box and two are excellent condition used. Also included is a 6 ft by 6 ft "H" style frame for mounting them. Here's your chance to have 100 elements on 432 for weak signal work, CW, SSB or EME !!
You can compare my prices to C3I at their Website address of:

c3iusa.com

Due to the size of all this, it is a pick up only.

$400 tnx de N�KO

No! It is the result of overwhelming LEGITIMATE complaints by Usenet
users about the abusive practice of off-topic postings of eBay auctions
to newsgroups where such postings are contrary to the newsgroup charter.

You will note that eBay does not have a policy against posting
information about auctions or links to auctions in Usenet newsgroups
were such postings are proper. The policy only prohibits postings that
are contrary to the group charter and thereby abusive.

Of course if you can't tell the difference I guess we know the kind of
person the policy was designed to reign in.

What I want to know is, what gives Ebay the right to deny rights
delegated to us by our Constitution?

Before you can know that, you need to know more about the Constitution itself.

Whatever gave you the idea that the Constitution says anything even remotely related to what E-bay is doing? The Constitution prescribes what *government* can and cannot do. It doesn't give you any particular rights vis-a-vis E-bay.

... Rich

Dear Nitwit:

Since when do you suppose the constitution gives you ANY "right" to use someone else's private property?

Last time I looked you do not own eBay, and you do not own Usenet, etc. When you want to use something that belongs to others you have two choices - play by their rules or go play somewhere else.

I've been cleaning out today and I have the following items that I'll offer as a lot for the cost of shipment from 72015 (prepayment by postal money order only):

ARRL Radio Amateur Handbooks 1939, 1943, 1957 & 1990 (all in good to great condition)

Passport to World Band Radio 2000 (qty 2)

Radio Handbook (Orr), 21st edition

ARRL Antenna Book, 15th edition

NOSIntro: TCP/IP Over Packet Radio (Wade)

I'll even throw in a couple of war maps from WW2 for good measure!

If you're interested, let me know your zip code and I'll let you know how much shipment will cost.

Another shack cleaning special!

I have way too many 2M radios and so the Yeasu FT-270RH must go! The radio is about an 8.5 cosmetically. The radio has given flawless service. The LCD is clear. It has the DTMF mic and does ctcss tones. It comes with the radio, mic, power cord, and the mobile mount with quick release.

I would like $95 plus shipping for the radio. If you need a picture, I can take one and upload it to my webspace for your viewing.

I have a TS-430S for sale. The radio is clean, in good condition, works
fine, and has the YK-88S filter. The radio has never been in a smoking
enviroment (except for field day and the accompanying cigars... don't
tell my wife). I'm selling it because I have a TS-440 and can't justify
two radios.

Pictures:
http://www.eskimo.com/~ghopper/ts430f.jpg
http://www.eskimo.com/~ghopper/ts-430b.jpg

With the radio or after the radio itself is sold, I have a Kenwood
MC-60A desk mic in fine condition.

I would like to get $400 for the radio and mic.

I have a seven range analog clamp-on AC ammeter for sale for $30 plus
shipping.  It in in great condition, having hardly been used since it
was thought to have been lost, but merely put away in the attic...

It comes with the clamp on meter which will measure up to 300A, probes,
inductive pickup (1x and 10x) and is still in the original box.

I am going to try to save myself the headache of selling these on eBay where they will surely command a higher price than I expect (I am constantly suprised by what stuff sells for there.)

I have two Motorolla remote handset/monitors in fair to good condition. They show wear but are not damaged. That is why only fair to good. They are black bakelite and very heavy construction. There is a red transmit light on the side and volume and PL controls on the front.

Both units were working when removed from service several years ago.

I'll take the best offer including shipping and please indicate if you want both, or just one.

A picture of one unit (they are pretty much the same) is located at http://www.eskimo.com/~ghopper/mphone1.jpg The photo shows the unit in all it's dusty glory! It was manufactured in 1963 but still looks like the height of Motorolla technology. Actually the units are pretty cool and I was going to use them for a remote in my office for a 2m rig I keep in our wiring closet but I ended up buying a rig with a remote head that uses a 4 wire interface and decided I liked that option better.

I have a 2 meter amp for sale. It is new-in-box as I never got around to using it. It was made for Radio Shack and by all accounts was a good amp and did a superior job of rejecting intermod due to its good receive filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $40.00 plus shipping but will consider offers.

Actually, as a regular reader/poster on several of the NGs this thread is
running on, I enjoy reading selected FA posts, if the item sounds
interesting and IF it is properly listed as FA. Reading these has resulted
in several spur of the moment ebay purchases. I brouse ebay on an irregular
basis, and might have missed some of the items had they not been mentioned
on the NGs. I will not buy any item when the subject line says For Sale or
FS, and it turns out to be on ebay.

> just me two cents folks ;)

Yeah, I just can't understand what gets these people so worked up about
them. I pick and choose which items I read in the NGs, if the subject line
doesn't interest me, I don't read it. It's as simple as that. I only use
the filters on the commercial sellers that continually post FS items. I
wonder if these same people complain about going into a library and finding
books on the shelf they don't want to read.

Just my two bits' worth (inflation)

I would like to offer my metal detector in excellent shape for a vhf
repeater that is virtually plug and play on the ham bands... Detector
comes with all manuals, video, recharger and original box,

Extras include:
Whites Blue Max 800 10" coil with extra rod for quick change. (never
used)

battery case for AA batteries
Calrad detector headphones
Coil covers for both coils (saves the coils from wear)

Repeater must be in great working condition with duplexors and not look like crap. Let me see what you have..

Please remove the .nospam from my email to reply.

Will sell outright for $675 + Shipping

Please remove the .nospam from my email to reply.

What a jerk!!!
There IS no "Usenet board policy"
Because there is NO usenet BOARD!

The tabletop (particularly behind my rig) gets very dusty. Left alone,
little spiders will make there homes there.
I always figured old T shirts with some endust was the best duster.
I found something better!
Pull-out dusting sheets called SWIFFER.
At the grocery store with cleaning junk.
They work GREAT! They actually do what they say they do. They pick up
the dust and do not just push it around. Totally dry, so no smears. Even AOK
for front panels. Does a good job on wrinkle paint rigs also.
I don't usually plug stuff like this, but if you give it a try, you will see
why I did.
Regards....Dave

You're right Dave....I have been using the same kind of product but made by Endust instead of Swiffer.   Very effective .... on the front of my TS450 I just switch off the power and vigorously wipe down the front about once a week. Keeps this 6 yr old rig looking new...I also use them on my AL-811H....

Oh dear, I was afraid you'd say that. I'm looking for a new front panel
for a Icom 745, btw, if somebody has one. I tried like the dickens to
minimize the effects of the Caribbean salt air with careful maintenance
and lots of tender rubbing but I'm afraid that the lettering finally
wore off...moreso from regular cleaning.
What I want to see is a product that PREVENTS cobwebs under my BA
chassis...not just something to sweep them away.

> chassis...not just something to sweep them away.

What I do to reduce "cleaning" wear is to use a small fine bristle paint brush to dust off my rigs. Works great and makes no wear on the lettering etc. If I have to actually clean a front, I use a small wad of toilet paper tissue and either a small amount of plain water or windex. Windex works great normally, but I would always want to test it first on a new rig. So far I've never seen it hurt paint. If in doubt , I would use plain water. The toilet paper if wet makes very little wear. I never use a course towel like a kitchen paper towel. Those can scratch in some cases. I had to clean the front of my 830 after field day this last year. Windex and a toilet paper made it look like new on the front. P.S. I don't actually spray the windex on the radios, I just spray a little dab on the toilet paper wad to get it wet. I go back over it with my paint brush to clean the "paper lint" off if needed. MK

Normally, I don't like "me too" posts, but MK is right on with this one
and deserves some support. I have done everything he says for years and
the results are excellent. The only minor difference is I use a "large"
bristle brush instead of a small one. :-)

Hi Folks..
Anyone have the pinout for the MCS2000 RIB --> Radio programming cable?
Or better yet does anyone know if it's the same one as the RIB --> GTX
cable ? The Motorola part# is RKN4063 but they want $139.00 for it !!
I *think* batlabs had it but sadly batlabs seems to be gone :(

Jim

We took the advice of customers and are now selling our PEANUT WHISTLE TWO 40 meter QRP CW transmitters with transmit crystal, if you are in need of one. We've got them in stock for the internationally recognized QRP hangout frequency of 7.040 MHz.

These transmitters are ASSEMBLED. NOT a kit! And they are a blast to
operate! ONLY $19.95 plus shipping if you don't need a transmit
crystal. ONLY $29.95 plus shipping WITH a 7.040 MHz transmit crystal.
At these prices, they're far less expensive than many kits! Many in
stock for immediate shipment.

Hi Ladie/Gents. Sallie and I found a v/uhf all mode we want, so here's the
deal. We have a PROwatt 2,500 Inverter, specs can be found here,
http://www.statpower.com/pw2500.htm, We paid $900, it's got about 3 hours
use. It'll run just about anything you want to plug into it. Even has a 1
Horsepower surge capacity. We'll take $450 SHIPPED, anywhere in the US.
That's $250 less than I was asking in a previous post. Thanks for looking.
Take Care. 73s

The one I use is a 1.5 inch wide model with about 2 inch long bristles. I use it for nothing but dusting radios to keep it clean. It's not real small. I actually should have said to use soft bristles. Thats more important. You wouldn't want to use stiff hard bristles as they could scratch.

And just because the bristles feel soft to you, doesn't mean they
are soft. Some synthetic fibers (polyester, nylon, etc) used in
brushes feels soft because it is so fine. However it is actually a
very hard material and the ends can be sharp and hard enough to

scratch plastic. I tend to prefer a horse hair brush, but pig
bristle (cheap "natural fiber" brushes from asian countries) are
usually OK as well.

In very fb condx elec., & cosm., and clean inside, uses 8877, 160-10m,
will provide .jpg is requested, 230v pri, never contested, appearance
close to AMERITRON AL-1200/-1500. $800./ bo + ship cost from 14609.
Has been my back-up for years, recently powered up and put on the
air,full power out etc as expected, but is surplus as I recently
bought AMERITRON AL-1500 to replace SB-220 "work-horse" and will use
my SB-200 as back up. A possible reasonable meet from WNY.

The YO-YO-TENNA DELUXE covers 2 through 40 meters. Two wind-up
"fishing reel" style antennas let you unwind as much wire as you need
to cover each band. Attach additional single reel YO-YO-TENNA's for
coverage of 75/80 and 160 meters. Great price! ONLY $29.95 plus
shipping!! If you have questions, feel free to call me at
1.517.563.2613. For a photo and further details, please visit:

http://qth.com/dwm

Hi,
  I'm looking for a pair of 4CX250 family screen bypass rings.  Either Johnson
124-113 or Eimac Sk-655 will do just fine.

  Any out there?

73 & Good morning,
  Marv  WC6W  310 649 3111

or via e-mail at:  Marv_E_Ads@Juno.com

Can you believe someone paid almost $100 for that board..?  One can buy a
complete replacement drop in board with parts for that amount of money.
Just three or four clicks more with a different web url makes the
difference and a lot more sense.

cheers
skipp@pilot.ucdavis.edu

Help,

My trusty Radio Shack 144/440 SWR/Powwer Meter stopped working and they
no longer carry this item or can provide information on the parts.
Something tells me one of the two diodes has been zapped; however, I do
not have parts list or schematic.

Does anyone have a schemitic or parts list that I could copy?

RS is willing to sell a service manual for $3 Plus $2.50 shipping and I
am not sure it work spending the money on somehting may or may not be
the correct item

```
10822591  MANUAL,SERVICE 19-320      MS1900320
```

I hope someone has the schematic and can tell me the part numbers for
the two diodes.

Dick, KD5VU

Kenwood TS-50 with matching AT-50 antenna tuner. Both in excellent condition. Only very minor surface marks. Never mobile. This is an easy to use and very compact little rig and the tuner works like a charm - I've used it with dipole, G5RV, and delta loop and it works great.

Set includes manual (with plastic covered manual), mic, DC cable, AT-50 connector cable and mobile mount. Original boxes and packing included.

$725 for both.

I'll pay shipping anywhere in CONUS. Will consider trade for newer full-size, HF or multiband HF rig.

Ron Bean - KJ5XX

I have an as new MFJ-16010 tuner, 200 watt, with original box and operating instructions for 35.00 shipped CONUS. Works just as well for the SW Listener also. It does a terrific job of improving the signal to noise ratio and making your swl dx'ing more pleasurable.

The "Yo-Yo-Tenna Deluxe" is going to be featured in the Nov. and Dec.
issues of CQ magazine. So you may want to get yours now...just in case
we get back-logged. Plenty in stock. They work 40 through 2 meters.
Operation on 75/80 and 160 can be accomplished by adding single reels.

A lot of fun! Many say it reminds them of the old "Hy-Gain tape measure" antennas of the '50's. ONLY $29.95 plus s&h.

For a photo and more details, please visit:

http://qth.com/dwm

I'm looking to find a Control unit for a Yaesu G-5400B rotor or parts for this control unit.

Parts needed are the meter for the Elevation indicator and the glass covers for the meters.

Tom

Kenwood TS-140S with original hand mic and power cord.   Owner manual included, but is photocopied.

The rig is in perfect operating condition.   I have used it daily for about 2 years.   It has a few scratches on the case.   No dents, gouges, or broken parts.

Features include: 160-10 coverage including all WARC bands; Transmit power: 100 watt output; General coverage receive (00.0050.00 - 35.000.00 MHz) ; USB, LSB, CW, AM, FM; Dual VFO's; 30 memory channels; Full Break-in CW (QSK); VOX; RIT; IF Shift; Speech processor; Dual noise blankers; receive attenuator, etc.

Click below to view full specifications:
http://www.qsl.net/sm7vhs/radio/kenwood/ts140/specs.htm

Click below to view a picture of a TS-140S:
http://www.rigpix.com/kenwood/ts140s.htm

Asking $375, buyer to pay shipping from 65781.

Excellent condition with original box and manual and hand mic., if you
have been thinking of getting a 756 or thinking of buying a newer rig
with lots of bells and whistles, this is the one. Works perfectly and
looks like new.

NO reserve and low entry bid. Upgrading to a new PRO so this one is
excess to my needs. Thanks for looking!

I have a new in the box, Radio Shack HTX 252 2 meter radio. The radio has not been removed from the plastic. This is a small mobile radio that I thought that I had to have. Got it in a trade and now don't plan to use it.
I will sell for $135.00 plus shipping.

My display is intermittant when I remove the nicad battery pack so I suspect the internal lithium battery needs to be replaced. I need to know how to locate it, how to remove it and what number to replace it with. Also, if you have a schematic and/or service manual or know where to get them, please let me know.

We now have the "Peanut Whistle Two" QRP CW transmitter with 7.040 MHz
transmit crystals available. Many hams suggested that we carry the
crystals for those of you who don't have any in your junk boxes. Just
got another fresh shipmet in this morning. We are offering the xtals

to you AT OUR COST with the purchase of our "Peanut Whistle Two" 40 meter QRP CW transmitters. These lil' units are a blast! ONLY $19.95 without crystal...ONLY $29.95 WITH crystal!! (Plus applicable shipping and handling...) BTW, if any of you are new to QRP, 7.040 MHz is the recognized international QRP calling frequency for 40 meters.

For a photo of the PEANUT WHISTLE TWO and further deatils, please visit:

http://qth.com/dwm

I have an Icom IC-2SAT ht for sale. The radio is in great shape and was part of another deal for several radios. I have too many 2m HTs so this one is for sale.

The IC-2SAT has an internal battery, 48 memories, 10 DTMF memories, CTCSS encode and decode (because this unit has the optional UT-50), and is in great condition.

The package includes: the IC-2SAT and antenna, a spare internal battery, the charger, a BP-83 battery pack, manual, a HM-46L hand mic that I picked up in another deal, and of course the UT-50.

I'd like $75 plus shipping.

I have for sale or trade a Heathkit HW 8. This radio is in excellant condition and is FB on all included bands. Also have Power Suppy and manuals for both. Would rather trade for other multiband QRP rig than sell.

a friend gave me a yaesu FT50. i sold my old 2sat...what a mistake.
the 2sat is much more versatile and easier to work with.

Another shack cleaning special!

I have way too many 2M radios and so the Yeasu FT-270RH must go! The radio is about an 8.5 cosmetically. Otherwise the radio has given flawless service. The LCD is clear. It has the DTMF mic and does tones. It also has the mobile mount with quick release.

I would like $100 plus shipping for the radio. If you need a picture, I can take one and upload it to my webspace for your viewing.

Questions? email ghopper@eskimo.com

I have an extra BC-35 rapid charger, in it's box, that is surplus to my needs. The charger works great and and is in great physical condition (case not cracked, metal not bent, no excessive wear.)

I'd like $50.00 plus shipping, but I will consider all reasonable offers because I would like to sell it.

I have an Icom IC-38A in nearly perfect condition. Cosmetically it's a 8.5 from some wear on the bottom of the case. The package includes the IC-38A, mobile mounting bracket, DTMF microphone, Power cord, manual, and a NMO mount 220 antenna.

Specs: 25 watts, 220-225 Mhz xmit, 215-230 Rx, 21 memories, memory scan, band scan, CTCSS encode.

The 220 antenna is the NMO style mount.

I'd like $175 plus shipping for the package. Questions? email ghopper@eskimo.com

I have a TS-430S for sale. The radio is clean, in good condition, and
has the YK-88S filter.

Pictures:
http://www.eskimo.com/~ghopper/ts430f.jpg
http://www.eskimo.com/~ghopper/ts-430b.jpg

I'd like to get $350 plus shipping.

I don't have the handmic that came with the radio (actually, I didn't
get it when I bought the radio used). I have the MC-60a and will sell
that with the radio for an additional $100 including shipping.

Email with questions: ghopper@eskimo.com

Note: The YK-88S is just the stock sidband filter, no stock mic ?
$350 ...does it have the FM board, or a AM, CW filter ?
Joe

NEW never used air variable capacitor for sale or possible trade.
Sixteen rotors/stators with the rotors 3/8" apart and the stators are of
course in between. Do not know the manufacturer, but this thing looks
just like the air variable in the Palstar tuner
http://www.palstairinc.com/palmain.htm

I'm asking $50.00 or what to trade? I'm interested in PSK31 stuff now,
but what ever!

FT: Computer gear for HF Rig / equipment

I have the following computer gear available for trade or sale on a
"newer" HF rig and equipment.
Specifically interested in the below units but open for other
suggestions

 * Kenwood TS-50S, TS-840, TS-847, TS-900
 * Yaesu FT-100, FT-840, FT-847
 * Icom IC-706 / 706 MKII / 706 MKII-G
 * Alinco DX-70 / DX-77

* or ??

What I've got.

// Compaq Deskpro Server - $400
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional. Tower case. More ram is available.

// Compaq Deskpro Desktop - $375
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra Wide SCSI Card, AGP Video, Mouse + Keyboard, Windows 2000 Professional. 400 MHZ processor available. More ram is available. Desktop case

// Compaq Deskpro Desktop - $375
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional. 400 MHZ processor available. More ram is available. Desktop case.

// Compaq Deskpro Desktop - Small Form Factor - $350
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Small form factor case, very small footprint.

// Sun SparcSERVER 10 - Unix - $325
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Sun SparcSTATION 5 - Unix - $275
70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board Sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Hewlett Packard Rack Mount Network Hubs - $75 (each)
4 available, 2 14 port and 2 15 port hubs. All are in excellent condition and recently removed from service. These are rack mount servers.

// Proxima LightBook LB20 DeskTop Projector - $425
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack, Monitor out jack, Video in jack, Audio in & out, TV output, Twin Lamp, True SVGA compatibility (800 x 600), International power supply,

LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5 x 9.25 x 5 inches), Custom padded case. This unit is in excellent condition and includes all the original equipment(cables + books).

If you see something you like, please let me know. I am open to trades or sales on any of the machines. Willing to trade multiple machines for the right gear. Response via Email is preferred.

Sales always welcome ...

Thank you!

Here we have another spammer. It misleads
in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

I have a box of transistors and ICs up on eBay right now with no
bidders. There are two CA3035s in there. The auction closes in
another day. If I get no takers, I'll let you guys know.

I have a great working Tektronix 547 50 MHz oscilloscope with a lovely assortment of plugins. I have dual trace, four trace, calibrated offset, and spectrum analyzer plugins plus a few spares. I also have some manuals but not sure what they cover.

The second unit needs a capacitor. It's an old Dumont 401R, about 100 kHz bandwidth, complete with manual. It only needs the resonating capacitor for the self regulating power transformer, I believe 0.84 microfarads or so at a few hundred volts. The tubes alone in this baby make it worth its weight (which is considerable) in parts.

The third unit is a fine working Tektronix 316 portable unit (well, the carrying handle is broken). This one is good to 5 MHz and has the usual Tektronix quality and performance. No manual.

I'd rather not ship these. I am in the Los Angeles area. All reasonable offers considered.

73, Bob K6DDX

I have a Cushcraft X7 H.F. antenna (7 element) which was installed for a year and the 40 meter add-on (X740). Both are in excellent shape except for some bird do-do. Original boxes and all hardware. $360 for the X7 and $190 for the X740. Prefer local pick-up in the Memphis, TN area, but will ship if you pay shipping.

thanks,
derf wk4dx

This is an extension kit for the TM-741A. This is a complete kit brand
new never used. This is no longer available from Kenwood and has the
front dust covers needed for the kit. Still in original package.
Asking $50.00 + shipping.

RE: Icom C228A handheld duobander 144/220 Mhz
My display is intermittant when I remove the nicad battery pack so I suspect
the internal lithium battery needs to be replaced. I need to know how to
locate it, how to remove it and what number to replace it with. Also, if you
have a schematic and/or service manual or know where to get them, please let
me know.

I need the audio IC for the HW-7 It is a CA 3035V1 or could use a matched
replacement. Any ideas where I can find one? If not any ideas on
installing a new receiver inside.
Thanks, Ron, AA5NI.......

hello
i am in need of many old MFM and RLL type hard drives you know the old 5
1/4 width ones in either half or full hieght
i need the platers out of them
so if you have any of the old MFM or RLL drives working or dead dont
matter they will die when i take them apart anyways
i am a poor old blind ham so please dont try to make your car payment
with these if you want to clear out the closet and free up some space i
am interested in them

if you have any please email me at
mailto://k4oxg@tampabay.rr.com

I have a factory refurbished motorola UHF Visar
this is an 403 to 470 Mhz model #H05RDD9AA4DN
radio performs as well as it looks.

Radio will come with 2 batteries, 1 new and 1 good used battery, charger and speaker mic

looking to get $300 or swap for the following

dualband mobile
VHF Visar
repeater controller (RLC2 or 3 or similar)
MFJ 259B or autek vhf/uhf antenna analyzer
MFJ 418 code tutor plus some $$$

Thanks
Steve

Has anyone ever had a FT-8500 just go dead when ever you keyed up with 10 or
50 watts. The screen goes blank and want come back on until I power it back
up. I dont have any problem at 5 watts. If anyone can help please email me
at n4dog@qsl.net as I dont always look at the newsgroups.
Thanks
Marshall N4DOG

I am not trying to start a flame fest or anything, but you might want
to recheck your model number of your radio. the ICOM IC-228a is a 2
meter mobile radio, not a dual band hand held. Good luck on your
search though.   73s   Billy   KE4PJR

RE: Standard C228A handheld duobander 144/220 Mhz
My display is intermittant when I remove the nicad battery pack so I suspect
the internal lithium battery needs to be replaced. I need to know how to
locate it, how to remove it and what number to replace it with. Also, if you
have a schematic and/or service manual or know where to get them, please let
me know.

I am running it in the truck. In the same spot it has been for 2 yrs. The
antenna is mounted on the roof. The radio is mounted on the back wall of my
truck behind the seat(truck is a x-tra cab Chevy 1500) I also hooked up my
other 2 meter radio to the antenna and it had no probelm
Thanks

Poor voltage supply or bad grounding. check voltage at the radio during keydown
even at low power you probably will see voltage sag below 12 volts. Check for
corrosion where the battery leads connect.

I am cleaning off my workbench again...

I have an Icom IC-02AT that has a bit of a problem with receive sensitivity. This unit came to me as a part of a whole junk box full of stuff. It had a few other problems I managed to fix, but alas I am loosing interest in repairing it any further (as it has taxed my skill and patience.)

It is just the radio, no battery, no antenna, and no charger.

$20.00 shipped to the lower 48.

I am cleaning off my workbench again...

I have an Icom IC-2SAT that is a ideal parts radio. This unit came to me as a part of a whole junk box full of stuff. It has let an apparent hard life however all the knobs are present, the display looks good, etc.

It is just the radio, base cover, and copy of the manual and part of a service manual. No battery, no antenna, and no charger.

$20.00 shipped to the lower 48.

I have 4 sections of Rhon-Spaulding tower (this is not the Rhon tower sections) that are clean, in good condtion and bolt together to give you about a 32' tower.

It is avalible for pickup in Everett, WA. I would like $150 for it.

I have a Kenwood TS-430 that is in very good condition, never been used by a smoker and ready to go to a good (or bad...) home. I got it used but didn't get the hand mic. The unit has a few minor wear spots, but nothing serious and no other damage/ dents, etc. I would like $350 for the unit but will consider reasonable offers.

I also have a Kenwood MC-60A that was used with the TS-430 and I will consider selling it seperately for $100, but not until the TS-430 is sold. The mic is in excelent condition and is the amplified version of the MC-60.

I will sell both for $450.

All prices are plus shipping and insurance. Email with questions
ghopper@eskimo.com

I have an Icom IC-03AT 220Mhz radio for sale. It is in good condition and includes the radio, antenna, BC-25U battery charger, a photocopy of the manual, and a BP-03 battery.

The radio works well and has basiclly been replaced by and IC-3SAT so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $135.00 plus shipping but will consider reasonable offers.

FS: Beautiful ETO Alpha 89 HF 1.5 KW Amplifier. This is the same RF Deck, etc. as in the Automatic-tuned Alpha 87A HF Amplifier (about $6000 new), but is the manual-tuned version. Checked out by Alpha, easily puts out a full 1.5 KW with 40-50 watts input, all bands 160 through 10 Meters. Includes original boxes and manual.

I just recently picked up an Alpha 87A amplifier, and I will consider selling the 87A and keeping the 89. I just don't need two amps! $2700 plus shipping for this excellent condition ETO Alpha 89 Amplifier.

My Kenwood 731 is lacking in the RX department on 144 so I decided to go and look around - turns out this part is the culprit. I need a source for this part. Does anyone have one?
 Looking for a 3sk184(s)   - it is a surface mount FET and I really don't think substitutions would be a good idea

Thanks,

IC-38A 220 MHz FM Transceiver

I bought this radio at AES, Cleveland, as a trade-in about five years ago. I never used it for mobile and by don't think it was used as a mobile at all. I never had a base antenna so I used a mobile antenna on a piece of steel. I am offering the radio.

The IC-38A has virtually all the accessories supplied, including the box and the manual. My house is a nonsmoking area!

This item is sold AS IS.

Ground shipping will be $9.95 and will be paid by buyer.

They'll be rare if you find them. One possible avenue is to find an OLD
TV parts distributor and see if they might have an ECG 785 or NTE 785.

That too is a discontinued part number, but someone who's been in the
business for a really long time might have one in the cracks.

I am trying to clean out the garage. I have two HW 101 transceivers. Both turn on , only one has audio and you can hear the CAL signal. Both appear complete with SSB filters only. All knobs, tubes etc. These could be made to work again. I have a copy of the manual. Will sell the pair for $100.00 plus shipping. No power supply is included. Might consider a trade.

FT: Computer gear for HF Rig / equipment 1

I have the following computer gear available for trade or sale on a "newer" HF rig and equipment. Specifically interested in the below units but open for other suggestions. I am workable, will put money into it if your gear is worth more.

- Kenwood TS-50, TS-840, TS-847, TS-900
- Yaesu FT-100, FT-840, FT-900, FT-847
- Icom IC-706 / 706 MKII / 706 MKII-G
- Alinco DX-70 / DX-77
- or ??

What I've got.

// Compaq Deskpro Server
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional. Tower case.More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra Wide SCSI Card, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Desktop case

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional. More ram is available. Desktop case.

// Compaq Deskpro Desktop - Small Form Factor
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Small form factor case, very small footprint.

// Sun SparcSERVER 10 - Unix
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Sun SparcSTATION 5 - Unix
70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board Sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the

Sparc platform. Aurora case.

// Hewlett Packard Rack Mount Network Hubs
4 available, 2 14 port and 2 15 port hubs. All are in excellent condition and recently removed from service. These are rack mount servers.

// Proxima LightBook LB20 DeskTop Projector
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack, Monitor out jack, Video in jack, Audio in & out, TV output, Twin Lamp, True SVGA compatibility (800 x 600), International power supply, LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5 x 9.25 x 5 inches), Custom padded case. This unit is in excellent condition and includes all the original equipment (cables + books).

If you see something you like, please let me know. I am open to trades or sales on any of the machines. Willing to trade multiple machines for the right gear. Response via Email is preferred.

Sales always welcome ...

Thank you!

For sale, or possible trade, Gonset GSB100 transmitter. All new filters, 5U4 rectifiers, driver and final. A few caps and resistors have been replaced as needed. Front panel lettering great, some paint chips around the screws that mount the unit in the cabinet. The meter has a piece broken on the left side, but does not affect the meter movement. I had it on both 75 and 40 last week, and it worked well. Asking $225.00 plus shipping. JPG's available to serious enquires. May consider a trade for a receiver in the same condition. Hammarlund, Hallicrafter, ETC.
 Please reply to : wb6vse@ipa.net
I am located in Arkansas, and can deliver to close by areas.
Thanks
Mike-K5VSE

This Homebrew GROUNDED GRID amp is in excellant condition. It has a NEW tube in it and an Eimac chimney with a very QUIET blower. Jennings VAC variable for final plate tuning and a very HEAVY band switch and is bandswitched - 160 - 80 - 40 - & 20 meters. With just 18 watts drive on AM I have been using it to the legal limit on AM and it just loafs along! Unit comes with solid state power supply and is controlled with a LARGE VARIAC. THE AMP OPERATES ON 240 vac. It is all installed in a rack cabinet 38" tall and is on casters. THIS IS A PICK UP ITEM ONLY IN MADISON, WI !! Picture via e-mail is available. Any 100 watt ssb transceiver will drive this thing beyond the legal limit and not be pushing it!! $650 or trade for ???

Kenwood TM-241A 2m Mobile rig. Functions perfectly with 50 watts out. Includes microphone (with function buttons, etc) , bracket, DC power cable and manual w/ diagrams. Does NOT include nor has it ever had the display problem that this specific rig has the reputation for having in some units. The power cable has been shortened and would need to be lengthened for a "battery direct" mobile installation. The rig has always been used "non-mobile" $75.00 plus shipping.

Bill, W6WLB

Functions perfectly. Purchased in 1992, has minor blemishes only (none on front panel), no deep scratches. Includes optional 2.0Hz and 250Hz filters which complement the stock 2.4 HZ and 500 Hz filters. A couple of years ago I added the optional TXCO-2 High Stability Master Reference Oscillator. The ROM is Version 1.3. Includes stock microphone, power cord and manual. My manual had become pretty dog-eared over the years, so I recently bought a new one which is still in the mailer. Also will include a CAT interface cable which will enable you to use TRX - Manager or similar rig control software packages. I doubt that I have you original box for the rig. MUCH PREFER LOCAL PICKUP in Southern California $1000.00(FOB Costa Mesa, CA)

Bill, W6WLB

Hi
I need my Motorola MSF5000 UHF Analog repeater
Aligned and tuned. Also duplexer prepost filter tuned.
I can send the eprom out if you don't have the programmer.
But still would need the repeater  aligned and tuned.
Will pay the going rate, cash of course.  :)
Anyone in NJ that knows how to do it?
I will bring the Repeater to you so you don't have to travel.
Really hoping to hear from someone here in the group.
Home# 973-857-1195  NJ  Rich

FT: Computer gear for HF Rig / equipment

I have the following computer gear available for trade or sale on a "newer" HF rig and equipment. Specifically interested in the below units but open for other suggestions. I am workable, will put money into it if your gear is worth more.

* Kenwood TS-50, TS-840, TS-847, TS-900
* Yaesu FT-100, FT-840, FT-900, FT-847
* Icom IC-706 / 706 MKII / 706 MKII-G
* Alinco DX-70 / DX-77
* or ??

What I've got.

// Compaq Deskpro Server
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional. Tower case.More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra Wide SCSI Card, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Desktop case

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional. More ram is available. Desktop case.

// Compaq Deskpro Desktop - Small Form Factor
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Small form factor case, very small footprint.

// Sun SparcSERVER 10 - Unix
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Sun SparcSTATION 5 - Unix
70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board Sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Hewlett Packard Rack Mount Network Hubs
4 available, 2 14 port and 2 15 port hubs. All are in excellent

condition and recently removed from service. These are rack mount
servers.

// Proxima LightBook LB20 DeskTop Projector
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack,
Monitor out jack, Video in jack, Audio in & out, TV output, Twin Lamp,
True SVGA compatibility (800 x 600), International power supply,
LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5
x 9.25 x 5 inches), Custom padded case. This unit is in excellent
condition and includes all the original equipment (cables + books).

If you see something you like, please let me know. I am open to trades
or sales on any of the machines. Willing to trade multiple machines
for the right gear. Response via Email is preferred.

Sales always welcome ...

Thank you!

Gonset GSB100 with all new filter caps, some other caps and resistors as need. All tubes checked and replaced as needed. New 5U4's driver and final tube. Looks pretty good, with a few chips on the front panel where the screws hold the unit in the cabinet. JPG's available, just ask me.
Also looking for 2 of the small knobs for a Johnson Pacemaker, similar to Ranger and others.
wb6vse@ipa.net

Thanks, Mike-K5VSE

Hi there
I have decided to let go from my persona collection an as new Heathkit
SB-303 with filters and noise blanker
This is a rare find especially one in mint condition and original, this one
was factory built.
Thanks for reading this post.

Hi to the list,
I am in need of two of the small knobs with the white inserts for my Pacemaker, and a plug for both the 9 pin "Octal" type socket, and a plug for the xtal socket on the rear apron to supply the AC to a Dow Key relay. Any help out there? Check your junk boxes and let me know.

wb6vse@ipa.net

Thanks
Mike-K5VSE

Well, was going to use the TS50 Mobile, but the guy I was suppose to be getting a 767 w/2 meter from for our base unit backed out of our deal. SO, I'm looking to trade the TS50, or the TS50 Plus cash for a base or base/mobile rig that has 2 Meter on it. My wife and I are currently techs, but going for our Generals, and would like an HF rig that has 2 meter. The Yaesu 767 w/2 meter was looking good. I have a 986 tuner, so dont' really need a tuner, but WHAT DO YOU HAVE?? Open to offers. Not sure what all else has 2 meter on it, 706, 746, ? Or maybe even an hf rig like the 767 that can have modules added.   TS50S has been mobile, so it's not new, a few scuffs, but functions like new. Comes in Original Box, has Mic, Mounting Bracket, Manual (copy), and Cables that came with it new.   Will sell outright for $500 shipped anywhere in the US. Thanks for looking.

Take Care, Ken & Sallie
KD7MXN & KD7NVZ

PS. Have Numerous Ham references, and over 100 Positives on ebay with NO negatives. Also we take Paypal for Payments.

I find no please and no thanks anywhere in this message.
The final statement is an order.
Guess this person still thinks he is at work.
I for one, have a problem with this attitude.

FS: Signal Generator .05-90MHz AM/FM/CW w/service manuals!

AUL Instruments, Inc., Model SG-1144/U

Excellent Condition!

(Several for sale, and one for auction on Ebay.com.)

NOTE!!

(I have a few more of these that are almost identical, for sale for
only $159 each plus shipping costs. Email me for photos, questions, or
a shipping quote, at tomg@fullnet.com. And, check my website for
many, many other great used test equipment bargains, at:

http://www.fullnet.com/u/tomg/gooteesu.htm)

See photos (and bid on one of them, on Ebay) at:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1625673519

Auction ends on SUNDAY, Aug-12-01 12:30:42 PDT.

You will be bidding on or buying an AUL Instruments, Inc. SG-1144/U
Signal Generator, INCLUDING the two SERVICE MANUALS on a CD!

This is a good signal generator, completely functional and ready to go to work for you. It's a nice unit, covering from less than 50 KHz to 90 MHz or more, providing CW (sine) output and AM or FM modulated output, with output-level ranges from 0.3 microvolt to 1 volt RMS, with digital frequency display and two analog meters, for Modulation and RF Output.

It is in great condition, and has been tested by me, and works fine. It came with military surplus documents that show a condition-code of B, which means: serviceable and issuable without qualification. It ALSO includes an inspection report that says "NO FAULTS FOUND"!

Everything is intact, and in very good used operating condition. There is no physical damage that I can see, except for minor signs of normal wear and tear. I tried almost all of the settings of all of the controls, and everything I tried worked as expected. I did not notice any noisiness in any of the controls. I did not rigorously check the calibration (but it looked very, very close), did not test with external modulation, did not check the rear auxiliary output, and did not try running it on 230 volts. I also did not test the 100-Watt reverse power protection feature of the output.

The winning bidder or buyer will have a 10-DAY MONEY-BACK RIGHT-OF-RETURN if DOA.

The Ebay reserve price is only $119.00! You might get a deal! (Or, "Buy It Now", for only $159 plus shipping.)

Functional Description, AUL SG-1144/U Signal Generator:

50 kHz to 90 MHz Coverage, in Five Frequency Ranges

Digital Frequency Display, 4 digits, with "Display Test" button

Coarse and Fine Tuning Controls

Analog RF Output Meter: RMS Volts and dBm

Output Levels from 0.3 microVolt to 1 Volt, -120 to +10 dBm, in Fourteen Ranges (maximum output: about 3.4 volts p-p)

Variable Output Level Control

Analog Modulation Meter: AM Percent and FM Khz Peak

AM Modulation: 400 Hz, 1 kHz, and External

FM Modulation: 150 Hz, 400 Hz, 1 Khz, and External

FM Meter Range Switch: 10 KHz or 75 KHz full scale

Variable Modulation Level Control

Overmodulation Indicated by Flashing Frequency Display

External Modulation Input, BNC, 600 Ohms

RF Output, BNC, 50 Ohms

Output has Reverse Power Protection, 100 Watt Max.

Auxiliary Output, BNC, on Rear Panel

Permanently-Attached Power Cord, Three-Prong, with Cord-Wrap Storage

Operates on 115V/230V, Selectable On Rear Panel

1 Amp Slo-Blo Fuse, Accessible on Rear Panel

See photos and bid at:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1620922189

Thanks, everybody.

Best regards,

Tom

***** Used Coax Connectors ****

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF elbows -- $2 ea
UHF F-M-F Tees -- $2 ea

UHF female - N male adapters -- $2 ea (last one)

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-57B/U N Male-Male connector -- $4 ea
UG-635/U C Female - BNC Male adapter -- $5 ea
UG-636A/U BNC Female - C Male adapter -- $5 ea
UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

***** New Coax Connectors *****

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics
   KC-59-642-M06 BNC Cable Male -- $1 ea
   KA-59-385-M06 TNC Cable Male -- $1 ea
   KA-19-43 TNC Bulkhead Female -- $1 ea

***   Coax Antenna Relays ****

These both have (3) UHF connectors. They are somewhat old looking on the outside but,
I popped the inspection port on each and all the contacts are all happy.
And they all go "clunk" upon application of the appropriate voltage.

Dow-Key DK-60 style
   110 VAC coil -- $30 (last one)

Advance (same style but, heavier contacts & construction)
   115 VAC coil -- $30 (last one)

All of the above plus shipping, if necessary, naturally.

****** VACUUM CAPACITORS & other Vacuum things ***********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S   300pF    15KV $200  with standard puller, later manufacture (blue)

UCSL-750 750pF    3KV  $125  with standard puller
UCSL-1000 1000pF  3KV     $125  with standard puller

R1G  SPST 20KV 20Amp Vacuum Switch  $80

---Fixed vacuum caps--

Jennings VC-12     12pF 20KV $20
Jennings        50pF   86KV $86
Western Elec  100pF    5KV  $30  (This one hi-pot checked @ 14KV)
```

--- Vacuum Relays --

Old "T" style vacuum relays, the coil slips over one leg of the glass enclosed contact assembly -- One of the contacts has a Penta Labs part number: 420 53 3875. The coils are 28V. $10 ea

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum relay mounted on top of a small (2"x3"x4") metal enclosure. There is a 15 pin Jones connector on the side of the box. I believe that there are some auxiliary contacts in the box in addition to the vacuum relay. 28VDC. $15

*********** Air Variable Capacitors ********

Johnson T9-5 minature vertical PC mount trimmers 1.9-15.7 pF, Silver Plated machined plates -- NOS 2/$1

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, �" shaft $2ea (2 available)

National Type DX 500pF variable capacitors, approx. 3" X 3" x 3" overall fairly good condition. $10 ea.

Remler "scissors" variables. Type 630 350pF $25
Type 631 500pF $25

Hammarlund NZ-10 Neutralizing capacitors, shiny NOS, $20 pair

..and a whole bunch of Neutralizing capacitors as listed below $7 ea

Bud NC-853 (2 available)
NC-1000 (2 available)

Hammurlund N-10 (ceramic repaired)

National NC-800 (old version - ceramic repaired)
NC-800 (later version)
NC-150

Johnson 150-375

Millen (part no. unknown) w/ 2-5/32" disks
(part no. unknown) piston style

Unknown Mfgr w/ 2" disks

**** Ceramic Doorknob & Disk caps ***

These are used Centralab or similar -- $5 ea or 5/$20

500pF 10KV   "TV" style
68pF   5KV   850 series

These are NOS disks by KD & Erie $3ea or 4/$10

1500pF 7.5KV
.01uF   4KV

And a couple NOS Silver Mica caps.

2200 pF 500V CM06 $1 ea
5100 pF 500V CM07 (high current rating) $2 ea

All of the above plus shipping, if necessary, naturally.

********** Old Radio Books & Catalogs **********

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $20 (2 books)

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owners name written on frontleaf, 339 pages. $15

Radio Amateur Callbook V41 #2 -- DX listings only 1963 Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $7

RCA HB-3 Tube Handbook
Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2),
Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,
Miscellaneous types, & semiconductors.   The updates appear to have been made in all
these sections except Picture Tubes which is somewhat disorganized. It also appears that the
obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf.
Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $250

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owners name in ink on p.106.   143 pages. $50

Heathkit Catalogs
1954, 55, 56, 57, 58, 59 &
Fall-Winter '62-63,
Xmas '89 + Winter, Spring, Summer '90 $100 all

Handbook of PREFERED CIRCUITS
Navy Aeronautical Electronic Equipment
vols. 1&2 (1955 tubes & 1962 transistors)
very good condtion $40

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December 1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $10

A Course in Radio Fundamentals by George Grammer, ARRL. Third edition, 1948. Good condition except cover taped at spine, owner's name written on front. 300 pages. $8

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $25

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $20

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $15

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $20

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $25

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $15

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of
spine & first 20 pages of lower right corner. 192 pages -- $25

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $15

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good condition.
172 pages. $25

Advanced Laboratory Practice in Electricity and Magnetism by Earle Terry, McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $15

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles)
-- a little smudging on the back cover and two middle pages torn on the edge but, otherwise in fine condition. There is a sticker from the (original?)
owner on the first inside page. 85 pages, the last 10 or so of which are receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet

Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,
 tools, machinery, and construction projects.
128 pages $10

Radio Amateur's Handbook Ninth Edition by the ARRL, 1931. Has a typewritten note glued to the frontspiece stating that it belongs in the radio room of the USS Maryland (which was moored just inshore of the USS Oklahoma on the first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first two chapters missing up to page 24, otherwise good, no writing nor torn pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Amateur's Handbook Sixth Edition by the ARRL, November 1929. Cover a little worn at edges and on spine otherwise excellent, no writing nor torn pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback
 Publications. This is a REPRINT by Vestal Press, 1984. Schematics &
some service info. 352 pages, like new $20.

All of the above plus shipping, if necessary, naturally.

hello everyone;

I just purchased a used htx 242   2 m mobile. After turning it on i found
that
4 out of 6 bulbs are blown and the F dim   function does not change the
brightness.

I purchased 2 bulbs from radio shack, these are similar in size and are 1.5
volts

will these work for replacements?   any advice would help

thanks

FT: Computer gear for HF Rig / Equipment
```

I have the following computer gear available for trade or sale on a "newer" HF rig and equipment. Specifically interested in the below units but open for other suggestions. I am workable, will put money into it if your gear is worth more.

- Kenwood TS-50, TS-840, TS-847, TS-900
- Yaesu FT-100, FT-840, FT-900, FT-847
- Icom IC-706 / 706 MKII / 706 MKII-G
- Alinco DX-70 / DX-77
- or ??

What I've got.

// Compaq Deskpro Server
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. Tower case.More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra Wide SCSI Card, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Desktop case

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Desktop case.

// Compaq Deskpro Desktop - Small Form Factor
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Small form factor case, very small footprint.

// Sun SparcSERVER 10 - Unix
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Sun SparcSTATION 5 - Unix
70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board Sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Hewlett Packard Rack Mount Network Hubs
4 available, 2 14 port and 2 15 port hubs. All are in excellent condition and recently removed from service. These are rack mount

servers.

// Proxima LightBook LB20 DeskTop Projector
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack, Monitor out jack, Video in jack, Audio in & out, TV output, Twin Lamp, True SVGA compatibility (800 x 600), International power supply, LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5 x 9.25 x 5 inches), Custom padded case. This unit is in excellent condition and includes all the original equipment (cables + books).

If you see something you like, please let me know. I am open to trades or sales on any of the machines. Willing to trade multiple machines for the right gear. Response via Email is preferred.

Sales always welcome ...

Thank you!

I'm posting this for my computer underpriveleged buddy John Soine, WB7WQK. He's a very straight shooter, and will tell you exactly how it is, no BS. He's looking to sell the below listed rigs, or trade a combination of the following for a 756 or 756 Pro. Here's the list:

Icom 751, just brought back from Icom (he lives within driving distance to them) ALL updates, repairs, and alignments done. With SM6 Mic, Manual, and built in PS35 Power supply. $650.00 O.B.O.

Kenwood TS930S/AT w/CW Filter, MC60 Mic., Matching Speaker w/filters, original double boxes. Needs power supply repaired, cosmetically a solid 9. $550.00 O.B.O.

Alinco DX70TH 6-160 meter, 100 watts out all bands, Mic, Manual, Box. Has matching EDX2 HF Autotuner. $700.00 O.B.O. for the pair.

Please contact John directly @ 360-428-5995, let it ring, if he doesn't pick up it will go to his cell phone which he always has with him. He's open to offers, and loves to dicker, so give him a shout.

The subject 'Alinco DJ-S111T VHF HT - $60' says it all execpt plus shipping. It did not sell at $75 so I have reduced the price. The rig works and comes with FULL documentation, including special order $25 Alinco service manual. Mods have been installed for extended Rx. I warrant the HT not to be DOA. Note this HT has 50 mw output so you need to within repeater range or use it for short range simplex operatons. The Rx is great. Reason for selling is I have one too many HT's and this one has been sitting in a drawer.

********** Old Radio Books & Catalogs **********

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $20 (2 books)

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owners name written on frontleaf, 339 pages. $15

Radio Amateur Callbook V41 #2 -- DX listings only 1963 Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $7

RCA HB-3 Tube Handbook
Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2),
Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,
Miscellaneous types, & semiconductors.   The updates appear to have been made in all
these sections except Picture Tubes which is somewhat disorganized. It also appears that the
obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf.
Shipping weight will be 20 lbs. Excellent condition; mostly never read! One

gotcha - No binders. $250

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owners name in ink on p.106. 143 pages. $50

Heathkit Catalogs
1954, 55, 56, 57, 58, 59 &
Fall-Winter '62-63,
Xmas '89 + Winter, Spring, Summer '90 $100 all

Handbook of PREFERED CIRCUITS
Navy Aeronautical Electronic Equipment
vols. 1&2 (1955 tubes & 1962 transistors)
very good condtion $40

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December 1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $10

A Course in Radio Fundamentals by George Grammer, ARRL. Third edition, 1948. Good condition except cover taped at spine, owner's name written on front. 300 pages. $8

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $25

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $20

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $15

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $20

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $25

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $15

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of
spine & first 20 pages of lower right corner. 192 pages -- $25

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $15

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good

condition.
172 pages. $25

Advanced Laboratory Practice in Electricity and Magnetism by Earle Terry,
McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $15

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles)
 -- a little smudging on the back cover and two middle pages torn on the
edge but, otherwise in fine condition. There is a sticker from the
(original?)
 owner on the first inside page. 85 pages, the last 10 or so of which are
receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet
Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,
 tools, machinery, and construction projects.
128 pages $10

Radio Amateur's Handbook Ninth Edition by the ARRL, 1931. Has a typewritten
note glued to the frontspiece stating that it belongs in the radio room of
the USS Maryland (which was moored just inshore of the USS Oklahoma on the
first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first
two chapters missing up to page 24, otherwise good, no writing nor torn
pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Amateur's Handbook Sixth Edition by the ARRL, November 1929. Cover a
little worn at edges and on spine otherwise excellent, no writing nor torn
pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback
 Publications. This is a REPRINT by Vestal Press, 1984. Schematics &
some service info. 352 pages, like new $20.

All of the above plus shipping, if necessary, naturally.

Would LOVE to look at this unit, but sorry, OM.
I refuse to set up a Yahoo Account.
Are the images stored in any other locations?

Thanks!

Mike, KF4NCB

Yes you do... The link takes you straight to Yahoo
log-in screen unless you already have a Yahoo account
AND your cookies turned on.

It screwed me up when I had different accounts with
e-groups, onelist and Yahoo and they all merged.

I have a distrust for media monopolies. This is why
your account information is not secure. If they can't
buy your information, they can damn sure buy the
company.

Jim

The upside is that you can open an account with placeholders
over most of the form. If they don't want your business,
they have the option to terminate.

getting out of amateur radio, cb radio is more fun, hams are too
boring.  it has a new battery, diamond sg7900 dual band antenna w/
truck mount kit, larsen dual band magnet mount antenna, and a radio
shack speaker/mic to go with it.  i payed at least $500/new for all
this stuff.  make a reasonable offer.

FOR SALE:
Lafayette HA-225 Receiver in very good condition.

Has general coverage and also bandspread for the amateur bands.
1966 era. Has Five (5) bands: 150-400kHz, 1.6-4.8MHz, 4.8-14.5MHz,
10.5-30Mhz, 48-54MHz

Additional bands for bandspread on the amateur radio bands.

14 tubes: 6AQ8 (6m rf), 6BL8 (6m mix/osc), 6BA6 (rf), 6BE6 (mix), 6AQ8
(Q-Mult/Calib), 2
6BA6 (if), 6AL5 (det, anl), 6BE6 (pro det.), 6AQ8 (af,bfo), 6AQ5 (af
out),
0A2 (reg),
6CA4 (rect)

Interesting design in that it covers all the way up through 6 meters,
and it has the output transformer mounted diagonally to minimize
hum from power transformer.

See: http://member.nifty.ne.jp/hanazawa/radio/lafayette/

Will sell for $95.00 plus shipping

Also have a Lafayette external speaker to go with it.
Model 99-2521 - matches their classic receivers. Excellent condition.

Will sell for $20.00 plus shipping

Pictures available

This is from a SK and I am selling it for his XYL.

It is a Kenwood TM-241A with mic, bracket and manual. The power cable from the radio connector is not with the radio. It does have a few scratches on the front of the display but it still looks good. Overall the radio is a good 8++ out of 10. He had gotten it for his car but she said he had never installed it. I have tested it on the bench and it seems to be doing just what it should. It runs 50/10 and 5 watts output and the receiver covers from 118 to 174 Mhz. I do not think there is any mods in the radio. It is 5.5"x1.5"x6.25" in size and is 2.65 lbs.

I think it should go for over $150.00 so, the first real offer over that price has the radio.

Please email me direct and I would guess that the shipping should be about $12.00 USPS.

YES, she gets all the money for you out there who have to make a

```
comment.

I have for sale an excellent condition Model 570 Century/21 transceiver with matching model 276 calibrator and model 670 keyer. If you are looking for one that not only looks good, but works good, consider this one. The PTO was rebuilt in 97, and a broken plastic bushing mechanism on the PTO repaired and again rebuilt in last year--both times by the factory. It is all original Ten-Tec, with clean panel, original-and working-zero and tune buttons. The front tilt bails are in good condition and the knobs are original and clean. The PTO is exceptionally stable. The serial number is 3190. The calibrator and keyer are also in excellent condition. I've made several contacts with it on 40M CW and it is an enjoyable experience. I've had Century/21's before; both the analog and the digital (model 574) versions and prefer the 570 its quieter receiver. Sorry no pictures, but I will guarantee it to arrive Not DOA and as described. Manual and service history included. $185 for the three pieces plus shipping/insurance from central Ohio or a flat $200 and I ship/insure anywhere in the continental U.S. via UPS.

Please email inquiries. Terms are PAYPAL or USPS Money Order. I ship immediately on confirmation or receipt of payment

Lynn, N8AJ

Thanks to comments like "Where have you been" and "Are you joking".
I love nice comments, don't you. I have put the price of this radio into
what folks say it should be.

Just for the fun of it, I have been here living a life outside of news
groups, and you?

Thanks in advance, John

I have a Cushcraft X7 antenna which was installed for a year and the 40

meter add-on (X740). Both are in excellent shape except for some bird
do-do. Original boxes and all hardware. $360 for the X7 and $190 for
the X740. Prefer local pick-up in the Memphis, TN area, but will ship if

you pay shipping.

thanks,
derf wk4dx

Icom 756 (not the pro) This radio is in beautiful condition, and as
far as I know it does not have a mark on it anywhere. It is in as new
condition. I have owned this rig for 3 years. If you are looking for a
dependable rig with all the bells and whistles this is the one for
you. Power output is 113 watts on high power on all bands, and is of
course variable.
I have all boxes, books, manuals, everything that came with the rig
when it was new.
Price is firm at $1200.00 plus shipping of $25. If you would like to
hear the rig I can get on the air with you, just drop me a line to
make the arrangements.....Serious inquiries only, no tire kickers
please.

This is an ICOM IC-751A HF transceiver. It covers 160 - 10 meters with a
general coverage receiver covering 100Khz - 30 Mhz. It includes the TCXO

option for high frequency stability. I'll also throw in an RC-10 frequency controller which allows direct frequency entry via keypad. It's a great unit for the digital modes. This unit includes ceramic trimmers in the PLL VCO so that potential problem area has already been covered. The alignment has been checked and the unit works like a new one. The physical appearance is very good. There are a few small scratches on the side where it was once rack mounted, but nothing significant in my own humble opionion. The unit had had very little one the air time over the course of it's life. It has the FL-80 and FL-44A (super crystal filters) installed as standard equipment. It also includes the 500Hz CW filter in the 9 Mhz I.F. It will include an HM-36 hand mic. Sorry, I'm keeping the SM-6 for my IC-746. <GRIN> I really wanted to keep the unit for myself, but I'm going to sacrifice it for a complete tower package that I simply can't refuse. I'm asking $475 firm plus shipping. If there are no takers here in a day or so, I'll list it on Ebay. Email me: na4i@home.com if you're interested. Hurry, I've got to sell this one quick.

Thanks,
Alan <NA4I>

I have a huge bunch of audio and video tubes-hundreds of NOS and thousands of used pulls-I can get a rough idea of what they're worth from Tubeworld and so on, but no idea of how to dispose of them (hate to throw them away, but I got all the guitar stuff from the lot and I can't use the others). I'd be interested in trades for audio amplifiers, studio gear, guitar stuff. I

Our club is offering an inexpensive frequency counter kit for sale.

The stock counter is good to over 75 MHz, and with a minor parts substitution (a 74AC00), is typically good to over 150 MHz with a rf sensitivity of less than 100 mV, 10 mV at 7 MHz.

The kit is designed to fit in an Altoids mint tin which it uses as an acoustical resonator for the frequency readout.... which is in morse code. It also makes a great cw "numbers" trainer!

The kit is $20 which includes shipping. This is a very inexpensive way to pick up a nice piece of test equipment.

Further information including pictures, specifications, and ordering can be found at:

http://www.extremezone.com/~nk7m/cwafc.htm

and on Bob Hightower's website:

http://www.extremezone.com/~nk7m/

Bob is handling this. His email address is: nk7m@extremezone.com

I agree everybody has a right to freedom of speech and while they may not like the content (i dont particulary for that matter) switch it off or re-tune elswhere, how can all these people wine about thier rights and in the process want to stamp on other peoples.

It works two ways you know mate

ian

I have two of the TS-120 base speakers for sale.....they are in good condition (some minor blemishes) work great.......one has the original cable with plugs......and I believe the other one does as well......I would like to get $30.00 each plus actual shipping charges from Oklahoma......I also have one of the 4-pin to 8-pin mic adapters lets ya use the MC-50 desk mic on the TS-430s rig.....best offer over $20.00 shipped. all shipping within CONUS........Thanks.........John

my other email address is n5mku@cimtel.net

ohhh btw I have some pics of the adapter at
http://www.geocities.com/snipplets/adapter.html

Hello,

  Would anyone have a couple of Tunnel Diodes PN: GE STD 633 and three
transistors PN: 2N185 that they would sell ?

            Thank-You & 73,
            Bernie / KF4FHS

I've got a few antennae for sale:
KLM 7.2 dipole / 10-30 Mhz 7 element LPA ant
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1257080969

2 meter double folded dipole antenna
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1257087523

162-174Mhz Coaxial half wave omni antenna
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1257089423

6 meter folded dipole vertical antenna.
http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1257091109

I'm helping a fellow ham clean out his garage in preparation for his move.
Thanks for checking this out.

FT: Computer gear for HF Rig

I have the following gear available for trade / sale on a "newer" HF
rig, specifically interested
in the following:

* Kenwood TS-50
* Yeasu FT-100
* ICOM IC-706
* Alinco DX-70 / DX-77
* or other smaller case HF mobile

What I've got.

// Compaq Deskpro Server
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse +
Keyboard,
Windows 2000 Professional.
More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra
Wide SCSI Card,
AGP Video, Mouse + Keyboard, Windows 2000 Professional.
More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional.
More ram is available.

// Compaq Deskpro Desktop - Small Form Factor
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional.
More ram is available.

// Sun SparcSERVER 10
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color frame buffer,
On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board sound,
additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard.
Excellent webserver, file server and strong Unix operating system.

// Sun SparcSTATION 5
70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color frame buffer,
On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board Sound,
additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard.
Excellent webserver, file server and strong Unix operating system.

// Hewlett Packard Rack Mount Network Hubs
4 available, 2 14 port and 2 15 port hubs. All are in excellent condition and recently removed
from service. These are rack mount servers.

// Proxima LightBook LB20 DeskTop Projector
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack, Monitor out jack, Video in jack,
Audio in & out, TV output, Twin Lamp, True SVGA compatibility (800 x 600), International power supply,
LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5 x 9.25 x 5 inches),
Custom padded case.

This unit is in excellent condition and includes all
the original equipment (cables + books).

If you see something you like, please let me know. I am open to trades or sales on any of the
machines. Willing to trade multiple machines for the right gear. Sales always welcome ...

Thank you!

Here we have another spammer. It misleads
in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

FS: AMECO PT-3 RF Preamplifier for HF REceiver or Transceiver, covers
1.8 through 54 MHz (160 through 6-Meters. Runs on 12 VDC and has an
adjustable delay for using with transceivers. Great unit for some of
those old BA transceivers or receivers! $35 plus shipping.

John, he's right.  I was going to bid on this guy's auction on ebay until I
saw his misleading postings here in the newsgroups.  I've now changed my
mind, and urge all others not to bid on his items either.

FT: Computer gear for HF Rig / equipment

I have the following computer gear available for trade or sale on a
"newer" HF rig and equipment.
Specifically interested in the below units but open for other
suggestions

 * Kenwood TS-50, TS-840, TS-847, TS-900
 * Yaesu FT-100, FT-840, FT-847
 * Icom IC-706 / 706 MKII / 706 MKII-G
 * Alinco DX-70 / DX-77
 * or ??

What I've got.

// Compaq Deskpro Server
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse +
Keyboard,
Windows 2000 Professional. Tower case.
More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra

Wide SCSI Card,
AGP Video, Mouse + Keyboard, Windows 2000 Professional.
More ram is available. Desktop case

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse +
Keyboard,
Windows 2000 Professional.
More ram is available. Desktop case.

// Compaq Deskpro Desktop - Small Form Factor
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard,
Windows 2000 Professional.
More ram is available. Small form factor case, very small footprint.

// Sun SparcSERVER 10 - Unix
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color
frame buffer,
On-board fast SCSI controller, On-board 10-100 base T Ethernet,
On-board sound,
additional fast SCSI controller, additional 10-100 base T Ethernet
controller, Mouse + Keyboard.
Excellent webserver, file server and strong Unix operating system.
Machine is running Sun
Solaris (preferred) or any flavor of Linux ported for the Sparc
platform. Aurora case.

// Sun SparcSTATION 5 - Unix
70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color
frame buffer,
On-board fast SCSI controller, On-board 10-100 base T Ethernet,
On-board Sound,
additional fast SCSI controller, additional 10-100 base T Ethernet
controller, Mouse + Keyboard.
Excellent webserver, file server and strong Unix operating system.
Machine is running Sun
Solaris (preferred) or any flavor of Linux ported for the Sparc
platform. Aurora case.

// Hewlett Packard Rack Mount Network Hubs
4 available, 2 14 port and 2 15 port hubs. All are in excellent
condition and recently removed
from service. These are rack mount servers.

// Proxima LightBook LB20 DeskTop Projector
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack,
Monitor out jack, Video in jack,
Audio in & out, TV output, Twin Lamp, True SVGA compatibility (800 x
600), International power supply,
LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5
x 9.25 x 5 inches),
Custom padded case. This unit is in excellent condition and includes
all the original equipment

(cables + books).

If you see something you like, please let me know. I am open to trades
or sales on any of the
machines. Willing to trade multiple machines for the right gear.
Response via Email is preferred.

Sales always welcome ...

Thank you!

FA: AUL Signal Generator, 0.05 to 90MHz, AM/FM/CW

See photos and bid at:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1620922189

You will be bidding on an AUL Instruments, Inc. SG-1144/U Signal
Generator. Auction ends on Tuesday, Jul-31-01 13:34:09 PDT.

This is a good signal generator, completely functional and ready to go
to work for you. It's a nice unit, covering from less than 50 KHz to
90 MHz or more, providing CW (sine) output and AM or FM modulated
output, with output-level ranges from 0.3 microvolt to 1 volt RMS,

with digital frequency display and two analog meters, for Modulation and RF Output.

It is in great condition, and has been tested, and works fine. It came with military surplus documents that show a condition-code of B, which means: serviceable and issuable without qualification. It ALSO included an inspection report that says NO FAULTS FOUND.

Everything is intact, and in very good used operating condition. There is no physical damage that I can see, except for minor signs of normal wear and tear.
I tried almost all of the settings of all of the controls, and everything I tried worked as expected. I did not notice any noisiness in any of the controls. I did not rigorously check the calibration (but it looked very, very close), did not test with external modulation, did not check the rear auxiliary output, and did not try running it on 230 volts. I also did not test the 100-Watt reverse power protection feature of the output.

The winning bidder will have a 10-DAY MONEY-BACK RIGHT-OF-RETURN if DOA.

The reserve price is only $99.00! (Or, "Buy It Now", for only $149 plus shipping.)

NOTE!!

(I have four more of these that are almost identical, for sale for only $149 each plus shipping costs. Email me for photos, questions, or a shipping quote, at tomg@fullnet.com. And, check my website for many, many other great used test equipment bargains, at: http://www.fullnet.com/u/tomg/gooteesu.htm)

Functional Description, AUL SG-1144/U Signal Generator:

50 kHz to 90 MHz Coverage, in Five Frequency Ranges
Digital Frequency Display, 4 digits, with "Display Test" button
Coarse and Fine Tuning Controls
Analog RF Output Meter: RMS Volts and dBm
Output Levels from 0.3 microVolt to 1 Volt, -120 to +10 dBm, in Fourteen Ranges (maximum output: about 3.4 volts p-p)
Variable Output Level Control
Analog Modulation Meter: AM Percent and FM Khz Peak
AM Modulation: 400 Hz, 1 kHz, and External
FM Modulation: 150 Hz, 400 Hz, 1 Khz, and External
FM Meter Range Switch: 10 KHz or 75 KHz full scale
Variable Modulation Level Control
Overmodulation Indicated by Flashing Frequency Display
External Modulation Input, BNC, 600 Ohms

RF Output, BNC, 50 Ohms
Output has Reverse Power Protection, 100 Watt Max.
Auxiliary Output, BNC, on Rear Panel
Permanently-Attached Power Cord, Three-Prong, with Cord-Wrap Storage
Operates on 115V/230V, Selectable On Rear Panel
1 Amp Slo-Blo Fuse, Accessible on Rear Panel

See photos and bid at:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1620922189

Thanks, everybody.

Best regards,

Tom

Hi All.

I've created a eGroup for the Kenwood TS870.
Join up and you can upload and files / programs related to the TS870
to the Files Area.
Got a problem? .. Maybe other TS870S owners have the same, try
asking through the messages.
Got an experience to share (Good or Bad) again share it via the
messages!

Please join, Let make the group helpful for the new user of a TS870S!

Why not make Sked with another TS870 User .. do it via the group
messages!

I hope to hear you on the air and see you posting on the group!

http://www.egroups.co.uk/join/TS870

Regards,

Jim M0CKE

Does anyone have the CD key for the ARCP2000 control software for the
Kenwood TS-2000 (I downloaded v1.1 from the Kenwood, Japan site)?

Or does anyone want to sell a copy or trade for some other control software?

FA: HP 4952A Protocol Analyzer, UNUSED, w/option 2

SEE IT and bid on it, here: (Auction ENDS on July 30, 2001...)

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1619851131

FOR AUCTION: Hewlett Packard 4952A Protocol Analyzer with Option 002 (extended memory). It is in excellent cosmetic condition. It also includes option 103, the HP 18179A RS-232C/V.24 Interface Pod with full breakout box, plus three data cables and the power cable. I tested the unit for power-up, and it appears to be fine (see pictures on ebay.com). I don't have the manual, so I didn't know how to test it any further. The paperwork that came with it from a mil-surplus auction says its Condition Code is *A*, which means new or unused. So, it is apparently unused. The HP serial number is 2726A 01189. If the unit is DOA, the buyer will have a 10-day right of return, with a full refund of the high bid amount. Reserve Price is $419.

TECHNICAL INFORMATION:
The 4952A Protocol Analyzer is a portable analyzer used for troubleshooting during installation, maintenance, and design of data communication networks and equipment. Protocols include Async, BSC, SDLC (NRZI), HDLC, X.25, SNA, DDCMP, and user-defined protocols, also tests X.21 and ISDN. Allows you to monitor and decode data transmission, test remote facilities from your location, simulate network components, and perform bit error rate tests. It can also be used as an asynchronous terminal or to install and maintain 3270 equipment, and to perform link level performance analysis.
Manufacturer's Options: Option 002 = Extended Memory, Option 103 = 18179A RS-232C/V.24 Interface Pod with full breakout box.

SEE IT and bid on it, here: (Auction ENDS on July 30, 2001...)

I was looking for a 10 mtr hand held that is a 6 watt all mode.
I believe it is called a Spitfire 545.
If you have one for sale let me know at
WB2QHS@ARRL.net

I'm posting this for my computer underpriveleged buddy John Soine, WB7WQK. He's looking to sell the below listed rigs, or trade a combination of the following for a 756 or 756 Pro. Here's the list:

Icom 751, just brought back from Icom (he lives within driving distance to them) ALL updates, repairs, and alignments done. With SM6 Mic, Manual, and built in PS35 Power supply. $650.00 O.B.O.

Kenwood TS930S/AT w/CW Filter, MC60 Mic., Matching Speaker w/filters, original double boxes. Needs power supply repaired, cosmetically a solid 9. $550.00 O.B.O.

Alinco DX70TH 6-160 meter, 100 watts out all bands, Mic, Manual, Box. Has matching EDX2 HF Autotuner. $700.00 O.B.O. for the pair.

Please contact John directly @ 360-428-5995

First is the Mirage B-55-G.  This is new in the box.  I got it about a
year ago
and just never used it.  It is 1-10 watts in for 50+ watts out.  Will
operate FM/SSB and CW.
Has a built in GaAsFET preamp.  I am asking $85.00 shipped.  It cost me
~$100.00 new.

The second is an RFC 4-32.  440Mhz, 200mWatts to 5 watts in for 20+
watts output.
Will operate FM/SSB and CW.  Has built in GaAsFET preamp. It comes with
the manual
and is very clean.  I am asking $65.00 shipped.

Please email direct as this is going to a few of the news groups.

Thanks in advance,  John w1hzh

I've stumbled on a very large collection of Vaccuum tubes. Oscillators, amps, rectifier, RF PAs, you name it it's likely here.

This collection is in several large cabinets.

I would bet that there is at least $12,000 of tubes here. No offer too small. I cannot be insulted. These have to go.

If anyone's intereseted please contact me at buzz@toast.nospam.net (remove nospam).

Thanks,
-=-

FT: Computer gear for HF Rig / equipment

I have the following computer gear available for trade or sale on a "newer" HF rig and equipment. Specifically interested in the below units but open for other suggestions. I am workable, will put money into it if your gear is worth more.

* Kenwood TS-50, TS-840, TS-847, TS-900
* Yaesu FT-100, FT-840, FT-847
* Icom IC-706 / 706 MKII / 706 MKII-G
* Alinco DX-70 / DX-77
* or ??

What I've got.

// Compaq Deskpro Server
400 MHZ, 128 MB Ram, CD-ROM, 8GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. Tower case.More ram is available.

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 5 GB SCSI-2 HD, 10/100 NIC, Adaptec Ultra Wide SCSI Card, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Desktop case

// Compaq Deskpro Desktop
350MHZ, 128 MB Ram, CD-ROM, 6 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Desktop case.

// Compaq Deskpro Desktop - Small Form Factor
466MHZ, 128 MB Ram, 8 GB HD, 10/100 NIC, AGP Video, Mouse + Keyboard, Windows 2000 Professional. More ram is available. Small form factor case, very small footprint.

// Sun SparcSERVER 10 - Unix
50-MHZ RISC processor, 96 MB Ram, 4 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Sun SparcSTATION 5 - Unix
70-MHZ RISC processor, 64 MB Ram, 2 GB Hard SCSI Drive, CG 6 Color frame buffer, On-board fast SCSI controller, On-board 10-100 base T Ethernet, On-board Sound, additional fast SCSI controller, additional 10-100 base T Ethernet controller, Mouse + Keyboard. Excellent webserver, file server and strong Unix operating system. Machine is running Sun Solaris (preferred) or any flavor of Linux ported for the Sparc platform. Aurora case.

// Hewlett Packard Rack Mount Network Hubs
4 available, 2 14 port and 2 15 port hubs. All are in excellent condition and recently removed from service. These are rack mount servers.

// Proxima LightBook LB20 DeskTop Projector
SVGA and RCA inputs, 200 ANSI lumens, Serial jack, Computer in jack, Monitor out jack, Video in jack, Audio in & out, TV output, Twin Lamp, True SVGA compatibility (800 x 600), International power supply, LightBoard drawing tool, Remote control, Lightweight (11 pounds - 13.5 x 9.25 x 5 inches), Custom padded case. This unit is in excellent condition and includes all the original equipment (cables + books).

If you see something you like, please let me know. I am open to trades
or sales on any of the machines. Willing to trade multiple machines
for the right gear. Response via Email is preferred.

Sales always welcome ...

Thank you!

The following equipment and accessories are offered as a PACKAGE. I really have no interest in selling this stuff piece-meal and would rather just sell it at or very close to asking price. I would much prefer that this equipment goes to a local Southern California ham so that he can see exactly what he is getting for his money. Also allows me to avoid the packaging, shipping and insurance hassles

Item No. 1 - Yaesu FT-990AC. Functions perfectly. Purchased in 1992, has minor blemishes only (none on front panel), no deep scratches. Includes optional 2.0Hz and 250Hz filters which complement the stock 2.4 HZ and 500 Hz filters. A couple of years ago, I added the optional TXCO-2 High Stability Master Reference Oscillator. The ROM is Version 1.3 Includes stock microphone, power cord and manual. My manual had become pretty dog-eared over the years, so I recently bought a new one which is still in the mailer. Also will include a CAT interface cable which will enable you to use TRX - Manager or similar rig control software packages. I doubt that I have you original box for the FT-990AC

Item No. 2 - Kenwood TM-241 2m Mobile rig. Purchased in 1991 and still works perfectly. Includes microphone, bracket and the manual which is complete but has seen better days. Cover missing I think.

Item No. 3 - Kantronics Kam Plus with the Version 8.0 Eprom upgrade. VHF/HF ports which you can use concurrently. RTTY, Pactor, AMTOR, GTOR, HF/VHF Packet and GPS, etc. Includes manuals and interconnecting cables for both the TM-241A and the FT-990AC

Item No. 4 - ClearSpeech Noise Filer/Speaker. About a year old and works as advertised. Needs 12VAC and includes a mounting bracket.

All this would get a new ham up and running with significant capabilities.

One price for all... $1200.00 (FOB my house)

Okay
Let me explain
This guy purchased an AOR 8200B from us and decided he did not like it and
asked if he could change it for an Alinco DJX-2000, Now he made all sorts of
claims about this AOR being the biggest pile of trash ever made (strange
there are so many satisfied people out there with them) anyway I agreed to
send an alinco and charge him an additional $100 which he agreed to.
Anyway I sent out the Alinco before receiving the AOR back,,, now the AOR
arrived in a copal of days and I had to sell it as used and heedless to say
the new owner is completely happy...
Anyway, This guy gets the Alinco and states it smells of smoke and looks
like the battery has a small mark on it, Now this was a brand new and
unopened box, well I have offered to replace it with another new unit FREE
of charge ad this guy will not send his original unit back until he receives
a replacement from us, now I do not now of a company out there who will
replace a unit without first receiving the other unit back.
Anyway he is now upset at me and I guess wishes to attempt for me to look
bad, Well I have put across my version
So there you have it
For what it was worth
Thanks for reading
Best Regards
Martyn

I have a Cushcraft X7 H.F. antenna (7 element) which was installed for
a year and the 40 meter add-on (X740). Both are in excellent shape
except for some bird do-do. Original boxes and all hardware.  $360 for
the X7 and $190 for the X740. Prefer local pick-up in the Memphis, TN
area, but will ship if you pay shipping.

thanks,
derf  wk4dx

Just a quick ??
I know the mod requires the change of the UC 1251 to a UC1250.
Is the UC1250A the same as the 1250?
Where can I get the UC1250 & price?
Thank you in advance...
Please e-mail me direct at..

Martyn why don't you be honest and tell them it was your own personal radio and that you lied about the shipping charges and that you just dropped the radio in a box without any packing and that the battery pack was scratched badly and had a full charge that lasted only a very short time or that the packing on the accessories were packed in crumpled bags or that the whole package radio and box smelled like it was in a smokey bar for a year. I can go on and on. This will deceive you and claim you are the one that is full of crap. When I complained about the A)R he said he heard reports of exaxtly what I was complaining about. This is my side of the story. My intentions are only to let people know about him and is shady dealings. What I have done was pay full price for a used radio that has a deffective battery to boot along with $30.00 wrapped up in shipping.

And you sound like the kind of person that makes judgements with only one side of the story. Maybe someone someday will make a comment like that about you before you can explain. I paid over $600 for a radio I really wanted. $600 is not the issue. I expect to get what I paid for. That is not too much to ask. I am not looking for a jury here, my intent was to help others so they don't get the same treatment.
Remember, I am the one who has spent the money and not the one who sold misrepresented merchandise.

The subject 'Alinco DJ-S111T VHF HT - $65' says it all execpt plus shipping. The rig works and comes with FULL documentation, including special order $25 Alinco service manual. Mods have been installed for extended Rx. I warranty it not to be DOA. Not the output power so you need to be in an area with good repeater coverage.

DJ-S11T SPECIFICATIONS
144.000 ~ 147.995MHz Sub-Miniture Hand-Held VHF Transceiver

[Image]GENERAL

Frequency Coverage MHz (RX) 144.000-147.995 MHz
(TX) 144.000-147.995 MHz
Channel Spacing   5, 10, 12.5, 15, 20, 25KHz steps
Memory Channels   20 Channels + 1 Call Channel Memory
Antenna Impedance 50 Ohms Unbalance
Frequency Stability +/-5 ppm
Microphone Input
Impedance   2K Ohms Nominal
Signal Type F3E (FM)

Power Supply Requirements 3.6V ~ 4.5V DC
(4.5V standard with 3 AA batteries)

Current Consumption@4.5V Transmitting: Approx. 260mA (High Power
Receiving: Approx. 33mA Squelched)

Operating Tempature -10 to +60 Degrees Celsius 14 to 140
Degrees Fahrenheit
Ground   Negative
Dimensions (Radio Only) 2-1/6(W) x 4(H) x 1-1/10(D) Inches Weight
Approx. 6.5oz. (Batteries Included)
Sub Audible Tones Encoder Installed (50Tones)
TRANSMITTER
Output Power   High: Approx.340mW Low:Approx. 50mW
Emission Mode F3E (FM)
Modulation System Variable Reactance FM
Max. Freq. Deviation +/- 5KHz
Spurious Emission -60dB Or Under Below Carrier Level

Tone Frequency 67.0 to 254.1Hz
(50 Selections)
Microphone Electret Condenser

Operating Mode Simplex/Semi Duplex 5KHz Steps Minimum
Between 0-15.995MHz
CTCSS Encoder Built-In And IncludedAs Standard
RECEIVER
Receiver System   Super Heterodyne Dual Conversion

Sensitivity 12dB SINAD : Less Than -15dBu at
145.000MHz
Squelch Sensitivity Less Than -15dBu
Intermediate Frequency 1st IF: 23.05MHz; 2nd IF: 450KHz
Selectivity More Than +/- 7.5KHz at -6dB
Audio Output   More Than 100mW @ 10% THD
Speaker Impedance 8 Ohms

Where do experimenters go to discuss radio experimentation? I'm interested
in learning more about trunking systems but haven't found a good place to
get involved in any discussion, etc.

Thanks!

Here's the problem & what I have changed & checked...
Unit receives & shows signal, I can faintly here a tone when injected with signal generator, but there is no volume adjustment.
I have checked the following and all are in working order...
Replaced audio amp, replaced volume switch, checked speaker and wires,
Also have the same results when using an external speaker.
This is the odd part..
When roger beep is enabled, I can hear it and adjust the loudness of the tone as heard through my internal speaker with the volume control.
I don't recall being able to hear the roger beep prior to this volume problem.
If you have any serious solutions or can help me out, please contact me direct at...
tramd300@goingplatinum.com

Thank you in advance...

Hi folks.

I guess I just got one too many linears, so here's your chance to pick up a beaut. It's a really nice L4B that's clean, works right, and your satisfaction is guaranteed. The power supply has been updated (by someone before me) with new diodes with bypass resistors, new capacitors plus a new glitch resistor, the right kind of course.

The amp itself has a pair of genuine well-matched Eimac 3-500Z tubes, and they test out great on all bands, 80-10. The front panel is the newer design, and all of the controls work smooth and perfectly, including (of course) the power switch.

I don't plan to make a cent on this one, I just hate to see it sit unused. I would prefer a local pickup in Southern NH, but I will ship if needed at your cost. I've got $725 in this thing, and that's my price. You get all the cleanup, testing, etc that I did FREE, plus 10 days to make sure you like it. Manual included.

Please contact me at (800) 962-2949 or (603) 465-2788

Thanks!
Neil, K1VY

Hello there, My wife and I are High on Want, and Low on Cash.  I do CCTV for
a living, and would trade ALL of my current surplus gear for a nice rig.
Current used value about $5,500.  I'll trade it ALL for a nice rig.  We have
Numerous references.  Please make an offer, I'm open to most any good rig.

Take Care, Ken & Sallie

I am looking for a replacement battery pack(s) for a Heath HW24HT radio. The battery pack says: (exactly as it is on the label)

HEATH
NICAD BATTERY PACK
HWA 110
9.6V 450mAh

I would be looking for an exact replacement battery or even more powerful one and also it would be nice to know if there is a battery pack where standard AAA or AA batteries could also be used too. I am interested in also finding a better antenna for this 2meter/70cm radio than the rubber ducky it has.

I am also looking for battery packs for the ICOM IC-T7H HT and also dual band antennas better than the rubber ducky antenna too.

Heath originally sold the standard battery pack and a higher voltage battery pack which was taller, plus they had a shell to hold six AA batteries. I don't have my old HW24HT or manual handy to check for part numbers. The radio itself and the batteries packs were made by Standard. Some of the ham battery dealers probably still have packs for the radio. You might try somewhere like Mr NiCad.

As for the antenna, the HW24HT uses a standard BNC connector so you should be able to get just about any sort of antenna you'd like. The original antenna used a loading coil in a rigid plastic base and a thin flexible "rubber duck" element about 6" long. The radio isn't terribly fussy and will transmit into just about anything resembling an antenna - I think it would probably work into a piece of wet string if you cut it near a quarter-wavelength.

FOR SALE:
Lafayette HA-225 Receiver in very good condition.

Has general coverage and also bandspread for the amateur bands.
1966 era. Has Five (5) bands: 150-400kHz, 1.6-4.8MHz, 4.8-14.5MHz,
10.5-30Mhz, 48-54MHz

Additional bands for bandspread on the amateur radio bands.

14 tubes: 6AQ8 (6m rf), 6BL8 (6m mix/osc), 6BA6 (rf), 6BE6 (mix), 6AQ8 (Q-Mult/Calib), 2
6BA6 (if), 6AL5 (det, anl), 6BE6 (pro det.), 6AQ8 (af,bfo), 6AQ5 (af out),
0A2 (reg),
6CA4 (rect)

Interesting design in that it covers all the way up through 6 meters,
and it has the output transformer mounted diagonally to minimize
hum from power transformer.

See: http://member.nifty.ne.jp/hanazawa/radio/lafayette/

Will sell for $95.00 plus shipping

Also have a Lafayette external speaker to go with it.
Model 99-2521 - matches their classic receivers. Excellent condition.

Will sell for $20.00 plus shipping

Pictures available

Takk about memories. For those interested in trivia this
radio was good on 6 meters.. The one I had was like
the picture and the two tube sub chassis (right front in pic)
is an International crystal 6 meter converter. at least the
earlier ones were.They may have made their own later.

Here we have another spammer. It misleads in the subject line by saying this item is FS "OR" For Sale "OR" misleads and indicates said item is for sale when it is actually FA = For Auction. The FA is used by those of us that do not Do Auctions. We set our spam filters for FA in the subject line and we do NOT have to see the auction spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting the JUNK they have at the Auction..

If you have received this message it is because I saw a subject line that interested me and when I downloaded the message It was nothing more than your auction SPAM and was NOT what the subject line said it was.

Some of the Real Sleazy people will make it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

What type of 40mtr antenna is it 2el or one element?
I guess the KMA antenna is a LOG type with a 40ft boom.

I bought an Icom 706MKIIG from Lance, K4WH, and I must say it was even
better than what he said (I can't tell it from new).

I would buy from Lance again in a heartbeat, he is a person of honor.
Shipped fast too, good communicator, fair prices, great packaging.
What more could you ask?

Neil, K1VY

This is an UNPAID endorsement.

KMA makes log periodics, but their 13 to 30 MHz is 8 elements
on an 18 foot boom. He may have a custom made antenna.
Nothing on the KMA website matches it.

Pete

Hi
it is a hi-gain
the kma is a custom built. he designed it for me. i have since moved and since no one wanted it before i moved i took it down and brought it with me i will put it up here.

*** Homebrew Radio things ***

Many hams build things with a large investment in time & parts that are worth far less... later. Here are some items from the estate stuff I've been selling that fit that description -- priced accordingly.

Unless noted, most of the items below are built on PCB material and most of the enclosures are made by soldering pieces of PCB material into a box -- not all sides may be present! Batteries not included! A few of these devices come with schematics, mostly not. The wiring is all open enough that you can generally see what is going on.

Battery drainer -- LM317K (TO-3) plus a pot wired as a current sink to drain batteries -- 4" x 3" x 1.5" -- $2

PL Tone generator -- Wein Bridge Oscillator powered by two 9 volt batteries. - $3

Touch Tone Encoder -- Western Electric Touch Tone Dial mounted in a 4"x4"x2" metal enclosure with power switch. Has a 4 pin DIN connector plus matching cable terminated in a 1/8" mini plug. $5

Two Tone generator -- Two Wein Bridge Oscillators powered by two 9 volt batteries on perf board. - $5

Some kind of test oscillator with a 556, two pots with anodized gold (colored) knobs, pwr. sw.. LED,. & Banana jack outputs -- $5

60dB Sampling Tap -- HN female connectors for the main line and a BNC for the tap. 1KW in the line puts 1mW to the tap. -- $10

435 MHz power splitter with (3) N connectors. This is made out of brass sheet stock and is about 15" long by 1" square. $10

Varactor multiplier (unfinished) -- looks like it's designed for 144 to 440. Built in a 3.5" x 2" x 7/8" extruded aluminum case -- top plate missing. Silver plated coils, Johnson 189-6-4 caps. It think it is complete execpt for the input and output leads. $10

Some kind of VHF thing just started. Pomona 4"x2.5"x1.5" cast box with a couple 160-104 capacitors, BNC connectors, a miniature 50K bourns pot., 6 capacitors mounted to gold plated terminals with a very pretty gold flashed internal shield structure. Nothing is soldered -- this was just started. $10

Antenna Noise bridge? -- Pot & Cap plus 4 transistor circuit mounted in a 5" x 4" x 2" enclosure. BNC connectors marked ANT & RX. Pwr SW. & Led Powered by a single 9 volt battery. - $10

VLF Up converter -- Converts 30KHz - 530KHz up to the 3MHz Range -- 6" x 4.5" x 1.25", requires external +12V -- $10

Two Meter to 24-28 MHz converter (I think!) -- 5" x 4" x 1.75" -- $12

A VHF thing -- Two trombone lines adjustable between 4-6" with a transistor connected between them plus a Phasotron 50 ua 2" round meter on a BNC cable with a small loop w/a diode. -- $12

NTSC Frequency reference -- I think this was a QST project in the early 1980's. PCB in 4"x5"x8" metal case (top missing) w/feet, AC line powered. -- $20

144-148 MHz to 24-28 MHz Transverter -- 5" x4" x 4" overall -- 2N3866 Output transistor, probably runs about a watt on transmit. Barrier strip for power (12V?) and an 8 pin Japanese style Mike connector for ?. Transmit & receive sections are each 5" x4" x 2" and only interconnected with a few wires -- $30

Hello there, thought the 940 was sold, but looks like it isn't. It's in very good condition (except for the manual, well used, but still available new from Kenwood for $13.00 part # B50-8001-30). Also has a small hole on the back screen where someone had an attachment hooked on, but is not very noticeable. Has the AM and SSB filters, and WAY too many other features to list. Radio, hand mic, and manual for $800.00 plus shipping. I also accept Paypal for payments. Please feel free to check my feedback on ebay, username gr8rdayz. I have 100 Positives, and NO negatives.

Take Care, Ken.

I have a Kenwood MC-60 microphone that is surplus to my present needs.

The mic is in good condition and I get good audio reports when I use it.

Here are two pictures:

http://www.eskimo.com/~ghopper/MC-60a.jpg
http://www.eskimo.com/~ghopper/MC-60b.jpg

I would like to get $95.00 plus shipping but I will consider all offers.

questions? email ghopper@eskimo.com

Well here's some radio stuff plus some books excess to my needs that will
ship
USPS Bookrate. Buyer pays actual shipping via UPS or USPS to continental US
only. Stupid Earthlink has just bought my stupid ISP so my pics may not
load. If not email me for them. Thanks for looking.

1. Heathkit RF signal generator Mod. IG-102 in nice condition and working.
$20

http://www.jps.net/jonnysocko/IMG_

2. CONAR signal tracer Mod. 230 in nice condition $20

http://www.jps.net/jonnysocko/IMG_0184.jpg

3. RCA Oscillograph from the 1930s in excellent condition. Has trace but needs
caps replaced. $75

http://www.jps.net/jonnysocko/IMG_osc1.jpg
http://www.jps.net/jonnysocko/IMG_osc2.jpg
http://www.jps.net/jonnysocko/IMG_osc3.jpg

http://www.jps.net/jonnysocko/IMG_osc5.jpg
http://www.jps.net/jonnysocko/IMG_osc6.jpg

4. HP 1206B Oscilloscope. In good condition and working. $50

http://www.jps.net/jonnysocko/IMG_HP1206B.jpg

5. 1920s Steinite 261 in very nice condition. Needs elec. restoration. All tubes
included. $75

http://www.jps.net/jonnysocko/IMG_261.jpg
http://www.jps.net/jonnysocko/IMG_2612.jpg

6. Very nice EICO 667 tube tester. W / manual $75

http://www.jps.net/jonnysocko/IMG_0197.jpg

7. Sprague Twist Loc Lytic Caps for power supply restoration NOS. Make offer.

http://www.jps.net/jonnysocko/IMG_0207.jpg

8. HexAcon 350Watt Soldering Iron. Excellent shape in original box.

http://www.jps.net/jonnysocko/IMG_0198.jpg

Books:
All are in very good shape.

1. Radio Mfgs. of the 1920s by Alan Douglas (small crease on back cover) $12
2. Old Time Radios "Restoration & Repair by Joseph J. Carr $12
3. Electronic Techniques and Shop practices and construction. Third Edition. Excellent resource! $20
4. The Radio Manual 2nd Edition 1930 by Sterling. Excellent cod. Some writing inside. $15
5. 1992 World Radio TV Handbook $5
6. NRI Radio TV Electronics Dictionart $5
7. Archer Building power supplies by David Lines $5
8. Resistor-Transistor Logic 1973 by Lancaster $5
9. Electronics Made Simple 1965 by Jacobowitz $7

10. Radios By Hallicrafters 1st book. Dachis. $15
11. Shortwave Directory by Bob Grove $8
12. Aeronautical Freq. Directory by Coburn $8
13. Amateur Radio Encyclopedia by Gibilisco W1GV. $12
14. Golden Classics of Yesteryear by Dave Ingram, K4TWJ $5
15. Radio / TV Interference by Hughs VE3DQB $5
16. TEK SC502 Oscilloscope Manual. Excellent Reprint with spiral binding. $12

```

I have an Icom IC-03AT for sale. It is in good condition and includes the radio, antenna, BC-25U battery charger, a photocopy of the manual, and a BP-03 battery.

The radio works well and has basiclly been replaced by and IC-3SAT and an IC-38A so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $135.00 plus shipping but will consider reasonable offers.

I have an extra BC-35 rapid charger, in it's box, that is surplus to my needs. The charger works great and and is in great physical condition (case not cracked, metal not bent, no excessive wear.)

I'd like $55.00 plus shipping, but I will consider all reasonable offers because I would like to sell it.

I have a 2 meter amp for sale. It is new-in-box as I never got around to using it. It was made for Radio Shack and by all accounts was a good amp and did a superior job of rejecting intermod due to its good receive filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $55.00 plus shipping but will consider offers.

I'm cleaning out the shack in preparation for a remodeling project.

I have a Mirage C-22A amp that I was using with my old IC-03AT. The amp is clean and works fine.

The specs: receive preamp has 10db gain with .5db noise figure. Freq. range 220-225 Mhz, Power input 0.1 to 5 watts max, output "20 watts or more with 2 watt input and intermittent duty cycle". The unit worked very well, but is surplus to my needs now that I have a 38A.

I'd like $75.00 plus shipping for the amp but, I will consider reasonable offers and trades.

Alrighty then.... I will be checking into some of the resources people have be referring me to here. Just wondered if anyone had any extra batteries or antennas for this thing.

73's
Ryan

*** 455 KHz Mechanical Filters ***

Collins F455Y21 / 526 9337 00   455 KHz, 2.1 KHz bandwidth. Used, checked ok.
$60

Kokusai LSB / USB 455 KHz filter pair MF-455ZL-21H / MF-455ZU-21H
2.1KHz -3dB@2.1KHz, -6dB@2.5KHz, -66dB@4KHz.
Rectangular metal package NOS $80 (for both filters)

LSB filter only (same specs as above) NOS -- $30 ea

*** Crystal Filters ***

10.7 MHz, 13 KHz Bandwidth Crystal filters, various mfgrs. used $10 ea

Motorola TLD5340A, 157.590 MHz, RCA connectors -- $10

All of the above plus shipping, if necessary, naturally.

***** Used Coax Connectors ****

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

PL259's UHF male cable connectors (new)   -- $1 ea
UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF elbows   -- $2 ea
UHF F-M-F Tees   -- $2 ea
UHF female - N male adapters   -- $2 ea

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-57B/U N Male-Male connector -- $4 ea
UG-635/U C Female - BNC Male adapter -- $5 ea
UG-636A/U BNC Female - C Male adapter -- $5 ea

UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

***** New Coax Connectors *****

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

Below are all new crimp on connectors, with all hardware, in individual
plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics
   KC-59-642-M06 BNC Cable Male   -- $1 ea
   KA-59-385-M06 TNC Cable Male   -- $1 ea
   KA-19-43 TNC Bulkhead Female   -- $1 ea

***   Coax Antenna Relays ****

These all have (3) UHF connectors. They are somewhat old looking on the
outside but,
I popped the inspection port on each and all the contacts are all happy.
And they all go "clunk" upon application of the appropriate voltage.

Dow-Key DK-60 style
   110-115 VAC coil   -- $30

Advance (same style but, heavier contacts & construction)
   115 VAC coil   -- $30

All of the above plus shipping, if necessary, naturally.

****** VACUUM CAPACITORS & other Vacuum things ***********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S	300pF	15KV	$200	with standard puller, later manufacture (blue)
UCSL-750	750pF	3KV	$125	with standard puller
UCSL-1000	1000pF	3KV	$125	with standard puller

R1G SPST 20KV 20Amp Vacuum Switch $80

---Fixed vacuum caps--

Jennings VC-12	12pF	20KV	$20	
Jennings	50pF	86KV	$86	
Western Elec	100pF	5KV	$30	(This one hi-pot checked @ 14KV)

--- Vacuum Relays --

Old "T" style vacuum relays, the coil slips over one leg
of the glass enclosed contact assembly -- One of the contacts has a Penta
Labs
part number: 420 53 3875.   The coils are 28V. $10 ea

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum
relay mounted on top of a small (2"x3"x4") metal enclosure. There is a
15 pin Jones connector on the side of the box. I believe that there are
some auxiliary contacts in the box in addition to the vacuum relay.
28VDC. $15

All of the above plus shipping, if necessary, naturally.

*********** Air Variable Capacitors ********

Johnson T9-5 minature vertical PC mount trimmers 1.9-15.7 pF, Silver Plated machined plates -- NOS 2/$1

Johnson 154-506 Dual 153pF 3KV air variable used, good �" shaft, $15ea (2 available)

Johnson D Series Dual 200pF .080 air spacing about 4"x4"x8" overall, �" shaft $15

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, �" shaft $2ea (2 available)

National Type DX 500pF variable capacitors, approx. 3" X 3" x 3" overall fairly good condition. $10 ea.

```
Remler "scissors" variables.  Type 630  350pF  $25
                              Type 631  500pF  $25
```

Hammarlund NZ-10 Neutralizing capacitors, shiny NOS, $20 pair

..and a whole bunch of Neutralizing capacitors as listed below $8 ea

```
Bud NC-853   (2 available)
        NC-1000  (2 available)
```

Hammurlund N-10 (ceramic repaired)

National NC-800 (old version - ceramic repaired)

NC-800 (later version)
NC-150

Johnson 150-375

Millen (part no. unknown) w/ 2-5/32" disks
(part no. unknown) piston style

Unknown Mfgr w/ 2" disks

**** Ceramic Doorknob & Disk caps ***

These are used Centralab or similar -- $5 ea or 5/$20

500pF 10KV "TV" style
68pF 5KV 850 series

These are NOS disks by KD & Erie $3ea or 4/$10

1500pF 7.5KV
.01uF 4KV

And a couple NOS Silver Mica caps.

2200 pF 500V CM06 $1 ea
5100 pF 500V CM07 (high current rating) $2 ea

All of the above plus shipping, if necessary, naturally.

***** Roller Coils ******

B&W 3853 72 uH NOS but, a mite tarnished from age. $60

Johnson 229-202 18uH used good, $50

La Pointe L-0201 406-1 (identical to a Johnson 229-201) 10 uH. used good, $30

*****   B&W Air Dux coils *****

These are all shiny NOS, 10" lengths, unless noted otherwise

#2408T 3" dia, 8TPI, #14 wire -- $30

#2008T 2.5" dia, 8TPI, #14 wire -- $30
#2008-31 2.5"dia x 4" long , 8TPI, #14 wire with 2 turn #14 link at center.
NIB $25

#1604T 2" dia, 4TPI, #12 wire, slight tarnish $20

#1208T 1.5" dia, 6TPI, #12 wire, slight tarnish $20
#1216T 1.5" dia, 16TPI, #16 wire, somewhat tarnished $20

#1006T 1.25" dia, 6TPI, #14 wire, somewhat tarnished $15

These are all somewhat tarnished NOS partial lengths

#1008T   1.25" dia, 8 TPI, #16 wire, 8" long -- $12
#1016T   1.25" dia, 16 TPI, #20 wire, 8" long -- $12
#1032T   1.25" dia, 32 TPI, #24 wire, 5" long -- $10

a couple of miniductors (lighter construction)

#3035   3" dia, 10TPI, #16 wire, slight tarnish 10" long -- $25
#3027   2" dia   10TPI, #16, 7" long shiny -- $20

and a couple of Illumintronic Engineering parts

375 7367-P1 -- 1.5" dia.x 5.75" winding w/ indented turns, 14 TPI, #17, 7" overall
   including plastic center support, un-used somewhat tarnished $25

980-0121-000 -- 2.5" dia. x 7.5" winding w/ indented turns, 8 TPI, #14, 9.5" overall
   including plastic center support, used somewhat tarnished but, no turns soldered $30

All of the above plus shipping, if necessary, naturally.

******* MICROWAVE *******

Micromega 28450-1265 Solid State sources.
I believe that these are on 12.65 GHz and can be tuned but,
I don't know how far. And these are also phase lockable but,
I don't know the reference frequency input. WR-75 output flange.
Terminals are marked. $50 ea

Hughes M-band balanced mixer assemblies which have WR-75 flanges
on the RF & Oscillator inputs and wire terminals on the IF outputs. $30 ea

Avantek SD7-0738N GaAs Fet Preamp. 3.7-4.2 Ghz WR-229 input flange.
N output connector. 4 pin AN type power connector -- pin assignments
noted on label. $50

Rantec FU-301 Filter? or Delay Line?? at some GHz ...I don't know.
N connectors -- 7 3/4" x 3 3/4" x 1" overall. $10

Display (or paperweight) Traveling Wave Tube. The tube was cut in half and
encased in clear resin. 15" x 4" x 1.5" thick. There are some scratches on
the resin surface which I think could be buffed out. $50

And a similar display piece of just the cathode assembly from a
larger Traveling Wave Tube. 3.5" x3.5" x 1.25" thick $25

Hewlett Packard 930A Switch WR-90 X - band $30
Note: this is a waveguide part

WR75 terminations $3 ea

IMPATT Diodes -- NOS individually packaged with test data
NEC ND8P15-5H-C 1W @ 14.8 GHz $50 ea
NEC ND8V12TU 2.5W @ 12.6 GHz $75 (one only)
Loral GC-5831E 300mw @ 12.5 Ghz $30 ea

Microwave Mixer Diodes (I think!) -- NOS in original capsule packaging
Sylvania D5163 4 pcs $30 all

All of the above plus shipping, if necessary, naturally.

***** Mechanical Things & tools *****

National Type A Velvet Vernier dials-style 2 (marked 0-100 over 180 degrees)
3-3/8" or 4" diameter -- $25 ea

Sanyo-Denki 103-775-0611 Stepper Motors -- 1/4" dia. shaft extends about 3/4" out each end. Outer Case is about 2.2" round, with a square flange on one end, by 1.5" deep.
1.8Deg (200 step/rev) 2.25V, 1.25A, 8 lead configuration presently wired as 4 lead units
(I think the coils are wired in series for bi-directional drive) to "Molex" connectors.
RFE 10 pieces, $100 all

NOS fan that fits some Japanese radio...marked: 57 10.01 100V
The wires from the motor are about 4' long and are terminated in a 2 pin JST connector.
The impeller has 8 blades and is 7 cm in diameter.
It is mounted to a U shaped metal frame with four mounting holes spaced 5cm by 9cm
$10

Craftsman 335.25926 "Drill Press" -- adapts a 1/4" electric drill (not included)
to function as a small drill press. Used, but not much! $20

Trav-A-Dial bidirectional counter -- I think this was originally for use with a mill or lathe in conjunction with a 200 count/rev quadrature encoder to read displacement in .0005" increments up to 200 inches. These use Hewlett Packard dot matrix decimal readouts for a very pretty display. Switches for direction control and reset. Nice cast metal case, requires +5V. $75

Prototype or reject circuit boards from the above -- the readouts are either all good or one bad one per board -- which is probably why they were removed from service. $15 ea

Pulled and tested HP 5082-7300 RHDP decimal readouts -- $5 ea
Pulled and tested HP 5082-7304 +/-1 decimal readouts -- $3 ea

NOS 5082-7302 LHDP decimal readouts, still in HP packaging, $10 ea.

Listed below are all serious squirrel cage type fans:

Redmond Model BL-6 115 VAC .8A 60Hz 3000 RPM 4" round intake, 2.5" square output flange, weighs 6lbs. used -- $20

ILG Electric Ventilation 17-18-022A encased motor with 181-009-EA fan 115/230 VAC 1.6A/.8A 50/60Hz 3000 RPM 4�" round intake, 3�" x 4-3/4" rectangular output flange, weighs 25lbs. used -- $30

Kooltronic Model DF1F016N Dual fan style 230 VAC 1.2A 60Hz 3000 RPM 3�" round intakes, 2.5" x 5" rectangular output flanges, 16" long by about 7" diameter overall, weigh 15lbs. These look like NOS but, they are a mite dusty from storage -- $50 ea (3 available)

All of the above plus shipping, if necessary, naturally.

**** SEMICONDUCTORS ****

GE 1N3289 rectifiers, 100A, 200PIV, DO-8 large stud package. These look like
NOS --
(It doesn't appear that the anode leads have ever been bolted to anything.)
4 pieces -- $20 all

GE 4JA61C rectifiers, 50A, 300PIV, large stud package. A pair for $5.

GE 4JA63C rectifiers, 50A, 300PIV, large stud package. Four for $10.

GE A70B, 100A, 200PIV, DO-8 large stud package. Used. Four for $15.

GE C156D, 110A, 400V Inverter SCR's, used. $10ea.

Lambda FBH-24 Hybrid Regulators NOS -- $10 ea

Motorola NOS rectifiers, 50A, 100PIV, plate mounted. 2ea MR1201FL & MR1201FLR (a bridge worth)-- NOS $10 all

Motorola NOS TIP34A 10A 60V TO-218 PNP Power Transistors. 4/$1

Sarkes-Tarzian Model 78D center-tapped Selenium Rectifiers. NOS! $5ea

Westinghouse 6-1-1B/1N1188 3 Phase 600V 35 Amp rectifier assembly with heatsink. Unused but, tarnished from long storage $10.

Westinghouse NOS, 80A, 1000V house-numbered SCR's $15ea.

Westinghouse NOS, 20A, 1000V house-numbered Rectifiers $4ea.

All of the above plus shipping, if necessary, naturally.

*** SWITCHES ***

Radio Switch 86 series 6PDT (3 DPDT wafers) RF style switch used good -- $30

General Electric WW2 vintage (has that BC-375 look) 6 position RF style switch.
Very solid detents! Used, excellent. $10

Switchcraft lever switches -- all have black round knobs unless noted
8PDT (#60024L) NIB -- $5
4PDT (#160012L) NIB -- $3
DPDT (#3006L) used -- $2 ea
DPDT plus 2 form A contacts (41000 series) barely used (a single pair of contacts) - $2

Three pos. 2 form B momentary (#3035) NOS -- $2
Three pos., 2 form F momentary (3000 series) used -- $2ea
Three pos., 3 form A momentary each side (3000 series) NOS, white rect. knob -- $3

Three pos., 2 form C momentary (#130312) NOS -- $2ea
Three pos., 2 form C (#130312L) NOS -- $3
Three pos., 3 form A momentary each side (13000 series) NOS, red rect. knob -- $3
Three pos., 2 fom C (DPDT) each side (#160312) NOS -- $3

Mossmann 3PDT lever switch (4803Z1P2) NOS -- $2

C&K 8121 SPST miniature pushbutton switch -- 1A 120VAC silver contacts NOS $2 ea

Dialight 570-31 3PDT miniature toggle switch with 5/8" long handle -- 5A 125 VAC NOS $5 ea

Grayhill 46YY2159 Sealed Pushbutton switches, RFE -- These were SPDT but, the

NC lead has been cut off flush with housing. The NO & COM terminals are cut short like they were removed from a PCB. Nice metal shaft has about .2" travel. No button nor hardware, 1/4" mounting thread. And there are a bunch of them -- 4/$1

All of the above plus shipping, if necessary, naturally.

*** MISCELLANEOUS ***

Filter Cap Assemblies: Eight CDE 80 uF/450V axial electrolytics mounted to a 5"x8" fiberglass PCB -- these are currently wired sort of series-parallel but, could be reconfigured by cutting & jumping a couple PC traces. $20 ea. (2 available)

Large (uncased) display unit. 256, T-1 3/4, LED's arranged in a 16 x 16 pattern that is about 5" square. There is a 6" x 6" mother board plus 16 daughter boards holding the LED's. The LED's are driven by latches so any/all of them can be lit. There is a 14 pin DIP interface connector -- pin out provided. $75.

DPDT Crystal Can relays with 600ohm 28V coils and 2A 28V contacts made by Leach, Datron and other manufacturers. They have small solder hook pins for connection and a pair of ears on the sides to mount the relay. These are old but, as they are hermetically sealed, they should be like new inside! NOS $3 ea (a dozen or so available)

Red & Black Five Way Binding Posts -- NOS, look like HH Smith 459, requires 1/2" mounting hole up and will fit up to 3/8" thick panel. $1/ pair (one ea red & black)

Late '70's vintage likely Military, probably airborne, VHF power amplifier assembly. It consists of 7 almost identical amplifier assemblies clustered around a central housing that has splitter combiner networks which are plugged onto each end with a bunch of SMB connectors. There are TNC's for the main in's & outs. I think it was originally configured as one amp, driving two, driving four boards. The complete assembly measures 7.5" x 5" x 3.5" overall -- the individual RF amp boards are 4.5" by 2". The outer covers are mostly missing. Each amplifier is a push pull design -- they appear to be 50 ohm in & out impedance with either PT6747 or PT6702 TRW transistors. I would guess this unit operates on 28VDC. I don't know what frequency range it covers nor the power level though, just guessing, it probably puts out at least 100W. And there is no manufacturer name -- probably went with the outer cover. Six of the stages are marked OK and one, the input stage I think, is marked NO Good. The individual amps have integral heat sink plates so, they could be removed from the assembly and used separately. Think of it as 7 amplifier boards @ $10 ea -- Bare PCB's would cost as much! -- $70

200W (or so -- 10" long) 1500 ohm 10 tap (every 150 ohms) power resistors -- used good, $10 ea (2 available)

Ohmite 3K, 225 Watt power resistors used w/mounting clips -- $7 ea (8 available)

Ohmite 2K, 225 Watt power resistors used w/mounting clips -- $7 ea (10 available)

Four 37.5K 78W power resistors used w/mounting clips -- $15 all.

Carter Radio 500K ohm rheostat with 2" diameter skirted knob, calibrated 0-100 over 270 degrees -- $15

Motorola 4-pin Microphone connectors 28-16730 -- NIB $5ea

Motorola TLN6824A Vibrasender -- Freq. 1B, 107.2 Hz $2

Motorola TLN1361A Timeout Timer $4

Tunable CTCSS unit -- Part no. 1100-1609-000 -- 1" x 2" PCB with wires to an 8 pin SIP connector -- Includes double sticky mounting tape. NIB $10

Parasitic Supressors, large pair -- 2 Turns of 3/8" wide silver plated strap wound over Globar 25 ohm, 3" x 5/8" bulk ceramic resistors (rated 20-25 watts?). The strap extends 1.5" from one end and 2.5" from the other. The silver is heavily tarnished but should clean up with Tarn-X or similar. $20 for the pair

Powerstat Type 10 120V 1.25 A variable transformer (variac) used, no knob nor dial -- $15
Type 10B 120V 1.75 A variable transformer (variac) used, with dial, no knob -- $20
Later 10B 120V 2.25 A variable transformer (variac) used, with dial, no knob -- $25
Later 10B 120V 2.25 A variable transformer (variac) NOS, with dial, no knob -- $30

A couple old RF chokes:
#22 enameled wire space wound 24 TPI for 2.75 on a 1" diameter grooved fiberglass form 5" overall -- $10
#27 (green enameled) wire wound 40 TPI for 4.3" on a 3/4" diameter ceramic form which steps to a 1.3" diameter base tapped for two 6-32 screws, 5.5" long overall. Looks like winding has been cleanly spliced, twice -- $15

Pomona #2399 cast Aluminum Boxes (2�" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA female connector on each end. New (in factory sealed plastic bag) -- $15 ea

Thordarson 20A01 Input Transformer NIB! -- Single or double button microphone or line to single grid. Turns ratio 1:20 Includes original data sheet -- $25

Vibrafork 4 channel resonant reed relay. A real relic. NOS! $10

10uF 600 VDC "oil" caps, 5", 3.5" x 1" w/ mounting ears. $3 ea

All of the above plus shipping, if necessary, naturally.

***** Power Supplies *****

Open (L-shaped) frame linear power supplies 6" x 3" x 2" with attached 2 wire polarized line cord, 120V 60 Hz AC input; internal 1A line fuse. There is a relay that switches the 3 voltage outputs. They have a six-pin SIL output connector and come with a matching cable to pigtails.   The wires are: GND, +5V switched, -5V switched, relay (gnd to operate), +12 switched, and +12 constant (for the relay). Just guessing from the 780X series regulators, I would think that the +12 and +5 outputs are good for about an amp. and the -5, which regulator is unheatsinked, perhaps a couple hundred mA.

$15 ea. (5 units available)

Lambda LM B0-60 -- 0-60V, .45A Linear Power supply with remote sense terminals, screwdriver voltage adjust, 5"x3"x7" -- used $25

Power General
    Model 1035-2 -- 12V, 3A, Switching Power supply, uncased PCB 5"x3"x2" -- NOS $15

    Model 3050-1 -- 5V@6A , 12V@1A & -12V@1A, Switching Power supply, uncased PCB 5"x4"x2" -- NOS -- $25 ea (4 available)

    Model 3056-6 -- 5V@6A & 12V@3A, Switching Power supply, uncased PCB 5"x4"x1.5" -- NOS $25

Sierracin 5C12A -- 12V (5 Amp?) Switching Power supply with remote sense terminals -- open frame 5"x8.5" x2" -- used $15 ea (2 available)

All of the above plus shipping, if necessary, naturally.

NE-17	3	
NE-20	2	
NE-32	6	Big
NE-42	3	Real Big
NE-45	12	
NE-48	5	
NE-51	22	
NE-79	1	
CM-81A	3	

& an OSRAM N32 marked 380V
plus a couple other screw-in types on which I can't read the numbers

These are a mix of new and used, mostly made by GE, though I saw a few Westinghouse and RCA -- they probably average 40 years old and most of the bases are somewhat tarnished from age. I lit up a couple of the larger ones and they seem to work ok.

If anyone would like the whole bunch, I'll take $75 for them all.

All of the above plus shipping, if necessary, naturally.

************ Old Radio Knobs **************

These are all used, most have set screws, with nothing worse than minor scuffs and smudges and fit 1/4" shafts, unless noted.

Dakaware
1-1/16" Knurled Knob -- $3
1-1/16" Knurled Knob w/ 1.5" skirt w/ white indicator line -- $5ea
1-1/16" Knurled Knob w/ 2" skirt marked 0-10 -- $8
1-5/8" Knurled Knob w/ 2-1/16" skirt & unfilled indicator line -- $8
2-3/8" Knurled Knob w/ white vinyl pointer at skirt level -- $12 ea
2-3/8" Knurled Knob w/ 3" skirt & unfilled indicator line -- $12
2-1/16" skirt only -- $2

Short (1-3/16")pointer knob w/ white indicator line $1 ea
Long (2") pointer knob w/ white indicator line $1.50

Harry Davies
#1206 1-3/8" knobs -- $4 ea
Short (1-3/16")pointer knob unfilled indicator line -- Not sure if this is Davies... There are a box of these -- 2/$1 ea

Hewlett Packard (70's vintage)1-5/8" spinner knob w/ 3/8" bushing -- $10

Kenwood 5CM diameter knobs that look like they are from a Kenwood TS-830 (main tuning knob) or similar
"Stock" knob -- $7
One that's been backfilled with shot to give it some heft -- $7
The plastic spinner version -- $15

Kurz-Kasch
#308 1-1/8" knob -- $4
#308 1-1/8" knob w/ 1-3/4" brite metal skirt with 100 graduations and tens indicated in black -- $8
#309 1-5/8" knob w/ metal spinner and 2-1/4" black metal skirt with 100

graduations and tens indicated in white -- $12
#309? (may not be KK) 1-5/8" knob w/ plastic spinner and 2-1/4" metal skirt with 100 graduations and tens indicated -- $12

#310 2-3/8" knob -- hub drilled out to 3/8" -- $8
#310 2-3/8" knob w/metal spinner shaft -- $12 ea
#311 2-1/16" skirted knob (some of the white lines are need refilling on these) -- $8ea
#380 1.5" skirted knob -- $5

These look like what was on some '60's Hammarlund, Eico & Knight Kit stuff
#642 1.5" skirted knob -- $5
#647 1" skirted knob w/indictor line -- $5 ea
#653 1.5" skirted knob w/indictor line -- $5 ea

Millen? (has a logo that looks like a "M" with an "I" superimposed at the center) #309 3-1/2" Handwheel style knobs as seen on the SX-28, if I recall correctly.

These are all in need of minor plastic surgery -- two have chips out the skirt where the set screw goes and one has had it's center drilled through... perhaps, to make a concentric assembly??
$10 ea.

National HRT 2-1/16" diameter
Black, trim rings somewhat tarnished -- $5 ea
Gray, trim ring shiny like new -- $10

National Type A Velvet Vernier dials-style 2 (marked 0-100 over 180 degrees) 3-3/8" or 4" diameter -- good condtion, $25 ea

There are also many knobs from 1960's Tektronix and Hewlett Packard oscilloscopes, if anyone has any need, please inquire.

All of the above plus shipping, if necessary, naturally.

Want to buy a ICOM BP-120 AA (6) Battery Case. Must be in good condition, no corrosion or fractures in the case. I don't need batteries.

Thank you

Ken - WB4ZOH
Manassas, Va

I have a rohn 25 tower. 3 full sections 1- 5' section.
the Glen Martin Hazer H-2 with the roller bearing wheel kit installed.
1- 7 element 5 band beam 20-10 meter beam 40' long built by KMA Antennas

in New London N.C.
1- 40 meter rotatable HI-Gain Antenna

1-AR-10 Ringo 10 meter vertical.
1- Hy-Gain IV rotor and control box.
Everything in still in the air but with the hazer on the tower no
problem to take antennas down.
Reason for selling relocating.
Buyer must pick-up local Greensboro north carolina and take down I will
help with the take down and loading on your truck or trailer.
850.00 obo

There was a guy at our last swap...June 16th that had two large boxes of
them.  sold them for $10 each.

For Sale Yaesu FT-847 All Mode Transceiver. 160 through 2 meters plus 70 cm. It is in very good condition and has not been exposed to cigarette smoke. Also included is a 2m/70cm antenna combiner and mobile Bracket. I bought the bracket and could not find enough metal to mount it to in my vehicle so the radio was not operated mobile. Original box and manual.

Asking $1200.00 Plus shipping and insurance.

Jerry

Radio turns on but doesn't TX.
Displays only DOTS on some bands.
I consider this one a PARTS RADIO .
Radio belonged to a friend of mine who doesn't have the time and money to try to fix it!

SOLD AS IS

BEST reasonable offer will take it plus s/h+ins.(I will prefer a local deal in the D.C.metropolitan area)near Baltimore,MD

I have a rohn 25 tower. 3 full sections 1- 5' section.
 I have pics if your interested.

the Glen Martin Hazer H-2 with the roller bearing wheel kit installed.
 1- 7 element 5 band beam 17-6 meter beam 40' long built by KMA Antennas

in New London N.C.
 1- 40 meter rotatable HI-Gain Antenna
 1-AR-10 Ringo 10 meter vertical.
 1- Hy-Gain IV rotor and control box.
also incuded guy wires.
 Everything in still in the air but with the hazer on the tower no
 problem to take antennas down.
 Reason for selling relocating.
 Buyer must pick-up local Greensboro north carolina and take down I
will
 help with the take down and loading on your truck or trailer.

Thanks for reading my post.

I have a MINT condition ICOM IC-737 General Coverage HF Transceiver,
includes built-in antenna tuner, wiring harness, owners manual, no mic
(MIGHT have a stock mic around).

Would like to trade for a MINT condition Kenwood TS-940SAT. If your looking
to UPGRADE to a NEWER HF rig, here is the perfect rig! Nothing at all wrong
with my IC-737, had the Kenwood TS-940SAT as my first rig, and would like to
have another!

73 Daniel KC4OXP

Hey all, the wife and I are looking for radio gear.  Cash isn't at an all
time high, if you know what I mean.  So, I'm willing to make someone an
AWESOME deal, if you could use any CCTV gear.  Maybe for surveillance, ATV
use, whatever.  That's what I do by trade, and I have about $12,000 worth of
excess gear, ie. color cameras, b&w cameras, switcher, monitors, time-lapse
vcr, etc.  I'll trade it ALL for some radio gear.  I could use just about
everything.  Would really like a nice base rig, but any is considered.  The
gear is just taking up space.  I have LOTS of references, including over 90
Positives on ebay, and NO negatives.  Please, make offers on what you have.

Take Care, Ken & Sallie

You can advertise surplus gear at www.qsl.net/g3cwi for free. Check
out The Amazing Online Flea Market. There is lots to look at there
including articles on antennas, equipment and software reviews. Nearly
90 pages of information.

UseNet Policy

eBay users may not post on Usenet groups (Internet newsgroups) to advertise eBay or an eBay listing that is inappropriate or violates the Usenet board policy. If Usenet abuse is reported to eBay, we may among other remedies) remove the listing, issue a warning, temporarily suspend or indefinitely suspend the offender's eBay account.

We have no tolerance for UseNet abuse and will take action as appropriate. Please note that we can only take action in cases where it is clear that an eBay member has posted to the Usenet inappropriately.

Usenet abuse should also be reported to your ISP (Internet Service Provider) and the email provider of the person posting on the Usenet. Both of these organizations are in a much better position to prevent future Usenet abuse. Generally, you can send email to abuse@"ISP".com to properly report perceived violations.

Please define "inappropriate". Without that, the above is pretty
much useless information.

Thanks,

Bill, W7TI

I have a Yaesu FT-470 in very good mechanical and cosmetic shape, (original owner). The radio will be shipped with:
- original owners manual
- W&W 7.2v 1200mAH battery
- Yaesu NC-29 quick charger w/ trickle charge mod.

I am interested in trading for either a Grundig Satellit 700, high-end VHF/UHF scanner or I will sell for $300.00.

Please e-mail me direct if interested and thank you for reading this post.

Thank you God. and as for the question as to what is inappropriate,
I say ANY eBay add is Inappropriate in any News Group BUT I
propose to find out by sending SPAM complaints to ebay on EVERY
eBay listing and let eBay decide. I read about 25 News Groups and
they all consider ebay ads spam.

Just My Opinion..

Bob

Bob,

Ebay is not posting so it is not an ebay ad. It is the individual amateur radio operator posting that their equipment is up for sale and the sale is being conducted through ebay. It's ham radio equipment being offered for sale. I just do not understand what peoples' hangups are with this. Just ebay bashing and punishing the amateur as a way to "get back at them"? Why people get so upset of auction or for sale postings is beyond me. Ham radio is about communication among other things. Let people communicate.

Bob,

When you say "they" in the context of newsgroups, who are "they"?  I have
never seen a survey conducted in any of the 30+ newsgroups that I read that
asks me what are appropriate postings.  Many of the ham radio newsgroups
were around before ebay was even started.  So it is inconceivable that some
mysterious policy on ebay postings was placed in the FAQ when the
newsgroup(s) started.  Seems to me all the users should decide, not just one
individual.

Again, MHO

Duffy

So Bob. In those 25 newsgroups do read EVERY post online?

Also you would rather spend the time on these 25 newsgroups sending complaints about what BOB doesn't like rather than take a few seconds with FreeAgent and set up a filter to eliminate from your eyes ALL FA posts?

Oh...I see what you are now.

This is the criteria I use to Inform people when they are off topic
by posting ads about ebay. I think it is fair, the Liars do NOT..
____
"If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line"

Don't you think this is fair???

I do and I live by it...

Just my opinion..

Bob

Hi All!

I'm hunting for a pair of IRFD1Z0 N channel MOSFETs. I'm trying to follow the Electric Radio Mods for the Heath Mohawk. Anybody got one or two? Price paid - no haggling.

I'm selling a Grundig YB-400 PE communications receiver in very good condition. It has some normal use wear marks on the top part of the cabinet, but nothing that is obvious or noticeable. It comes with accessories; Koss earphones (better than the Grundig ones that came with it), 23 foot reel antenna for improved shortwave reception, and an AC adapter.

I'll sell it with all accessories for $140 shipped to any location in the CONUS, AK extra. I'd like payment in a postal money order...no checks.

It works excellent; I've been able to tune the major international broadcasters, plus a pirate or two...it also has great SSB detection for hams. I'm selling it because I'm getting a FT-840 and I'm low on cash, so the Grundig has to go. Too bad, because it's a great portable.

If you're interested, email me at tek_guy@hotmail.com

73s,

Jim

I have had a situation arise that requires me to sell my entire
station.

Items are:

Ameritron ALS-600 solid state amplifier and power supply. In good
condition with some light scratches on the covers. Was back to
Ameritron for a new final and check out. $800.00 (quite heavy)

Icom IC-746 About two months old. In NEW condition and works
great. No filters or options. $1090.00 (Shipping weight 26 lbs)

W9INN Balun (MFJ model 912) $30.00

MFJ model 817 VHF/UHF SWR Wattmeter $50.00

MFJ Model 264 1 Kw dry dummy load 1-650 Mhz. 45.00

Daiwa RS-40XII 40 Amp adjustable power supply. This thing
is a brute and performs and looks good. $100.00

I also have an old LUNAR 2 meter amplifier. The RF preamp section
does not work but amp has good power output. it's a model 2M30-160P.
Make me an offer.

I am selling a Kenwood TS-430 that is part of an estate I receintly acquired. I was primarily interested in other equipment but, it was an "all or nothing" type of deal.

The rig was checked out by another ham (as well as myself) and works fine. Cosmetically the radio is in fair to good condition. It has a standard SSB filter.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufacturers use the exact same power connector in their wiring harnesses. While I haven't gone down to the Chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I am asking $350 plus shipping which appears to be a fair price for the condition, however I would like to sell this radio so I will consider reasonable offers. I have two pictures.

I'm cleaning out the shack in preparation for a remodeling project.

I have a Mirage C-22A amp that I was using with my old IC-03AT. The amp is clean and works fine.

The specs: receive preamp has 10db gain with .5db noise figure. Freq. range 220-225 Mhz, Power input 0.1 to 5 watts max, output "20 watts or more with 2 watt input and intermittent duty cycle". The unit worked very well, but is surplus to my needs now that I have a 38A.

I'd like $85.00 plus shipping for the amp but, I will consider reasonable offers and trades.

Questions, email ghopper@eskimo.com

I have an Icom IC-03AT for sale. It is in good condition and includes the radio, antenna, BC-25U battery charger, a photocopy of the manual, and a BP-03 battery.

The radio works well and has basiclly been replaced by and IC-3SAT and an IC-38A so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $135.00 plus shipping but will consider reasonable offers.

I liked it...  Even bookmarked it.  Seems that some of the things that are
taboo on ebay are OK on this site, at least out of band mods and 800 mhz
scanners...  Ebay needs some competition.

SPAM is in the eye of the beholder...

I am selling a Kenwood TS-430 that is part of an estate I receintly acquired. I was primarily interested in other equipment but, it was an "all or nothing" type of deal.

The rig was checked out by another ham (as well as myself) and works fine. Cosmetically the radio is in fair to good condition. It has a standard SSB filter.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufacturers use the exact same power connector in their wiring harnesses. While I haven't gone down to the Chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I am asking $350 plus shipping which appears to be a fair price for the condition, however I would like to sell this radio so I will consider reasonable offers. I have two pictures.

Another shack cleaning special!

I have a mirage D15 440 Mhz amp that I'm not using.  It is in good
condition. It puts out over 20 watts with 2 watts in.

Here is a picture:

http://www.eskimo.com/~ghopper/mirage440.jpg

New, a D15N is over $160.00 I'd like $85.00 plus shipping.

FOR SALE:

Hallicrafters SX-110 Receiver - extra sharp. Works well.
Face plate is in excellent shape.

All knobs original. Even the TUBES are original and marked "Hallicrafters" in red!

For its age this radio does not have a lot of time on it. You can tell. There is no rust or crud. Somne very minor pitting a couple of places on the chassis but hardly noticeable.

The case is in great shape. It has a few superficial scuffs on the top but I think these would easily polish out.
The dial is immaculate. Every control and function works properly and the receiver is at least a 9 out of 10. Included is a reprint manual, that includes all instructions and the schematic diagram.

Will sell for $165.00 plus shipping

(Picture available)

Hi all, I am in need of the manual with tune up procedure and schematic

for a old LAFAYETTE HA-600A shortwave / ham receiver. Even the Sams
photofact
would be great!! Readable copies would be OK also. Of course I would
pay for
the copies and shipping.
Please e-mail me direct at:

mrrusso@optonline.net

```
THANKS,  Mark

Hello all, I have up for auction on ebay a Yaesu FT 301 S, QRP rig, in very good condition.

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1249418528&r=0&t=0&sh
owTutorial=0&ed=993967526&indexURL=0&rd=1

There's 3 pics of the unit posted on ebay. Please check it out, I have over 90 Positives and NO negatives. If someone came up with interesting trades BEFORE someone bids on ebay, I'd consider a trade. Some of the things I'm looking for are a ham accessories, ie. mics/spkrs, etc. mostly for Kenwood. A dual band handheld. Possibly another 2 Meter mobile rig. An HF mobile antenna setup, etc.

Take Care, Ken & Sallie
KD7MXN

FS - UHF Repeater

WR Communications WR-90 UHF repeater. Looks identical (less color) to Glenayre. Even the part numbers are the same (OEM???)

Unit is a rack mount Chassis complete with the following modules

9T90B4	UHF TX (4W 406-512Mhz)
9R90C	UHF RC (406-512Mhz)
RCL-54B	Repeater Control Module
RTC-54B	CTCSS Tone Control Module
RTA-54B	CTCSS Encoder/Decoder (programmable - enc/dec may be different)

***** INCLUDES FULL SERVICE MANUAL PHOTOCOPY FOR ALL MODULES *******

Manual includes operating and alignment instructions, schematics, parts lists, etc.

Unit is in good condition and was working when removed from service ~2 years ago. It has been stored inside since then.   We're moving and the XYL says some gear has to go!! This item sold AS-IS. Add a power amp and duplexer and you're on the air!

Price: $250US + Shipping to US addresses only

SPECIAL!! - Pay via PayPal and receive free UPS ground shipping/insurance. Other payment methods add fixed $25 shipping.

If the radio is still available, I'll buy it for your asking price.
Let me know.

I'd prefer to pay by PayPal if you have an account with them.

Best regards,

Frank

********** Old Radio Books & Catalogs **********

Radio Amateur Callbook V62 #1 -- US & DX listings 1984. Just a bit of wear at the corners. $20 (2 books)

Handbook of Electronic Communication by Gary Miller, Prentice Hall 1979. Hardbound, very good condition, owners name written on frontleaf, 339 pages. $15

Understanding Amateur Radio by George Grammer, ARRL. Second Edition, Second Printing, 1976. Excellent condition, 300 pages. $8

Radio Amateur Callbook V41 #2 -- DX listings only 1963 Front cover a bit torn up and it looks like something heavy was resting on it for 20 years. Insides OK. $7

RCA HB-3 Tube Handbook
Loose leaf 6 ring binder style data sheets starting in the late '40's with additions and
updates through October 1966. Sepatate sections cover Transmitting Tubes, Receiving Tubes (Part 1 & 2),
Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's & Picture tubes,
Miscellaneous types, & semiconductors. The updates appear to have been made in all
these sections except Picture Tubes which is somewhat disorganized. It also appears that the
obsolete data sheets were kept for reference. The whole collection is about 30" wide on a shelf.
Shipping weight will be 20 lbs. Excellent condition; mostly never read! One gotcha - No binders. $250

Amateur Single Sideband by Collins Radio. 1962 Hardbound. Excellent condition except owners name in ink on p.106. 143 pages. $50

Heathkit Catalogs

1954, 55, 56, 57, 58, 59 &
Fall-Winter '62-63,
Xmas '89 + Winter, Spring, Summer '90 $100 all

Handbook of PREFERED CIRCUITS
Navy Aeronautical Electronic Equipment
vols. 1&2 (1955 tubes & 1962 transistors)
very good condtion $40

Electrical Fundamentals (AC) TM11-681 US ARMY Technical manual. December 1951. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 231 pages. $10

A Course in Radio Fundamentals by George Grammer, ARRL.   Third edition, 1948. Good condition except cover taped at spine, owner's name written on front. 300 pages. $8

Surplus Radio Conversion Manual Vol. 2 1948 Good condition, 125 pages. $25

Radar Electronic Fundamentals T.O.16-1-195 US Navy Technical manual. June 1, 1944. Good Condition except for water damage on front edge; no pages stuck nor ink bleed. 474 pages. $20

Tuned Circuits by J.M. Quinn, 1943. Small hardcover book 52 pages. Very Good condition, one page is punched with Los Angeles Public Library ID. $15

Most Often Needed 1926-1938 Radio Diagrams, originally published by Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $20

Radio Television Supply Company catalog #15 (1940?) (they used to be in downtown Los Angeles). Small tear at the top of the spine, otherwise in very good condition.
256 pages. $25

RCA RC-14 Receiving Tube Manual 1940. Front cover rough and half of spine cover missing. Insides good. 255 pages, $15

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of
spine & first 20 pages of lower right corner. 192 pages -- $25

Radio Supply Company catalog #10 1938? (they used to be in downtown Los Angeles) Front cover loose, back cover missing. 160 pages $15

Radio Television Supply Company catalog (1937?) (they used to be in downtown Los Angeles). A couple of spots on the cover otherwise in very good condition.
172 pages. $25

Advanced Laboratory Practice in Electricity and Magnetism by Earle Terry, McGraw Hill, Third edition, 1936. Hardbound, 318 pages. $15

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles) -- a little smudging on the back cover and two middle pages torn on the edge but, otherwise in fine condition. There is a sticker from the (original?) owner on the first inside page. 85 pages, the last 10 or so of which are receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet
Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment, tools, machinery, and construction projects.
128 pages $10

Radio Amateur's Handbook Ninth Edition 1931. Has a typewritten note glued to the frontspiece stating that it belongs in the radio room of the USS Maryland (which was moored just inshore of the USS Oklahoma on the first Pearl Harbor Day). Cover somewhat rough, torn at spine, index and first two chapters missing up to page 24, otherwise good, no writing nor torn pages. Softbound, about 200 pages left. $500

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Amateur's Handbook Sixth Edition 1929. Cover a little worn at edges and on spine otherwise excellent, no writing nor torn pages. Softbound 225 pages. $125

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback Publications. This is a REPRINT by Vestal Press, 1984. Schematics & some service info. 352 pages, like new $20.

All of the above plus shipping, if necessary, naturally.

******** Used Coax Connectors *************

These are mostly used, fairly clean, (at least 80%) Amphenol parts.
There are anywhere from about 4 to 25 of each type available.

PL259's UHF male cable connectors (new)   -- $1 ea

UHF female - UHF female barrel connectors -- $1 ea

UHF male - BNC female adapters -- $2 ea
UHF female - BNC male adapters -- $2 ea
UHF elbows -- $2 ea
UHF F-M-F Tees -- $2 ea
UHF female - N male adapters -- $2 ea

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-57B/U N Male-Male connector -- $4 ea

UG-635/U C Female - BNC Male adapter -- $5 ea

UG-636A/U BNC Female - C Male adapter -- $5 ea

UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

SMA Female-Female Bulkhead connector -- $1 ea

********* New Coax Connectors ***********

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics

KC-59-642-M06 BNC Cable Male -- $1 ea

KA-59-385-M06 TNC Cable Male -- $1 ea

KA-19-43 TNC Bulkhead Female -- $1 ea

********* Coax Relays **********

These all have (3) UHF connectors. They are somewhat old looking on the outside but,
I popped the inspection port on each and all the contacts are all happy.
And they all go "clunk" upon application of the appropriate voltage.

Dow-Key DK-60 style
110-115 VAC coil -- $30

Advance (same style but, heavier contacts & construction)
115 VAC coil -- $30

All of the above plus shipping, if necessary, naturally.

*********** Four straight Keys *****************

A SpeedX with a rectangular base.   Note crack in left pillar casting does not affect functionality. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Speedx1.jpg&.src=bc&.view=t&.hires=t

A SpeedX with an oval base; Note, the tune lever is missing its knob. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Speedx2.jpg&.src=bc&.view=t&.hires=t

A Military Key marked SC1184A on the bottom. Color is not really as "brassy" as in the photo. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Milkey.jpg&src=bc&.view=t&.hires=t

A Key made in Japan. $15
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Jkey.jpg&.src=bc&.view=t&.hires=t

**************** Two Old Bugs *******************

The first is an old Vibroplex Original, sn 144779, complete and working. It looks kind of bad in the photo. It looks just about as bad in the real world. I think the base would buff up fairly well if the superstructure was removed for the operation. It is otherwise complete & working. I believe It dates from 1945... per a web site list. Asking $100.

The Vibroplex may be seen at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Vibroplex.jpg&.src=bc&.view=t&.hires=t

The second bug is of unknown manufacture on a brass base. I've checked with several bug experts on the web and none seem to know its origin. There is at least one other unit of its style in existence so it is not some one-of-a-kind homebrew. It is compete and working. Asking $200

This Bug may be seen at:

http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=Bug.jpg&.src=bc&.view=t&.hires=t

********* And two electronic keyers... *********

These both seem to work, at least as far as the internal monitor speaker. I didn't take the time to hook them up to transmitter.

Hallicrafters HA-1, "T.O." keyer, with original manual. $60.
Photo on display at:
http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=TO-1.jpg&.src=bc&.view=t&.hires=t

Ham Radio Center, Ham Keyer model HK-5A (uses Curtis chip) batteries not included -- uses 4 C cells. $30
Photo on display at:

http://y42.briefcase.yahoo.com/bc/marv_email/vwp?.dir=/Jpegs&.dnm=HK5A.jpg&.src=bc&.view=t&.hires=t

All of the above plus shipping, if necessary, naturally.

I'm selling a mint condition Diamond RH77CA dual-band 2m/70cm HT antenna. It's a quarter wave on 2 meters and a half wave on 70 centimeters. It's black in color and about 15 inches long. Reason for selling: I didn't like a longer whip antenna on the HT. If you want a high-gain, high efficiency antenna for your HT, this works great, very little use. Worked UO-14 mobile with it, so it works! It also works as an 8-band wideband scanner antenna. I'll sell it in the original packaging for $25 shipped to any QTH in the CONUS.

If you're interested, email me @ tek_guy@hotmail.com.

73s,

Jim
KG4NEL

Hello everyone. We're looking for more radio gear (newbie, so just about anything). Unfortuneately, cash is not at an all time high. I'm taking my General on the 11th, and my wife is taking her tech. So, WE WANT MORE GEAR.
What I have to offer is a Commercial High End Color Surveillance system.
When I say high end, I mean gear that is federally approved for financial institutions. I have a set that we pulled from service recently that sold 4 years ago for over $10,000. Used I would sell it for about $2,000.

HOWEVER, I'm willing to deal way less than that for some nice gear if you're willing to trade. Here's what I'm offering:
Navco SVHS Time-Lapse VCR w/s-video
Navco Color Monitor w/s-video in/out
6) Navco Hi-Res Color Cameras w/lenses and PS's
6) Camera Wall Mounts
Pelco 8 Position Camera Switcher
Detailed intructions on how to hook up. Very simple really.

Anyhow, we're open to ANY offers. I'll pay shipping on this end, which won't be cheap because of the weight of all combined. You pay shipping on yours. PLEASE CHECK MY REFERENCES. I have numerous HAM references, and you can also check me out on ebay. I have over 90 Positives, and NO negatives, username gr8rdayz.

Thanks for your time.
Ken & Sallie Townsend

Hi all. I have a LOADED Drake TR-7 with PS-7power supply and external MS-7 speaker in excellent, no-compromise condition that I'd like to trade for a like condition ICOM IC-706 MKII G transceiver.

This TR-7 is cosmetically and functionally outstanding, and has the full complement of 4 filters, NB-7 noise blanker and Aux-7 range module. Manual included.

The TR-7 was the ultimate Drake transceiver; easy to operate and very high-quality construction throughout. On Ebay a TR-7 with these options would fetch upwards of $1000.

Give me a call, let's see if we can do a trade.

Thanks!

Neil, K1VY

I have an IC-02AT that receives and transmits, just not very well. I received it as part of a trade of equipment and never got around to repairing it.

Here is a picture: http://www.eskimo.com/~ghopper/ic02at.jpg

I'd like $40.00 plus shipping (which should be about $4.00 for USPS priority mail.)

I also have the IC-02AT service manual avalible, if the radio sells.

I have an Icom IC-03AT for sale. It is in good condition and includes the radio, antenna, BC-25U battery charger, an Icom leather case, a photocopy of the manual, and a BP-03 battery. I may have some other batteries for sale as well.

The radio works well and has basiclly been replaced by and IC-3SAT and an IC-38A so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $150.00 plus shipping but will consider reasonable offers.

I also have a Mirage C-22 amp for the radio. The specs: Freq. range 220-225 Mhz, Power input 0.1 to 5 watts max, output "20 watts or more with 2 watt input and intermittent duty cycle", receive preamp has 10db gain with .5db noise figure. the unit worked very well, but is surplus to my needs now that I have the 38A.

I'd like $120.00 plus shipping for the amp.

This is a wonderful setup for the 1st time ham. Everything that you need to get started in the hobby. I have for sale the following package. (YAESU FT-840) this radio is in mint condition and is only 3 months old. I only have about 3 to 4 hours transmit time on it. Comes with box and manual. (DAIWA swr & power meter 1.8 ~ 150 1500 watts) This meter is in mint condition except for a small scratch on the top of the meter. It has 3 setting for power 15w 150w and 1500watt. (MFJ-941E MFJ Versa Tuner) this tuner is in good condition there are a few scratches. The meter doesn"t work but with the Daiwa swr & power meter you can tune any antenna down to 1 to 1 swr. (MFJ Grandmaster memory keyer Model MFJ- 482B) This keyer is is good shape for its age. There are a few scratches on it but I would give it a 8.5 out of 10. There are 4 memory address so it will free up your hands for these repeated messages. I will send all cables for this item so you will not have to worry about finding the right cables. (MFJ Iambic Key Paddle Modle MFJ-564B) This key has a black base and crome everywhere else. It is in good working order. From a scale of 1 to 10 I would give this item an 8. Buyer to pay... $650.00... for the hole setup..... Will except money order or PayPal only for payment. P.S if you would like a picture of the setup emailed to you just ask.

Like magic, these things keep being uncovered in my shack. Another rig I'm selling to clear out some of the old, unused, and extra stuff.

The radio is in good condition and I just checked it for function and power output (which are both just fine.)

I would like $100 plus shipping.

I also have an Astron RS-12A, used with the radio, that I will sell for $40.00 plus shipping.

Email with questions.

Just purchased off the internet a AEA Pakratt 232MBX - Rig I have is the Icom IC-737 anyone know where I can obtain the wiring harness for this setup? Please advise DIRECTLY to email.

I DO have the wiring harness for the MJF1270 to IC-737 does anyone have any idea if that combination will work?

By popular demand, we decided to purchase a bulk quantity of new transmitting crystals from JAN Crystals in Florida to offer along with our *PEANUT WHISTLE TWO* 40 meter QRP CW transmitter. We've chosen the internationally recognized QRP frequency of 7.040 MHz. We are selling these crystals AT COST with the purchase of any "Peanut Whistle Two" transmitter. These are assembled transmitters and more details along with a photo can be seen at our website address below. The cost of a PW-2 with crystal is only $29.95. (Plus $6.95 shipping and handling.) Sorry - no individual crystal sales.

Sorry we don't have it up on the website yet, but we're still looking for a replacement webmaster.

This radio is in perfect working order and has a brand new frequency display. It has a built-in antenna tuner and the 500Hz narrow (CW) filter.

I have used it very little since I live in a townhouse with restrictive covenants. I'd much rather the rig be on the air than sitting in my guest bedroom unused!

You can see a picture at http://www.mindspring.com/~mrmath/pics/radio.jpg.

The rig will include the DC power cable and mic with up/down frequency buttons. Also included are the Service Manual and Instruction Manual. The power supply in the picture is NOT included.

I am asking $575 for the aforementioned radio and accessories. PayPal is preferred method, but I'll also take a Cashier's Check or a Money Order.

Please e-mail mrmath@mindspring.com with any questions about the rig.

Thanks for your interest!

Scott Elias

Equipment List
GE Master II Repeater UHF 40 watt. In deskmate case with Power supply but no duplexer.
$500.00
Uniden desktop Repeater. ARN-251 I think. No duplexer. Has CW id installed ready to go on 444.425 and 151.4 PL. $300.00
GE Master II UHF 75 watt with Pre-amp. No crystals (Icoms) No accessories, Painted handle. $75.00 each
GE Delta VHF narrow band 110 watt. With cables, head, speaker, Mic and base mount. $95.00
Motorola Mitrek VHF 110 watt mobiles. With all accessories and 1 set of channel elements. $75.00 each
Motorola Micor VHF 110 watt Mobile. 1 set of channel elements no accessories. $30.00
GE PCS VHF 136. - 150. MHz. 2 channel with battery and charger. $85.00
GE Monogram VHF 157- 170 10 channel. With charger battery bad but tested radio and it is good. (ex CSX radio with CSX engraving on front). $75.00
GE MPI II UHF pair. With chargers and batteries. Programmed on GMRS. $125.00
GE MVS UHF 16 channel scan. Will do ham - GMRS. Works great as I was using this in my van until I installed my Delta. $150.00
GE MPA VHF System model with Aegis encryption. My last MPA and my personal radio. Programmed for ham and scanning public service. 160 channels (the encryption takes away some memory for channel storage). With good battery and rapid charger $350.00
GE Delta control cable. Downloading type. $35.00 each
GE Master II control cable. 8 channel type (plenty of extra wires). $20.00 each
Video recorder lock boxes. These came out of the trunks of police cars and were the box the video recorder was locked in. Have a hasp for padlock and a separate door for inserting the tape. $25.00 each.
GE Master Executive II mobile extender VHF. No Icoms. $20.00 each
Cables for above radio to a master II or Delta. $10.00 each
GE Voice guard box for Delta or Ranger (19A148909P10). $20.00 each
GE Master II Microphones. Will work on Delta or Ranger as well. $5.00 each
Sinclair UHF Duplexer. 4 can 50 watt and on the ham band now. $100.00 or $75.00 if you buy it with a repeater.
I am always happy to consider trades or offers. Shipping is over and above the stated price and I take Paypal as well as cash. Checks have to clear before I ship.
Dean

I thought I had a buyer for this rig but, he hasn't answered any emails
in four days so I'm putting the rig back out on the market.

I am selling a Kenwood TS-430 that is part of an estate of a Silent Key. The rig was checked out by another ham (as well as myself) and works fine. Cosmetically the radio is in fair to good condition. It has a standard SSB filter also.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufactureers use the exact same power connector in their wiring harnesses. While I haven't gone down to the chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I have a certian amount of discretion on the selling price however, we are asking $350 plus shipping which appears to be a fair price for the condition.

I have an extra BC-35 rapid charger in it's box, that is surplus to my needs. The charger works great and and is in great physical condition (case not cracked, metal not bent, no excessive wear.)

I'd like $60.00 plus shipping, but I will consider all reasonable offers because I would like to sell it.

Hello there, my wife and I are just getting into ham, and are looking for a good HF Rig. We're kind of short on cash because of a recent transfer. However, I'm also an NRA Instructor, and as such usually have an excess firearm. We currently have a Smith & Wesson 6645. It's a Stainless Steel .45 Semi-Auto, 2 mags, box, and paddle holster. We'd trade that for the best HF Rig offered. We're not looking for a 706MKIIG or anything, just something with digital readout, and in nice condition with whatever accessories you might have. We have Numerous references, ebay, qrz, other hams, etc. etc. Thanks for looking.

Take Care, Ken & Sallie

Hello there,

I'm looking to repair some of my spare Motorola MSR 2000's. I can pretty much use any spare parts you might want to sell. If you have something related, drop me an Email about what have and what you'd like to get for it/them. Thanks, oh yeah... doesn't really matter what band it's on.

drop me a note at the Email address below... no spam please...

cheers

FS: Beautiful Condition Alpha 89 HF Linear Amplifier - this is an ALPHA 87A which is a manual-tuned version amplifier, while the 87A is fully automatic.
Amplifier is excellent, covers all individual amateur bands from 160 through 10-Meters. I originally got it to be able to run full break-in CW with my TenTec Omni 6+ transceiver, but now I've picked up an 87A at a price that I couldn't pass up and the 89 is just too expensive a rig to have just sitting around doing nothing. $2950 plus shipping. The amp was checked out by Alpha within the last year, and has full output - 40 to 50 watts gives a full 1500 Watts output on all bands. Factory boxes, manual included. The amp is in Portland, Oregon.

Tis a bit late for posting, but the Midland Amateur Radio Club is holding
their annual swap at the Midland county fairgrounds (Midland Michigan)
Saturday the 16th of June from 8 till noon, or so. The farigrounds are just
West of the US-10 and Eastman road interchange.

Westbound take the eastman exit, go straight across Eastman and you'll be on

Airport Road. The fairground entrance is about a 1/3 of a mile west on the north side.
Eastbound, take the Eastman Road exit, turn right on Wackerley St, 1/2 mile to Sturgeon. Turn right, go over US-10, turn right on Airport Road and the fiarground entrance is about 2/3rds mile on the left. (airport Road and Wackerley run right along side the expressway)

We've sold over a hundred tables and it looks like it's going to be very well represented with sellers.

Trunk sales available...Everything from boat anchors to computers.

Come on up to enjoy the hospitality.

Talk in on 147.00.

www.theauctionblock.tv

My wife and I collect alot of stuff...antiques, dolls, glass, electronics, ham gear. Like you, we registered for several of the online auctions (ebay, yahoo, etc.), and then bought and sold several items. We never liked the complicated ebay fees (you need an accountant to figure out what you owe), and then they added a fee for a reserve price?.. that was the last straw for us.

I recently started an online auction and classifieds site as an affordable alternative to the "auction madness" being practiced by the large online auction sites. It's a general auction, with a free classifieds section. Never a commission or final valuation fee. We have all the important features (several types of auctions, proxy bidding, auto-notification email, search engine, user ratings system, and more),free membership, and you don't need a credit card.

We'd love for you to join, but even if you don't, please take a look and give us your thoughts, feedback, suggestions, etc. We don't believe in the "high pressure" or "heavy handed" tactices of the "big boys"!

Mike

HI All

Just a note to let you all know that Australia's busiest online radio
related classifieds "VK Classifieds" has moved to a new domain at:

http://www.vkham.com

Check it out and and the many other areas of interest on the site.

Cheers....Allan VK2CA

You may have seen it featured in WORLDRADIO or demonstrated for you at Dayton by them. It's the NEW Yo-Yo-Tenna Deluxe. TWO wind-up "fishing reel" antennas connected to a silver-teflon PL-259 with reducer and shrink tubing for strain relief. Connects right to your rig or your tuner! Covers 2 thru 40 meters with or without tuner! Use it with or without coax!!

I don't have the DELUXE model up on the website. I'm still searching for a new webmaster. However, a photo and description of the regular model is there. So just imagine two of these together to make a Portable Dipole Antenna System! Cost is ONLY $29.95 plus $6.95 shipping, and I can ship them out Priority U.S. Mail so they get there by Field Day. (If you order by today or tomorrow.)

If you want to add more individual reels for coverage of 80/75 and/or 160 dollars, I can do that without adding any additional shipping. For more details visit - http://qth.com/dwm

I am selling a Kenwood TS-430 that is part of an estate of a Silent Key. The rig was checked out by another ham (as well as myself) and works fine. Cosmetically the radio is in fair to good condition. It has a standard SSB filter also.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufacturers use the exact same power connector in their wiring harnesses. While I haven't gone down to the Chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I have a certian amount of discretion on the selling price however, we are asking $350 plus shipping which appears to be a fair price for the condition.

I have a 2 meter amp for sale. It is new-in-box as I never got around to using it. It was made for Radio Shack and by all accounts was a good amp and did a superior job of rejecting intermod due to its good receive filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $75.00 plus shipping but will consider offers.

I have an Icom IC-03AT for sale. It is in good condition and includes the radio, antenna, BC-25U battery charger, a photocopy of the manual, and a BP-03 battery.

The radio works well and has basiclly been replaced by and IC-3SAT and an IC-38A so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $135.00 plus shipping but will consider reasonable offers.

I'm cleaning out the shack in preparation for a remodeling project.

I have a Mirage C-22A amp that I was using with my old IC-03AT.

The specs: receive preamp has 10db gain with .5db noise figure. Freq. range 220-225 Mhz, Power input 0.1 to 5 watts max, output "20 watts or more with 2 watt input and intermittent duty cycle". The unit worked very well, but is surplus to my needs now that I have a 38A.

I'd like $85.00 plus shipping for the amp.

Another shack cleaning special!

I have a Yeasu FT-270RH that I bought receintly as a part of a collection of other gear. I really don't need another 2 meter radio so I'm selling this one. I tested the radio's function and power output and everything seems to operate the way it should. I used the radio for about 4 days last week and had no problems programming, accessing repeaters and having lengthy QSOs.

I would like $100 plus shipping for the radio. If you need a picture, I can take one and upload it to my webspace for your viewing.

Here we have another spammer. It misleads
in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

If you have received this message it is
because I saw a subject line that interested
me and when I downloaded the message
It was nothing more than your auction SPAM
and was NOT what the subject line said it was.

Some of the Real Sleazy people will make
it look like a reply to another message.

Easiest way to avoid this message?
Do NOT LIE in the subject line..

Just My Opinion..

Bob

The following is ON THE GROUND and ready for pickup in Western NY. (west of
Rochester)

The tower is used but in very good shape. It has been down and stacked for about a year.

A few sections that were "on the ground" do have discoloration and SLIGHT rust, nothing serious.

You could put this tower up tomorrow and enjoy many years of great service.

Current price on the following is approx $10K.

SALE PRICE $2600.00

Qty	Description	P/N
1	Base Plate	BPC55G
1	Top Plate	APL55G
18	Rohn 10' Sections	55G
14	Torque bars	TB55
15	GB55	
13	KC192	
29	Turnbuckles	
2	Guy Plates	
2	Torque Arm Stabilizer Assembly	TA55
1	Set of Anti-Climbing sheets	455ACL-3
3	5' Pipe (2") mounts w K156 brackets DM55G2 and mounts at each end.	
1	5' Side mount consisting of 3 each of D13-1 qty =3 D13-3 qty =3 D13-3 qty =1 5' Pipe (2") qty =1	

Call me with any questions @ 716 820 6460 ask for Bruce.

okay looking for a new HT (only had license for 6 months so I am learning
still) can't decide between an ICOM IC-T81A or the YAESU VX-5R. The Icom
has more transmit but the Yaesu has a larger receive so I wanted to hear
oppinions on them both.

Thank You

I "think"   the ICOM   t81 was pulled from sales, but can't confirm it yet.   O also am looking for T81   quad-band   I 'hear' comments saying they are great 4 bands, but some problems....no idea 'what' problems.   Someone locally said noisey tx and ICOM re-called them.   I have heard good from the VX series unit, but you might want more power and features.   AL

The IC-T81A has not been pulled from the market.

Your choice of HT depends on what you'd like from it. The Icom has 6m/2m/440mHz and 1.2gHz capabilities, the VX5R has 6m/2m and 440mHz with wideband RX. Both rigs offer 5 watts on the bands they share and the Icom gives you 1 watt on 1.2gHz. Both rigs also allow you to listen to the public service frequencies around 2m and 440mHz as well as the FM broadcast band.

If you'd like to experiment with 1.2gHz and there is activity in your area, then by all means go with the T81A. If you'd prefer wideband RX, then your choice would be the VX5R.

I've never heard of any "noisy transmit" problems with the T81A and Icom has not recalled them. The only problems with this rig have been with the battery retaining clip, which would break on early models, as well as the T8. The Yaesu VX5R did suffer from howling audio at high volume levels (which has been corrected) and because of the die cast aluminum case, it gets VERY hot if you transmit on high power for long periods of time. (The T81A also gets pretty hot, but since the case is plastic [but the chassis is aluminum], your hand is insulated.)

I've got a T81A and like it. I was lucky enough to get an early model with wideband RX (50-1000mHz, cell blocked), so I did get a "bonus" with mine. Unfortunately, this feature has been disabled on post April 2000 models.

Hope this helps.

73,
Scott

I have the T81A and most reports are that I am full-quieting if I am within reasonable repeater-range. Works well on 2M and 440, not much on 6M and the 1.2 is most in more urban locales. My ICOM's T81A and R2 make a great team for traveling. NOW, to save money, you may wish to consider the Q7A, which gives you wide receive, 2M and 440 xmit, and makes a good scanner (if you don't care about 6m and 1.2). Can't help you on the VX-5R, but when I was first licensed, I was making the same choice as you are making now.

Paul Wolsko, KC2FNC

well it does sound good...but the low power 300mw would be restrictive in
range wouldn't it?
  I live 70 miles from chicago so would a 6 meter be worth it?
 I have a 2 meter now (midland 73-005a) and often have to use 3 watts to hit
repeaters in this area.

Why get "cheap" when you can get the best !!
Tektronix R7603 100 MHz Mainframe, comes with
(1) Vertical Amp (7A18) and (1) Time Base (7B53A),
has room for one more plug-in.
Just released from Cal Lab, works fine, can demo
(with PG-506/TG-501 cal setup).
$125, pickup in Lexington, MA
Packing and shipping extra if you want it shipped.
Thanks, Dick, W1KSZ

I have three HNN9049A Motorola Batteries that fit the P1225 as
well as others. These look like new, not a scratch on them.
$20 each, shipped CONUS.

Thanks, Dick, W1KSZ

I have an Icom 706 for sale. I am the original owner. Radio has no
mods and is completely original. The radio has very few hours on it
and was never mobile. I can supply digital pics if requested. I will
take $550 for the radio.

Rich - W2YQ

I need a couple of 10 pin series 300 Jones female sockets made by Cinch. The one that I need has the 180 deg. cable clamp. These were used by Gonset and others.

Remove "nospam" to reply

Thanks,
Mark

FOR SALE -

These terminal boards are THE BEST for tube type homebrewing and repairs.

$1.00 per section plus shipping.

Brand new terminal boards for repairs and for homebrew tube rig construction.

Single section and multi-section units with five turret terminals per section.

These come in two widths - that is 1.5" and 2.0"
The length is 2.6" per section and they have four mounting holes in the corners.

These are durable phenolic or fiberglass boards of top quality construction.

Will sell for $1.00 per section

Pictures at:
http://home.cfl.rr.com/happysurfer/boards.htm

73 to all tube repair dudes & homebrewers!

I am selling a Kenwood TS-430 that is part of an estate of a Silent Key. The rig was checked out by another ham (as well as myself) and works fine. Cosmetically the radio is in fair to good condition. It has a standard SSB filter also.

It doesn't have a power cord or a mic (apparently it didn't come with a mic originally) however, I just discovered that several auto manufactureers use the exact same power connector in their wiring harnesses. While I haven't gone down to the chevrolet dealership to get the part number, I just located one for my Kenwood TS-440SAT and made a second wiring harness for that.

I have a certian amount of discretion on the selling price however, we are asking $350 plus shipping which appears to be a fair price for the condition.

I hope to have pictures up by 8 PM PDT on 6-7-01. The URL will be:

http://www.eskimo.com/~ghopper/ts430f.jpg for the front

I have some parts left over from the repair and upgrade of my TM-742 and decided that rather than let them gather dust, I would sell them to facilitate other peoples repair of their 742(s). I will consider offers.

I have the RF deck case and fan. This is where the two or three band modules go. I have no band modules for sale. I am asking $100.00 for this part.

picture: http://www.eskimo.com/~ghopper/tm742deck.jpg

I have the display and control unit avalible. These two parts are in good to very good condition. I would like to sell them together, however I would consider selling one or the other piece if the offer was right. I am asking $175.00 for these two parts together.

picture: http://www.eskimo.com/~ghopper/tm742disp.jpg

I have the backlit, DTMF mic with the RJ-45 connector, model number MC-53DM. This mic is in like new condition. I am asking $50.00

picture: http://www.eskimo.com/~ghopper/mic.jpg

I have the mobile mount. it is in good condition. I am asking $20.00

picture: http://www.eskimo.com/~ghopper/tm742mount.jpg

I also have the manual which I will sell for $15.00

To summarize, I have the RF deck sans the modules, the mic, the front display and controls, the mobile mount and the manual.

All items are plus shipping, I ship via USPS priority mail and insurance will be at your option. All parts are in good condition and they were all working parts before the great dissassembily!

Email with questions. ghopper@eskimo.com

Hello all,
I am selling several hard to find Ham Clocks; reads off the time in any
country, at any time of the day.
All are discontinued. Very desirable and will look great on your table with
your radio gear.
Please email me for prices and pictures.
Thanks

I have an Icom IC-03AT for sale. It is in good condition and includes the radio, antenna, BC-25U battery charger, an Icom leather case, a photocopy of the manual, and a BP-03 battery. I may have some other batteries for sale as well.

The radio works well and has basiclly been replaced by and IC-3SAT and an IC-38A so the 03AT is surplus to my needs.

Here is a picture: http://www.eskimo.com/~ghopper/ic03at.jpg

I would like to get $150.00 plus shipping but will consider reasonable offers.

I also have a Mirage C-22 amp for the radio. The specs: Freq. range 220-225 Mhz, Power input 0.1 to 5 watts max, output "20 watts or more with 2 watt input and intermittent duty cycle", receive preamp has 10db gain with .5db noise figure. the unit worked very well, but is surplus to my needs now that I have the 38A.

I'd like $120.00 plus shipping for the amp.

Questions, email ghopper@eskimo.com

I have a 2 meter amp for sale. It is new-in-box as I never got around to using it. It was made for Radio Shack and by all accounts was a good amp and did a superior job of rejecting intermod due to its good receive filter (that's why I bought it). It has all the mounting hardware, etc.

Specs are 1-5 watts in 30 watts out, has receive preamp.

Here's a picture: http://www.eskimo.com/~ghopper/2Mamp.jpg

I'd like $95.00 plus shipping but will consider offers.

RADIO FLEA MARKET in BEETSTERZWAAG.

The flea market takes place to - 26 May 2001. Do you look for an exotic transistor kit or a super recipient, fixed and do manufacture kit... or do meet of radio friends? Dan comes Saturday 26 May to the Friese radio market into Beetsterzwaag!

Many thousand visitors come each year from the entire Netherlands and Europe to this radio flea market spectacle, approx. 100 dealers, with most diverse articles, like senders - recievers - power supplies - antennas - software - hardware and literature.

Additionally of businessmen in the place also a flea market with many attraction organized for large and small. There is unfortunately no sales desks free on the radio flea market more, but you can reserve suburb, announce, for the year 2002. Is possible also by telephone & email, contact on to take with the executive committee. Down are these addresses.

How does one find Beetsterzwaag? From direction Apeldoorn = > Zwolle = > Meppel = >
Heerenveen = > Drachten, departure after Gorredijk Tijnje comes departure (28) Beetsterzwaag.

From direction Bremen = > Groningen = > Drachten = > Heerenveen, departure after Drachten Haven comes departure (28) Beetsterzwaag.

On 2mtr, 145,650 Digi Meppel and 145,700 Digi Joure can one to instruct leave themselves. Inlet is from 09:00 to 16:00 MESZ, into which Cafeteria one also boarded into this time.

This whole is organized of VERON FRIESE WOUDEN. Cordially Welcome in Friesland on the FRM!

Contact people, are:

I have for sale a Yaesu FT-767 from the estate of Eli, K4FHG. All proceeds from this sale go to his widow. The radio has modules for 2 meters and 430-440 mhz installed. Power output is 100 watts on HF and 10 watts for 2 meters and 70 cm. It has a built in antenna tuner for HF. Eli was using this radio shortly before he passed away. I have also checked it out since I received it, and it seems to be working 100% on HF,VHF, and UHF. Cosmetically, I would rate it a 9 out of 10 with only minor wear and no major scratches visible.

The price is $875 plus shipping, or I could deliver to Dayton (this radio is heavy). If you have any questions, e-mail or phone at 423-745-2451.

Thanks for reading this item,
Ken, W4ZUG, EM75

Hey folks,

We have a NEW address for the Allied - Knight Kit Bulletin Board!

The old BBS over at BESEEN.COM was being trashed repeatedly by annoying Taiwanese spammers with totally off-topic ads.

This new Board lets me delete spam, and al;so ban spammers if they try to register and use the board. The registration is free and takes like 20 seconds. A small price to pay for getting our privacy back!

Many Knight and Allied enthusiasts are out there. Please forward this to your friends, and to other Search engines, lists, reflectors, clubs etc.

So please pass the word. KNIGHT KIT LIVES!

73 de AF4K, Brian

I have for sale four 70cm 22 element FO style antennas and four way power divider. These were homebrewed several years ago, not commercial, but all four work well. Also have 4 port power divider and hardware for an H-frame. I was going to install these myself and play around with moonbounce, but have reconsidered and decided to part with the setup. Sorry, no phasing lines.

I am asking $200 for the entire array. I am in Northwest Indiana and will not ship these, they must be picked up.

MFJ-1270C Super TAPR TNC clone has a world wide reputation as the most reliable packet TNC in the world! Thousands used as digipeaters, nodes, BBS and in all kinds of commercial applications working 24 hours a day -- many work for years without a single failure . . .

Features

ROM expands to 512K
External accessible reset
Built-in monitor ampifier
Front panel ON/OFF switch
Enhanced DCD circuit for HF
Supports 19,200 baud terminals
64K RAM expands to 128K or 512K

The MFJ-1270C super TAPR TNC clone has a world wide reputation as the most reliable TNC in the world!

Thousands are dedicated as digipeaters, nodes, BBS and used in all kinds of commercial applications working 24 hours a day -- many work for years without a single failure.

The Most for Your Money

The most reliable TNC in the world gives you the most for your money. See for yourself . . .

Fully TAPR TNC-2 Compatible

You get full TAPR TNC-2 compatibility -- all software and hardware designed for the TAPR TNC-2 standard works without modification. You get X1J, NETROM, theNET and Rose Switch compatibility that turns your MFJ-1270C into a Layer Three and Four networking node.

VHF and HF Operation

You get high performance VHF and HF modems as standard equipment -- for double fun.

You get a true DCD circuit that dramatically reduces sensitivity to noise and dramatically increases complete QSOs.

Free AC Power Supply

You get a free 110 VAC power supply at no extra cost. With other brands, the AC power supply could cost you an extra $20.95.

New enhanced Personal Mailbox

The enhanced Easy MailT personal mailbox lets you use a dedicated call-sign for your mailbox. Your mailbox can stay on while you operate packet. It will also auto forward or reverse forward mail to and from other BBSs. A check mail LED blinks when you have mail. More features: remote sysop access, sysop paging, mailbox C-text, chat mode and many other features not available in other TNCs. The mailbox memory is expandable to 128K or 512K.

WeFAX gives you Weather Maps

You get a WeFAX mode that lets you print full-fledged weather maps from your HF radio to screen or printer or save to disk using an MFJ Starter Pack.

Plug-in Modem -- 2400 or 9600 Baud

You can add MFJ's optional internal 2400 baud or 9600 baud modem just by plugging it in and making a few simple connections.

KISS interface and MFJ Host Mode

You get a KISS interface that lets you run TCP/IP and MYSYS and MFJ's Host Mode that makes it easy to write efficient application programs.

MFJ Anti-CollisionT Technology

You get MFJ's Anti-CollisionT technology that prevents packet collisions and improves performance on busy channels.

Plus More . . .

You also get 32K RAM, IC sockets for easy service, 256K ROM, speaker jack, lithium battery backup, RS-232 and TTL serial ports, radio cable (you have to add a connector for your radio), Fast-StartT Manual plus much more. Use 12 VDC or 110 VAC. 9� x 1� x 7� inches.

I have a new Kodak DC215 zoom blue digital camera. I will trade for Yaesu VR-500 / DJ-X10E. Prefer unblocked. Also consider cash or good laptop.
Photos upon request..

http://www.kodak.com/US/en/digital/cameras/dc215/index.shtml

more info above

Can someone tell me a source for the pilot lamps which illuminate the band display digits on this receiver (probably other Yaesu equipment as well from the era)?
The manual specifies a 14v/0.65amp lamp

Thanks very much!

Like new TS450/SAT with YK-88C filter (500 Hz CW, $130 new) installed. All functions are perfect and cosmetics are 9.5 out of 10. Includes factory packing, mike, power cord, manual. Never been "tampered with". Also includes mobile bracket (but rig has never gone mobile).

Asking $650 plus shipping to ConUS by way of your choice.

Also have matching Kenwood MC-60A desk mike ($140 new), $95.

$725 for both radio and desk mike.

I need a smaller rig for the dash of the RV.

I'll consider a trade for a "like new" 706MkIIG.

Will ship on receipt of US Postal Money Order, or when your personal check clears. Will "double box" the original packing to keep it safe.

Email me if you have questions.

73s.........Rudi - WA6RW

Now up for auction at eBay is this brand new Yaesu ATAS-100 auto-tuning antenna! I'm hoping to sell this item quickly, so the auction is for 3 days only & my reserve price is far below retail!

For more information, just click on the auction link below:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=1238161130

Thanks!

  I have an ICOM-735 with an AH-2 wire antenna tuner for sale.  The S/N =
of the 735 is 010341, purchased at the Dayton hamfest=20
  04-26-87. have the original recp't.  The AH-2 was purchased several =
years later.  They are both in mint condition and work perfectly =
according to specifications.  It was in the car for about 2 weeks.  =
International Radio installed a 2.1 kHz SSB filter with narrow skirts =
and a narrow skirted CW filter.  The all band transmit modification as =
well as the split frequency logic correction was done. (sorry, no =
documentation is available). =20
  I have the internal ICOM CW electronic keyer.  It is not working but I =
will include it not installed.
  The transceiver was recently repaired by ICOM.  The chopper behind the =
main tuning knob was electrically rebuilt.  The radio was tested and met =
all ICOM specifications.
  I am asking $500.00 for the transceiver and $150.00 for the tuner =
(plus shipping).  If I sell the tuner first, I will sell them =
separately.
  As a package I will pay for the first $20 shipping cost.
=20
  I live in West Palm Beach, FL.  I can deliver or meet =BD way for a =
reasonable delivery distance.
=20

I have a Shakespeare army style 'big-stick' antennae for sale. It's still
up by the trailer, and I just plugged in the CB and it's works great!

FOR SALE:

Exciting novelty item: HAND-CRANKED MAGNETO GENERATOR!
Produces 120V AC. These will provide about 20 Watts depending

```
on your cranking speed! The size is about 3" diameter and
3" deep with a retracting handle. Fluke freq meter shows around
20 Hz on one pair of terminals and around 60 Hz on another.
You can mount these behind a sturdy front panel with a single
hole and the large nut provided.
Will sell for $25.00 each plus $6.50 USA shipping

Color may vary from the style shown here:

Like new TS450/SAT with YK-88C filter (500 Hz CW, $130 new) installed. All functions are perfect and cosmetics are 9.5 out of 10. Includes factory packing, mike, power cord, manual. Never been "tampered with". Asking $695 plus shipping to ConUS by way of your choice.

Also have matching Kenwood MC-60A desk mike ($140 new), $95.

$770 for both radio and desk mike.

I need a smaller rig for the dash of the RV.

The ONLY trade I'll consider is for a "like new" 706MkIIG. Will ship on receipt of US Postal Money Order, or when your personal check clears. Will "double box" the original packing to keep it safe.

Email me if you have questions.

73s.........Rudi - WA6RW

Hi all. I have a VERY nice Yaesu VX-5R for sale. I'm the original owner, the unit has only been used very lightly, and never abused. I have ALL the original packing and manual, plus I have the nice pocket reference that VE3AYR produced. I'll even throw in the Yaesu leatherette case that they made for this unit.

The unit looks and acts just like the day I bought it brand new. I've installed the handy spring-clip style belt-clip (Motorola brand) but you can easily put the original clip back on, it's included. The reason for selling is that my old eyes just can't read the tiny print any more (sigh).

When bought new (February of 2000) with the above accessories it cost me over $400. My selling price is $295 plus S/H. Price is FIRM.

I'm sure you'll like this tiny little powerhouse, don't miss out.
First money buys it.

I have several 16 channel Maxtrac mobile radios for sale  Model number
D34MJA7DA5CK.  These radios came from a city Police Department and were
all working when taken out of service less than 6 months ago.  They come
with power cord and microphone.  These radios program in the 439 to 470
range.  I would rate them at 8 1/2 out of 10.  For and extra $10.00 I
will throw in an external speaker.  I accept Paypal or money orders.
Again radio, microphone and power cord  $115.00 each.

Is this "firm" price as firm as the last "firm" price was before
your lowered it? ;-)

I have three HNN9049A Motorola Batteries that fit the P1225 as
well as others. These look like new, not a scratch on them.
$25 each, shipped CONUS.

Thanks, Dick, W1KSZ

Like new TS450/SAT with YK-88C filter (500 Hz CW, $130 new) installed. All functions are perfect and cosmetics are 9.5 out of 10. Includes factory packing, mike, power cord, manual. Never been "tampered with". Also includes mobile bracket (but rig has never gone mobile).

Asking $650 plus shipping to ConUS by way of your choice.

Also have matching Kenwood MC-60A desk mike ($140 new), $95.

$725 for both radio and desk mike.

I need a smaller rig for the dash of the RV.

I'll consider a trade for a "like new" 706MkIIG.

Will ship on receipt of US Postal Money Order, or when your personal check clears. Will "double box" the original packing to keep it safe.

Email me if you have questions.

73s.........Rudi - WA6RW

Please do reply to (leeassoc@hotmail.com)

At this site:
http://www.aaroncake.net/circuits/3Wfmtran.htm

looks like I've got everything but I need the "parts" that makes it more superior or powerfull up to 5wat.

I am not sure which of this list below would be the one to change for the better to make my fm trans. go beyond 1 mile.

I have a veronica 1w without antenna and had it for years where now looks like the little light is out, and I have to hold it in my hand to even work or add something metallic to it, the 2nd board I have is broken and all it does is change the stations. That seems to be missing one metalic tube on it...

Thanks..

I have two bird model 43 watt meters for sale. Your choice $160.00 plus shipping. Both have been tested (they were used in my shack and work great.) I am selling them because I actually have three and I really don't need three...

One has N connectors and a bird/motorola label. Good condition, no dents, etc. some signs of wear and a few paint chips.

Picture: http://www.eskimo.com/~ghopper/nbirdf.jpg

Number two has UHF connectors and is in near perfect physical condition.

Picture: http://www.eskimo.com/~ghopper/birdf1.jpg

the pictures are somewhat large so give them time to load.

I don't know what's up with the blue tint in the photo, but the meter face is white (like it should be). I suspect the blue is from the flash on the digital camera. I have more photos if interested.

Both come with a shorting plug.

Here we have yet another opportunity to educate you on the proper use of
filters. Most newsreaders come with them as standard features built in.

I'm sure that there are as many people who get really tired of hearing you piss and moan about it when it is really simple to solve. If you will set your newsreader to block out everything that has FS in the header, you will never be bothered by it again, and we won't have to sit and read your whiny post complaining about it. It's clear that everyone else in the world isn't going to change just for you, so either you change or stop whining about it.

I have a Kenwood TS-430 with the SSB filter that I am selling. The rig
is in good condition and has been checked out. The package does not
include a mic or a power cord. However, I just found out that you can
get the correct plug from chrystler dealers for around $7.00

I am looking for the best offer over $350 plus shipping.

Looking IMMEDIATELY for a 2 meter HT, it must be:

*Programmable
*Have at least 20 memory allocations
*PL Tone Transmit capable (most repeaters in my area are toned)
*Reasonable condition, do not care about exterior condition, as long as display is completely readable.
*Brand name not as important, and age is not either as long as it fits above requirements.
--

Am also looking for a 2 meter (or even multiband with 2 meters as one of the bands) mobile rig capable of at least 35 watts FM, must have PL Tone Transmit capabilities and at least 10-20 memories.

If you have something that you are waiting to sell later on in the year at a swap or just have an extra radio as listed above, please email me with what you would be asking for it (before any shipping charges) I am a college student so I am willing sacrifice with a less than perfect exterior (as long as it is totally functional otherwise) to save a few dollars.

I just purchased a mixed lot of ham radio "stuff."

Within the collection was a brand new (or darn close to it...) Kenwood backlit DTMF hand mic with the RJ-45 (eight pin phone style) connector. I checked it out on my TM-742 and it works fine. Since I already have a backup MC-53DM, I am going to sell this one. I'd like $60.00 and because it is so light and small that it will fit safely into the USPS priority mail flat rate envelope that I will ship it for $3.50.

There is some more kenwood stuff in the collection, like the front panel display for a 742 as well as the band unit housing. I need to do a little more reading before I decide if I'm going to sell it, and how to price it if I do.

Email if interested.

Our City has recently moved public safety to 800 MHz. They have asked our RACES group to sell old (but working) 460 MHz radios. (PD cars, motorcycles, base).

Before we just went to the local swap meet, wanted to test the waters to see if there was any interest via the internet.

We will use our website to show pictures of equipment. Drop me an email if you might be interested.

All crysals have been removed.

I picked up a fairly nice Heathkit SA-2060A 2kw antenna tuner at Hosstrader's yesterday, but alas no manual. I'd like to rewind the balun in the back (it's been over-driven and repaired) and it would help to have the description.

I will buy a manual outright, or pay for a decent photocopy. Or if you've got it in electronic form, that's even better.

Thanks all!

I have for auction a repeater made from two Brand new Low band 60 watt maxtracs. It uses the NHRC-4 controller with link port. It is all cased in a home brewed rack mount case. Looks great. All for less than it would cost you to buy and build. Why? Because I need a duplexer for my two meter repeater. So I can get it back on the air in tip top shape.

I've got a new (used one week for SWL) FT-840 for trade.

Bought it at the end of February when I got my bonus from work, in a moment of weakness (and a sale at the local ham shop). Used it (only for SWL; I dont have General upgrade yet) for about a week before I left for my honeymoon; never even plugged the mic in.

The AM/N mode switch started getting flaky, so I sent the radio back to Yaesu, who fixed the problem and sent the unit back to me. I got it back a couple of weeks ago, and its been in the box here ever since; been too busy to unpack it and set it back up.

I've realized that I dont really *need* a transceiver right now, since its going to be at least six months before I can get around to upgrading to General.

So, the FT-840 (complete in box, all original manuals, receipts, etc) is up for trade.

I'd like to swap for a comparable transceiver (IC718, older Icom, maybe a Kenwood) with general coverage receive, or for a nice receive-only unit (IC-R75, etc). Will consider any offers of radio equipment; I'd just like to get something different than what I have now.

If anybody's interested, please email me at the address below and we can work out a deal.

Bill

Hello there, my wife and I are just getting into ham (finally talked her into it, lol). We are looking for some hf gear. We're kind of short of cash because of a transfer, but we have other toys to trade. I'd like to get a nice rig like a Kenwood 940, or along the lines of an Icom 706MKIIG, or Yaesu 100D, or ??? Please check me out on www.grz.com, KD7MXN, or my ebay profile, I have over 90 positives, username gr8rdayz, or see our mugs on our homepage, www.come.to/townsend.com . Here's a list of what we have, PLEASE make offers:

Compaq 1900 Laptop NEW, 3 WEEKS OLD, Pentium III 500 w/256k cache, 192MB Ram, 6.4 GB HD, 13.3 Active Matrix Screen, DVD, Floppy, 56K modem, Ethernet. Windows ME, Office 2000 Premium, Publisher 2000, Painshop Pro 7. We just paid 2 GRAND for this thing (hmmm, maybe that why no money, lol)

S&W 6645 .45 Stainless Semi-Auto, 2 mags, holster, box, 3 dot sights

Kenwood TH75A Dual Ban HT, Almost New Condition, Dual Scan, MARS/CAP modified by Electronics Tech, BP6 and BP8 rechargeable batteries, drop in charger, case, and Speaker/Mic. BOXES FOR EVERYTHING!

Anyhow, that's it. Please send emails to gr8dayz@home.com

Take Care, Ken & Sallie

We finally took the advice of several hams and made a bulk purchase of transmitting crystals from Jan's in order to include them with our Peanut Whistle Two 40 meter QRP CW transmitters for those who don't have a junk box of assorted crystals. We chose the internationally recognized QRP frequency of 7.040 MHz. And we are selling the crystals to you AT COST with the purchase of a Peanut Whistle Two transmitter. Sorry! No individual crystal sales. They are exclusively for PW-2 purchasers. The cost of the Peanut Whistle 2 without crystal is $19.95 plus s&h. For the Peanut Whistle Two that includes the 7.040 MHz transmitting crystal...ONLY $29.95 plus s&h. You're invited to look at photo's of the PW-2 and see further details at our website: http://qth.com/dwm

We were unable to go to Dayton because of prior family and outpatient medical obligations...but our good friends at WORLDRADIO magazine were very kind enough to "pinch hit" and demonstrate/pass out fliers at Dayton regarding our new *Yo-Yo-Tenna Deluxe* Portable Dipole Antenna System. The fliers and the WORLDRADIO ad don't quite match up...yet. The magazine ad still states that this dual wind-up reel antenna is $29.95...POSTPAID. We typeset that ad back before the post office upped its rates. After we found out that they upped not only Priority Mail...but insurance too...we had to add shipping and handling. But currently...at least for a few more days...we will honor the May and June issues advertising the *Yo-Yo-Tenna Deluxe* for just $29.95...POSTPAID.

If you haven't seen the photos in WORLDRADIO, or didn't get our flier at Dayton, you can get an image of what the Yo-Yo-Tenna Deluxe looks like at our website. Just visit the Yo-Yo-Tenna page...imagine two of these wind-up "fishing reel" antennas connected to a piece of insulated tubing/reducer combination (for strain relief) attached to a PL-259. Can connect directly to your rig or your tuner. Works from 2 thru 40 meters. You can purchase additional individual reels to get coverage for 75/80 & 160 by connecting them in series. Great for traveling, camping, vacations, portable & Field Day. Because of its easy-up/easy-down hook-up, its great for apartments and condos. Also great for SWL's!

If you want to order...or have questions...you can call me at 1.517.563.2613. Or e-mail me.
Our website is - http://qth.com/dwm

Well, we all know the ARRL sells old QSTs on CD-ROMS for Windows machines -ONLY-.

But what about Macs? We -> ARE <- 12% of the market after all. (AND GROWING!)

Well - NOW - you can do it and the program is FREE.... Yeah -> FREE!

Written by a Ham (me) for other fellow Hams running iMacs and Powerbooks.

I got other MAC radio software I have written as well. Use most of it everyday, in fact.

Free for the rippin' ... so get to it.

```

Yaesu FT-101EE HF transceiver with original manual, microphone and AC power cable.
160 through 10m plus 11m SSB, CW, AM and digital modes. Has built-in 120V AC and 12V DC power supplies, MOX, VOX, PTT, NB, RF ATT, RIT and calibrator for 25 kHz and 100 kHz markers. Metering for plate current, ALC and power output level. This radio also has phone patch connectors in back.

This rig sparkles! It still has the original plastic on the faceplate and the front panel is completely mint. Handle is intact. There is a little dirt on the top but no scratches anywhere on the cabinet.

This is, without a doubt, the best looking, and best working FT-101EE I have seen in years. Looks like it has hardly been used since new. Plastic is still on the front panel which is immaculate.

Works fine on all bands, and all functions are working properly.

Will sell for $325.00 plus shipping

Picture and details available on my web site at:

http://home.cfl.rr.com/happysurfer/trade.htm

Hi,
I am interested in the above two radios from Drake. Either complete or
parts. Please email with details. Thankyou.
Nick

I have for sale a used Force12 EF-320x/240s. 28' boom, 3 el on 20m, 2 el on 40m, dual feed. Antenna has only been up for about 2 years, has been stored since then. I just re-did
all the hardware, antenna is in excellent shape. Was going to put up but is too big for present tower. Asking $450 plus shipping. I also have a Cushcraft A3S that I retuned to 10/15/17m, can be tuned back to 10/15/20m. I'm asking $200 plus shipping. Both antennas' for $600 plus shipping. I'm in the Atlantic City New Jersey area.

There used to be a mini FM transmitter made by Selectronics called the "Sound Bridge" model SB100.

I would like to know if anyone might have any contact information from that company or the company from whom these units may have been obtained?

At one point in time, they were sold by All Electronics and by Parts-Express.
I have written to both of these companies with no luck.

At some point in time, these units were also given away free to customers ordering a certain CD player or players. If that rings a bell with anyone who might remember which company offered them as a free bonus, that might help me track them down.

I'm looking to either order some in quantity, find a company who made them or distributed them, or find a schematic.

You can see a photo of the SB100 at:
http://mem.tcon.net/users/5010/5491/sb100.gif

Thanks very much,

William E. Miller, ASEET
Chesterfield, Indiana US
Need Mfr. Info on SB100 "Sound Bridge" FM Transmitters!
See pic @ http://mem.tcon.net/users/5010/5491/sb100.gif

rec.radio.amateur.swap:706

Hi all. I have a Yaesu FT-50RD for sale. The unit works fine and has never been abused. I have ALL the original packing, manual, antenna and wall charger.

I'll even include the following battery packs, all tested good:

Quantity 2 FNB-47XH: 7.2V 1800MAH NIMH
FNB-49: 6V 600 MAH NICAD (original with radio)
FBA-15: AA cell holder for use with radio, looks like FNB-41

The reason for selling is that my aging eyes just can't read the tiny print any more (sigh). Price is $225 plus shipping, firm. With the included battery packs, this is a very good value.

I'm sure you'll like this tiny little powerhouse, don't miss out.
First money buys it.

Neil, K1VY
(603) 465-2788

This FT-847 is one of my 3 rigs, one has to go.   Is a late series 8

and late serial #, has 500hz CW filter (455khz) and NEW IN THE BOX
FC-20 auto-tuner....never used. Primary use has been SSB-CW on
50-144-432 mhz, but it has been used rarely on HF bands. I recently
replaced the POWER switch (a norm for the 847's). No other problems
ever, it works as it should, is clean with no dings / scratches
etc. I also have IC-756 and IC-706 'G'. Am going to build portable
set up for my van to get away from city dwellers and TVI & so on.

FT-847 / CW fil / new FC-20 tuner $1500.
FT-847 & CW fil $1250.
FC-20 only $250.
All above ----plus shipping , unless 'complete set' purchased, I'll
split the ship cost. AL K2ERG Rochester,NY

Kenwood TS-820S, CW filter, Digital display, & External VFO
$325 Plus shipping and packing. Copy of owners manual and
original service manual included.

Kenwood R-599A/T-599A Twins. No converters.
Includes owners manuals & Turner M+2/U hand mic.
$300 Plus shipping and packing.

Both radios in good condition. I can't and won't say "mint", they aren't
Besides - "mint" means to me "sealed" as in "mint coin sets"

Both transmit and receive very well, full output on all bands (per manual
specifications). Neither has an external speaker.

Will trade for Boatanchors - specifically AM.
Mohawk or Apache - perhaps deal for both?

Please respond to address below.

Bob

Here we have another spammer. He misleads
```

in the subject line by saying this item
is FS "OR" For Sale "OR" misleads and
indicates said item is for sale when it
is actually FA = For Auction. The FA is
used by those of us that do not Do Auctions.
We set our spam filters for FA in the subject
line and we do NOT have to see the auction
spam. Do not trust this person.

"If they Lie in the subject line"
They will have no problem misrepresenting
the JUNK they have at the Auction..

Just My Opinion..

Bob

Looking for second rig. I prefer the FT-990 but will consider
the FT-920. Must have CW filter(s). Speaker a plus.

Tnx, Dick, W1KSZ

TCARC Hamfest 2000 Scheduled for Saturday, August 4, 2001

ITHACA, NY The Tompkins County Amateur Radio Club announces the Finger
Lakes HAM-IN (hamfest and fly-in) at Tompkins County Airport (KITH), 3
miles NE of Ithaca on Route 13, on Saturday August 4, 2001.

Ham radio seminars TBA.

Vendor setup starts at 6 AM (inquire for Friday night setup time).
Doors open to the public at 7 AM Saturday morning.
Hamfest closes at 2 PM Saturday afternoon.
Large hangar for indoor vendors and displays.
Drive-in setup.
Paved outdoor flea market and parking.
Aviation displays - fly in and show your plane for free!
Breakfast and lunch served by Boy Scouts.
Admission: $5.00 at the door, $4 in advance until 7/15/2001.
Indoor tables: $10.00.
Outdoor space $2.00 each.
Under 18 free.
ARRL sanctioned. VE exams, as always walk-ins welcome at tests.
Talk-in on 146.970- AF2A repeater.

More info, including a PDF format flyer, is available on the club
website at
http://www.compcenter.com/~tcarc/

For more info contact Richard Spingarn 607-387-5251 or <a
href=mailto:richard@eagleprint.com>email richard@eagleprint.com.

Correction
I have been informed that these twins are PLAIN 599s - NOT "A" models.

Have for swap a TPLModel   PA3 -1FE
Freq. Range 136-175 MHZ
15-40 watts in =80-120 watts out
Works Fine just  wont do SSB.
Have schematics included.

Hello Everyone,

I am looking for the following CQ VHF Magazine's:

1996: August
1997: February, September, October, November

If you have any of the above issues in good to excellent shape, and are willing to part with them, please send me a personal email.

Thanks!

73,
Brian, N5ZGT

I have 3   ten foot tower sections (2 middle and 1 top section) I also have
2 rotors and 2 rotor controllers + rotor cable.
 the first rotor and controller are fairly heave duty (easilly several
tribanders or monoband hf antennas) the second rotor/controller is a
chanelmaster tv rotor (will easilly handle 2 or more vhf/uhf antennas- I
had a 3 El 6M mono, a 3 el 2m Mono and a large tv antenna on this rotor,
handled no problem)
Im asking $200 for the lot, however its pick up only (rome, Ga) sorry I dont
have a truck

Ends Apr-28-01 10:49:26 PDT

You are bidding on a Kenwood TH-215A VHF FM handheld transceiver with optional SMC-30 speaker/mic. Included with the handheld are: PB-2 (8.4 volt, 500 mAh battery pack); wall charger; SMC-30 speaker/microphone; rubber antenna; and the original instruction manual. I have used the radio and it works perfectly. The battery pack holds a charge well and has good life. The radio is in excellent condition (9.5 of 10). The only flaws are a few scratches on the back panel. The radio has a receive range of 141.000 MHz to 162.995 MHz. The transmit range is 144.000 MHz to 147.995 MHz. I believe it can be modified for MARS/CAP. The radio has 10 memories (is capable of working odd splits), 38 tone PL encode, 3 types of scan (band, memory, and programmable limit), 3 scan modes (seek, time, and carrier), adjustable battery saver mode, lighted display, priority watch feature, key lock mode, TX disable mode, DTMF pad, reverse feature, and can be powered directly by 7.2-16 volts DC via a jack on top of the radio. The transmit power is approximately 5 watts when powered by 13.8 volts DC and approximately 2.5 watts when powered with the battery pack that is included. It has a low power setting of approximately one half watt. The deviation has been measured at 3.78 KHz. The receive sensitivity has been measured at .15uv 12 db Sinad. I have replaced the lithium memory backup battery, so it should be good for another 5+ years. The radio is missing the belt clip. I am selling the radio to free up money for a two meter all-mode rig I purchased. Buyer to pay actual shipping charges from 65781 (no "handling", packing charges etc). I will pack the radio securely and guarantee it is working when it leaves here. If the buyer wants insurance on the shipment, it will be at their option and expense. I will ship it by USPS unless the buyer prefers other means. I reserve the right to relist the item if ebay is down during the last 5 hours of the auction. I have tried to be very complete in this description, but if you have questions, please email.

I have played with both and went with the TS. I had the 746 and the 847. The DSP on the 756 sounds so crummy to me. I didnt like it at all. The scope is neat but i wont use it its called turn the vfo for me. And I like the versitility of the 2000 the upgrades for it will be via Firmware / uploads via computer. Why do I need to buy a new rig just buy the upgraded firmware. Why hasnt the big 3 come up with this 10 years ago? Who knows. Ten Tec does it the with the Jupiter. For me the choice is hands down the TS for its many options and for not having to buy filters. Its a good rig. And I can assure you I will get my DXCC with this one.

Check this out:

TWO Radios

Yaesu FT811s that work on COMMERCIAL BANDs too!

See them at:

http://cgi.ebay.com/aw-cgi/eBayISAPI.dll?ViewItem&item=3D1231379398&r=3D0=
&t=3D0&showTutorial=3D0&ed=3D988511542&indexURL=3D0&rd=3D1

2  RADIOS
Yaesu FT-811

Compact 70cm FM Transceivers
 (420Mhz-470Mhz)

          a.. This auction is for TWO Radios-excellent for TWO people to =
use to travel and talk!=20

          b.. 49 Tunable Memories=20

          c.. High Performance Scanners=20
          d.. Memories store repeater offsets=20

          e.. Auto Power Off to save batteries=20

          f.. Uses the Yaesu FNB series Batteries=20

          g.. Includes CSC-35 Soft Case (NEW)=20

          h.. MMB-32A Mobile Hanger Bracket Included (for window or =
dash)=20

          i.. BRAND NEW 12vdc Battery! (3/1/01)=20

          j.. TECHNICAL MANUAL included!=20

      This equipment was used by myself and son when he was young and =
lived near me.  I bought TWO so we could talk privately on the ham =
bands.  They are in excellent shape.=20
      Included is the following:  I have two MANUALS, A separate =
TECHNICAL MANUAL (ONE), a BRAND NEW BATTERY - FNB-11 12v 600mAh  bought =
on 3/11/2001 from Batteries America ($30 alone!) =20

-------------------------------------------------------------------------=
-------

They BOTH are in good WORKING order. =20

Hi Howard,

IMD does NOT cause TVI, it causes splatter on adjacent frequencies. Since splatter is masked by stronger signals or noise, it is best tested in a controlled environement. That's why the tests are so important.

We have gradually been accepting poorer and poorer rigs for use. Keyclicks and splatter are on the way UP, that is definite.

The TS-2000 is a large step towards more deterioration in spectral purity of our rigs. Personally, I hope they never become popular or they are corrected and at least brought back to the same specs as most other radios.

We may never return to the spectral purity of something like a Collins KWM-2 (we are now about 15-20 dB worse than that in the typical rig), but there is no reason to accept constantly declining transmitter close-spaced performance. The TS-2000 is another 15 dB in the wrong direction.

I can get better IMD performance from a class C amplifier, so I have to wonder what engineering mistakes they made.

Since I live in a quiet rural location, and work weak signals, this problem is very evident to me. It may not be evident in other situations, that's why testing is important. The numbers don't lie, and the TS-2000 is the worse radio to hit the market in a long time.

Shame on them for ignoring IMD performace.

73 Tom

I have a Swan 500cx HF rig in good condition. I would say an 8 out of a 10. All knobs are there, all the screen printing is intact, all the lights light, it all looks good. The radio is just the radio, there is no mic or key. Also have the matched Swan 117xc power supply and speaker. All power and speaker cables are included and in good shape. The radio has little sign of use. Powers up good, and receives good. I have not tested the transmit, but I know it does transmit. Would be a great matched set for an HF station, esecially for someone who likes older rigs or someone who doesn't want to spend a fortune on a newer rig.

If interested e-mail me for more information.

Thanks, Justin Moon KE4CAA

Tom your nuts that thing has TX bandwidths of 2.4 to 3.0khz. Seems to me you are just one of many that like to rip ass on new rigs out. But whatever. I am happy with my rig and thats all that counts. See you on the DXCC list. And as for collins i dont want the over priced drifting equipment in my shack. I will stick with my crummy IMD rigs any day and guess what I will stay or beat you any day on what I have here next to the collins. I have to admit the audio is nice sounding on those tanks.

In testing the TS-2000 has the higest transmitter IMD of any radio on the market today, by a large margin.

Anyone who understands IMD would know that it doesn't mean the audio "sounds bad". All it means in this case is the spurious garbage outside the required bandwidth of the transmitter is maybe 40 times higher than that from other rigs.

We need cleaner radios, not dirtier ones.

With attitudes like yours it's no wonder radios click and splatter more than they used to. The manufacturers don't need to worry because people will accept deteriorating performance with question.

It isn't MY fault they have a poor design. Don't blame it on me!

73 Tom

Possibly more proof that Kenwood is courting the CB crowd? (They could care
less about IMD - even if they knew what it was)

I suspect it is more proof that engineers know less or care less about what acceptable performance is, rather than intentional.

You can see examples of this creeping into the CW sections of rigs, where they call the ratio control "weight" and provide no means of adjusting the weight...which people commonly want to adjust....and instead change the ratio of dot-to-dash which no one in their right mind wants to change.

Same think with keying waveforms... and more important bandwidth of CW transmitters.

They must have customers who buy a radio without knowing or caring if it really doesn't work as well as it should, or doesn't have needed features. I'm sure the manufacturers don't get enough constructive feedback demanding they clean up transmitters and receivers and add useful features like a weight control for CW.

When I told a certain manufacturer their top-of-the-line radio had leading edge overshoot to 300 watts on key closure (even when power was set to 50 watts!) and had no weight control their marketing guy responded "no one cares, no one works CW anyway..and all radios have power overshoot".

Personally, I want to buy the cleanest radio I can. I worry about blocking and IMD performance, and how it might bother other people, more than I worry about 10,000 stacked memories or extended double DSP.

73 Tom

For sale: More Transformers...

1) 115/120/125V primary / 1340V at 100 mA, no CT, 380V CT at 145mA,
plus 5V at
3A. Will sell for $44.00

2) 115V AC primary / 1000V at 160mA plus 6.3V at 5A, 5V at 2A and 7V
at 5A
Will sell for $48.00

3) 117V AC primary / 6.3V at 13 Amps plus 6.3V at 13 Amps
(Twop 6.3V windings) also two 24V windings at 1.5A each
Potted, size approximately 4" X 5" X 7" tall.
Will sell for $36.00

4) 115, 120, 125V Primary / 400V CT at 100mA, 6.3V at 15A,
6.3V at 8A and 6.3V at 3A.
Will sell for $38.00

5) Raytheon 115V AC Primary / 772V at 70mA, 10V at 26 Amps plus
TWO windings each 2.5V at 5 Amps (not CTs)
Will sell for $50.00

Shipping costs are additional. E-mail me for details or to arrange purchase of any of these.

Need knob for HT32, HT32A, HT32B, one of the smaller ones (not
bandswitch or VFO). Actually what I really need is the metal insert
for one of the knobs....some were pointy, some were flat. What I'm
looking for is the flat knob insert. Please advise price and how to
contact you.
Tnx,
Dan

Hello Everyone,

I am looking for the following CQ VHF Magazine's:

1996: August
1997: February, September, October, November
1998: March, June, July, October, November, December
1999: January, February, March, July, August, September, October,
November

If you have any of the above issues in good to excellent
shape, and are willing to part with them, please send me a personal
email.

```
     Thanks!

73,
Brian, N5ZGT

I think I'm interested in purchasing a WBL V22 paddle. Must be in excellent
working and cosmetic condx. .

I don't have a good handle on current prices of these paddles. Any thoughts
would also be appreciated from someone who has bought or sold one recently.

PLEASE REPLY VIA PRIVATE EMAIL, not on the newsgroup.

Thanks... Ed, W5EJ

I have numerous QSTs from the 30s, 40s, 50s. I also have a couple hundred vacumn tubes, most new old stock in original boxes. If anyone is interested, please email me at FSwanger@Thegrid.net with a "want list". These items will be very cheap. I am moving out of my house and into a travel trailer and most everything must go.

Floyd WD6AXU

Hewlett Packard 4260A Universal Bridge -- measures resistors, capacitors and inductors. Also checks inductor Q and capacitor D using either internal 1KC source or external oscillator.   Has "semi-auto" nulling feature in L&C modes. 6" hi x 8" wide x 12" deep overall -- 115/230 VAC powered. Cosmetically very good. $300

All of the above plus shipping, if necessary, naturally.

**************** Knobs ***************************

These are all used, most have set screws, with nothing worse than minor scuffs and smudges and fit 1/4" shafts, unless noted.

Dakaware
1-1/16" Knurled Knob -- $4
1-1/16" Knurled Knob w/ 1.5" skirt w/ white indicator line -- $7ea
1-1/16" Knurled Knob w/ 2" skirt marked 0-10 -- $10
1-5/8" Knurled Knob w/ 2-1/16" skirt & unfilled indicator line -- $10
2-3/8" Knurled Knob w/ white vinyl pointer at skirt level -- $15 ea
2-3/8" Knurled Knob w/ 3" skirt & unfilled indicator line -- $15
2-1/16" skirt only -- $5

Short (1-3/16")pointer knob w/ white indicator line $2 ea
Long (2") pointer knob w/ white indicator line $3

Harry Davies
#1206 1-3/8" knobs -- $5 ea
Short (1-3/16")pointer knob unfilled indicator line -- Not sure if this is Davies... There are a box of these -- $1 ea

Hewlett Packard (70's vintage)1-5/8" spinner knob w/ 3/8" bushing -- $10

Kurz-Kasch
#308 1-1/8" knob -- $5
#308 1-1/8" knob w/ 1-3/4" brite metal skirt with 100 graduations and tens indicated in black -- $10
#309 1-5/8" knob w/ metal spinner and 2-1/4" black metal skirt with 100 graduations and tens indicated in white -- $15
#309? (may not be KK) 1-5/8" knob w/ plastic spinner and 2-1/4" metal skirt with 100 graduations and tens indicated -- $15

#310 2-3/8" knob -- hub drilled out to 3/8" -- $10
#310 2-3/8" knob w/metal spinner shaft -- $15 ea
#311 2-1/16" skirted knob (some of the white lines are need refilling on these) -- $10 ea
#380 1.5" skirted knob -- $7

These look like what was on some '60's Hammarlund, Eico & Knight Kit stuff
#642 1.5" skirted knob -- $7
#647 1" skirted knob w/indictor line -- $7 ea
#653 1.5" skirted knob w/indictor line -- $7 ea

Millen? (has a logo that looks like a "M" with an "I" superimposed at the center) #309 3-1/2" Handwheel style knobs as seen on the SX-28, if I recall correctly.
These are all in need of minor plastic surgery -- two have chips out the skirt where the set screw goes and one has had it's center drilled through... perhaps, to make a concentric assembly??
$10 ea.

National HRT 2-1/16" diameter
Black, trim rings somewhat tarnished -- $5 ea
Gray, trim ring shiny like new -- $10

There are also many knobs from 1960's Tektronix and Hewlett Packard oscilloscopes, if anyone has any need, please inquire.

All of the above plus shipping, if necessary, naturally.

************** Electrolytic Capacitors **************

These are mostly NOS & range from 10-30 years old. I have between 2-6 ea of many of these parts.

Axial Leaded

210uF@35V -- $.50
250uF@40V -- $.50
500uF@50V -- $1
500uF@75V -- $2
750uF@50V -- $2
1000uF@50V -- $2
1000uF@75V -- $3
2000uF@50V -- $3
2200uF@35V -- $2
2700uF@30V -- $2
4700uF@25V -- $3
4700uF@35V -- $4
6800uF@15V -- $2
8000uF@20V -- $3

80uF@175V -- $1
120uF@250V -- $2
200uF@250V -- $3
40uF@450V -- $4
80uF@450V -- $5
10uF@475V -- $1

Radial Style

1000uF@20V (used) 4/$1
2200uF@25V -- $1ea
2200uF@35V -- $1.50ea

1000uF@200V (used) -- $2
2000uF@200V -- $3
330uF@400V -- $3

560uF@250V / 47uF@250V -- $4

Old Can Style (Approx 1.5" diameter) mostly NOS Sprague & Mallory

Multi-Section Units -- $7 ea
150uF@175V / 150uF@175V
300uF@175V / 250uF@175V
100uF@250V / 100uF@250V / 600uF@100V
250uF@200V / 400uF@175V / 50uF@175V / 5@175V

200uF@300V / 100uF@175V / 30uF@150V
200uF@300V / 100uF@300V
100uF@350V / 100uF@50V
120uF@350V / 80uF@350V / 20uF@350V
150uF@400V / 10uF@400V / 15uF@400V
40uF@450V / 40uF@450V
80uF@450V / 2uF@350V
10uF@475V / 18uF@475V / 40uF@25V
10uF@475V / 10uF@475V / 10uF@475V / 10uF@475V (used)

Multi-Section Units -- $4 ea
500uF@25V / 50@25V
500uF@50V / 500uF@15V
500uF@50V / 50uF@25V
800uF@35V / 800uF@35V
2000uF@20V / 4000uF@20V
750uF@50V / 500uF@40V / 500uF@40V

Single Section Units -- $3 ea
160uF@250V
150uF@350V
200uF@350V
60uF@450V
1000uF@50V
3000uF@50V
3300uF@50V
4000uF@50V
4700uF@40V

Old Can Style (Approx 1" diameter) mostly NOS Sprague & Mallory

Multi-Section Units -- $4 ea
10uF@450V / 10uF@450V / 20uF@25V
10uF@350V / 20uF@350V
20uF@300V / 20uF@300V / 50uF@50V (used)
30uF@150V / 20uF@150V / 20uF@25V
15uF@250V / 15uF@250V / 500uF@2V
500uF@16V / 100uF@16V / 100uF@16V

Single Section Units -- $2 ea
1000uF@15V
500uF@25V
100uF@50V
20uF@450V

Computer Style (screw terminals) mostly NOS

80uF@300V -- $2
150uF@200V -- $2
250uF@200V -- $2
470uF@250V -- $3
590uF@200V -- $3
700uF@250V -- $5

780uF@200V -- $3
2000uF@200V -- $6
3900uF@300V -- $12 ea
2200uF@400V -- $12 ea

2900uF@25V -- $1
3300uF@50V -- $3
3700uF@30V -- $2
4000uF@10V -- $1 ea
6000uF@50V -- $5
9300uF@50V -- $6
10000uF@40V -- $4
11500uF@18V -- $2
12000uF@20V -- $2
12800uF@75V -- $8
13000uF@15V -- $2

20000uF@40V -- $5
22000uF@50V -- $6
24000uF@50V -- $6
27000uF@25V -- $6
48000uF@30V -- $8
55000uF@25V -- $6

100000uF@20V -- $12
100000uF@25V -- $15

All of the above plus shipping, if necessary, naturally.

***************** Power Resistors **************
200W (or so -- 10" long) 1500 ohm 10 tap (every 150 ohms) power resistors -- used good, $10 ea

Eight Ohmite 3K, 225 Watt power resistors mounted to a 15" x 16" fiberglass (PCB material) panel. Currently wired in parallel but, easily reconfigured. $50

Ten Ohmite 2K, 225 Watt power resistors mounted to a 15" x 18" fiberglass (PCB material) panel. $60

10 Meg meter resistor assembly used to measure 10KV with a 1mA meter movement.
It consists of 2 large, 10" long, 5 Meg resistors mounted in a nicely made 12" x7" x 2" plexiglass housing. $10

All of the above plus shipping, if necessary, naturally.

***************** Power Supplies **************************

Open (L-shaped) frame power supplies with attached 2 wire polarized line cord, 120V 60 Hz AC input.   There is a relay that switches the 3 voltage outputs. They measure about 6" x 3" x 2". They have an internal 1A line fuse. They have a six-pin SIL output connector and come with a matching cable to pigtails.   The wires are: GND, +5V switched, -5V switched, relay (gnd to operate), +12 switched, and +12 constant (for the relay). Just guessing from the 780X series regulators, I would think that the +12 and +5 outputs are good for about an amp. and the -5, which regulator is unheatsinked, perhaps a couple hundred mA.

5 units available. $15 ea.

Lambda LM B0-60 -- 0-60V, .45A Linear Power supply with remote sense terminals, screwdriver voltage adjust, 5"x3"x7" -- used $25

Power General

Model 1035-2 -- 12V, 3A, Switching Power supply, uncased PCB 5"x3"x2" -- NOS $15

Model 3050-1 -- 5V@6A , 12V@1A & -12V@1A, Switching Power supply, uncased PCB 5"x4"x2" -- NOS -- $25 ea (4 available)

Model 3056-6 -- 5V@6A & 12V@3A, Switching Power supply, uncased PCB 5"x4"x1.5" -- NOS $25

Sierracin 5C12A -- 12V (5 Amp?) Switching Power supply with remote sense terminals -- open frame 5"x8.5" x2" -- used $15 ea (2 available)

All of the above plus shipping, if necessary, naturally.

****** VACUUM CAPACITORS & other Vacuum things ***********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S	300pF	15KV	$250	with standard puller, later manufacture (blue)
UCSL-750	750pF	3KV	$150	with standard puller
UCSL-1000	1000pF	3KV	$150	with standard puller

R1G SPST 20KV 20Amp Vacuum Switch $100

---------Fixed vacuum caps----------

Jennings VC-12	12pF	20KV	$25	
Jennings	50pF	86KV	$86	
Western Elec	100pF	5KV	$50	(This one hi-pot checked @ 14KV)

--------- Vacuum Relays -----------

Old "T" style vacuum relays for sale, where the coil slips over one leg of the glass enclosed contact assembly -- One of the contacts has a Penta Labs part number: 420 53 3875. The coils are 28V. $10 ea

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum relay mounted on top of a small (2"x3"x4") metal enclosure. There is a 15 pin Jones connector on the side of the box. I believe that there are some auxiliary contacts in the box in addition to the vacuum relay. This is also a 28V unit. $15

All of the above plus shipping, if necessary, naturally.

************** SEMICONDUCTORS *****************

GE 1N3289 rectifiers, 100A, 200PIV, DO-8 large stud package. These look like
NOS --
(It doesn't appear that the anode leads have ever been bolted to anything.)
4 pieces -- $30 all

GE 4JA61C rectifiers, 50A, 300PIV, large stud package. A pair for $5.

GE 4JA63C rectifiers, 50A, 300PIV, large stud package. Four for $10.

GE A70B, 100A, 200PIV, DO-8 large stud package. Used. Four for $15.

GE C156D, 110A, 400V Inverter SCR's, used. $10ea.

Lambda FBH-24 Hybrid Regulators NOS -- $10 ea

Motorola NOS rectifiers, 50A, 100PIV, plate mounted. 2ea MR1201FL & MR1201FLR (a bridge worth)-- NOS $10

Motorola NOS TIP34A 10A 60V TO-218 PNP Power Transistors. 4/$1

Sarkes-Tarzian Model 78D center-tapped Selenium Rectifiers. NOS! $5ea

Westinghouse 6-1-1B/1N1188 3 Phase 600V 35 Amp rectifier assembly with heatsink. Unused but, tarnished from long storage $10.

Westinghouse NOS, 80A, 1000V house-numbered SCR's $15ea.

Westinghouse NOS, 20A, 1000V house-numbered Rectifiers $4ea.

All of the above plus shipping, if necessary, naturally.

******** Roller Coils *************

B&W 3853 72 uH NOS but, a mite tarnished from age. $60

Johnson 229-202 18uH used good, $50

La Pointe L-0201 406-1 (identical to a Johnson 229-201) 10 uH. used good, $30

********* B&W Air Dux coils *********

These are all shiny NOS, 10" lengths, unless noted otherwise

#2408T 3" dia, 8TPI, #14 wire -- $30

#2008T 2.5" dia, 8TPI, #14 wire -- $30
#2008-31 2.5"dia x 4" long , 8TPI, #14 wire with 2 turn #14 link at center.
NIB $25

#1604T 2" dia, 4TPI, #12 wire, slight tarnish $20

#1208T 1.5" dia, 6TPI, #12 wire, slight tarnish $20
#1216T 1.5" dia, 16TPI, #16 wire, somewhat tarnished $20

#1006T 1.25" dia, 6TPI, #14 wire, somewhat tarnished $15

These are all somewhat tarnished NOS partial lengths

#1008T 1.25" dia, 8 TPI, #16 wire, 8" long -- $12
#1016T 1.25" dia, 16 TPI, #20 wire, 8" long -- $12
#1032T 1.25" dia, 32 TPI, #24 wire, 5" long -- $10

a couple of miniductors (lighter construction)

#3035   3" dia, 10TPI, #16 wire, slight tarnish 10" long -- $25
#3027   2" dia   10TPI, #16, 7" long shiny -- $20

and a couple of Illumintronic Engineering parts

375 7367-P1 -- 1.5" dia.x 5.75" winding w/ indented turns, 14 TPI, #17, 7" overall
   including plastic center support, un-used somewhat tarnished $25

980-0121-000 -- 2.5" dia. x 7.5" winding w/ indented turns, 8 TPI, #14, 9.5" overall
   including plastic center support, used somewhat tarnished but, no turns soldered $30

All of the above plus shipping, if necessary, naturally.

******** Used Coax Connectors *************

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-643 C Female-Female barrel connectors, $3 ea
UG-637 UHF Male to C Female adapters, $5 ea

UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

********* New Coax Connectors ***********

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics (US made in New York, new home state of ex-President William Jefferson Clinton)

KC-59-642-M06 BNC Cable Male -- $1 ea

KA-59-385-M06 TNC Cable Male -- $1 ea

KA-19-43 TNC Bulkhead Female -- $1 ea

********* Coax Antenna Relays **********

These all have (3) UHF connectors. They are somewhat old looking on the
outside but,
 I popped the inspection port on each and all the contacts are all happy.
And they all go click upon application of the appropriate voltage.

Dow-Key DK-60 style
   110-115 VAC coil   -- $30

Advance (same style but, heavier contacts & construction)
   115 VAC coil   -- $30

All of the above plus shipping, if necessary, naturally.

********** Homebrew Radio things *******************

Many hams build things with a large investment in time & parts that are worth far less... later.   Here are some items from the estate stuff I've been selling that fit that description -- priced accordingly.

Unless noted, most of the items below are built on PCB material and most of the enclosures are made by soldering pieces of PCB material into a box -- not all sides may be present! Batteries not included!   A few of these devices come with schematics, mostly not.   The wiring is all open enough that you can generally see what is going on.

Battery drainer -- LM317K (TO-3) plus a pot wired as a current sink to drain batteries -- 4" x 3" x 1.5" -- $2

PL Tone generator -- Wein Bridge Oscillator powered by two 9 volt batteries. - $3

Fully populated 2.5" x 5.5" homebrew PCB w/ two 1496 balanced mixers, a couple slug tuned coils, plus a CA3001-- I only see power connections; Don't know what this does! $4

Touch Tone Encoder -- Western Electric Touch Tone Dial mounted in a 4"x4"x2" metal enclosure with power switch. Has a 4 pin DIN connector plus matching cable terminated in a 1/8" mini plug. $5

Two Tone generator -- Two Wein Bridge Oscillators powered by two 9 volt batteries on perf board. - $5

Some kind of test oscillator with a 556, two pots with anodized gold (colored) knobs, pwr. sw.. LED,. & Banana jack outputs -- $5

60dB Sampling Tap -- HN female connectors for the main line and a BNC for the tap. 1KW in the line puts 1mW to the tap. -- $10

435 MHz power splitter with (3) N connectors. This made out of brass sheet stock and is about 15" long by 1" square. $10

Varactor multiplier (unfinished) -- looks like it's designed for 144 to 440. Built in a 3.5" x 2" x 7/8" extruded aluminum case -- top plate missing. Silver plated coils, Johnson 189-6-4 caps. It think it is complete execpt for the input and output leads. $10

Some kind of VHF thing just started. Pomona 4"x2.5"x1.5" cast box with a couple 160-104 capacitors, BNC connectors, a miniature 50K bourns pot., 6 capacitors mounted to gold plated terminals with a very pretty gold flashed internal shield structure. Nothing is soldered -- this was just started. $10

Antenna Noise bridge? -- Pot & Cap plus 4 transistor circuit mounted in a 5" x 4" x 2" enclosure. BNC connectors marked ANT & RX. Pwr SW. & Led Powered by a single 9 volt battery. - $10

Two Meter to 24-28 MHz converter (I think!) -- 5" x 4" x 1.75" -- $12

A VHF thing -- Two trombone lines adjustable between 4-6" with a transistor connected between them plus a Phasotron 50 ua 2" round meter on a BNC cable with a small loop w/a diode. -- $12

Active Field Strength Meter -- Schematic per 1985 ARRL Handbook p 39-10. Built in a 5" x 4" x 3" black crackle finish metal case with a Simpson Model 29, 4" meter, covering the entire front of the box. -- $15

NTSC Frequency reference -- I think this was a QST project in the early 1980's. PCB in 4"x5"x8" metal case (top missing) w/feet, AC line powered. -- $20

144-148 MHz to 24-28 MHz Transverter -- 5" x4" x 4" overall -- 2N3866 Output transistor, probably runs about a watt on transmit. Barrier strip for power (12V?) and an 8 pin Japanese style Mike connector for ?. Transmit & receive sections are each 5" x4" x 2" and only interconnected with a few wires -- $30

All of the above plus shipping, if necessary, naturally.

Triplett 327T 10 Volt 3" Square meter NIB -- $20

Westinghouse 3�" Square RX-35 series meters $10 each

15 VDC   20 VAC 35KV (2mA full scale on this last unit)

Westinghouse 2" round 9A RF Ammeters w/ internal thermocouple $15 ea

Weston 507 2" round 3A RF Ammeters w/ internal thermocouple $15 ea

Weston 3" square 1.5A RF Ammeter w/ internal thermocouple $20

Weston 425, 100 mA 3" round RF ammeter w/ internal thermocouple $15
301 3" 3A RF (requires external thermocouple that I don't have) $7

All of the above plus shipping, if necessary, naturally.

*** Vintage Electronic Manuals (original unless noted) ***

Army / Airforce / Navy

AN/APS-13 Airborne Radar (1944)	$20
AN/URM25D Signal Gen (partial copy)	$10
BC-314G Receiver (schematic copy only)	$3
BC-344D Receiver (schematic copy only)	$3
SCR-211 A-T plus AA-AL Frequency Meter	$25
SCR-522 A/T2 SCR 542 A/T2 (cover badly worn -- insides ok)	$30
TM11-825 TWT PB-50A Transmitter (1944)	$25
LM-14 Frequency Indictor (1943)	$20
Hughes HTR-12A/C HTR-13A/C Radar	$30
Hughes Aircraft Unit 24 MA-1, F-106A computer maint. manual	$30

B&K

415 Sweep/Marker Generator	$15

B&W

400 Distortion Meter	$15
410 Distortion & Voltmeter (copy)	$8

Boontoon

160-A / 170-A Q Meter (copy)	$5

Bytcom

24/12ADH Modem	$5

Central Electronics

20A SSB Exciter partial manual copy plus (original?) schematic	$25

Concord Data Systems

224 Autodial Modem	$5

Collins

32S-1 Transmitter	$50
70-E8 Oscillator glossy brochure (1947 copyright)	$10
520 5430 00 Vernier Tuning Knob	$5

Eico

HFT-90 FM Tuner	$10

Federal Telephone and Radio

FT-125-B25A	$20

Fluke

8022B DMM	$10

General Radio

1606-A Impedance Bridge (copy)	$10

Gorler

UT-345 AFC / UT-343 FM Tuner	$10

Heathkit

309C RF Probe	$5
A-9C Audio Amplifier	$15
AG-9 Audio Generator	$10
CM-1073 Auto Tune-up Meter	$5
FM-3 FM Tuner	$10
FM-4 FM Tuner	$10
IM-4100 Frequency Counter	$10
O-11 Oscilloscope	$10
SA2500 Antenna tuner (new)	$50
TC-2 Tube Checker	$10
V-6 VTVM	$8
WA-P2 Preamplifier	$10

Hewlett Packard

150A/AR Oscilloscope	$10
152 Dual Trace Amplifier	$5
400A VTVM	$5
400C VTVM	$5
400D/H VTVM	$10
400D/H/L VTVM	$12
410B VTVM	$12
3455A Digital Voltmeter (operation)	$10
5340A Frequency Counter (comb bound copy)	$50

6200A Power supply -- Harrison Lab version lower right part of front cover missing	$15
7035B X-Y Recorder	$20

8445A Preselector (bound copy)	$20
8556A Spectrum Analyzer LF unit	$45
8672A Synthesized Generator	$100

10811A/B Quartz Crystal Oscillator	$20

Motorola

Motran (136-174 MHz) FM transceiver instructions, schematics 68P81044A10 (2 books)	$30
Motran (150.8-174 MHz) FM transceiver instructions, service/schematics 68P81040A45 (2 books)	$30
Motran (150.8-174 MHz) FM transceiver service manual (copy) 68P81041A15	$15
Model X53GJV-1091A Two-Way FM Radio (160-174 MHz) service manual (copy)	$15

Radio Shack

CT-101 Cell Phone Owners Manual	$5
CT-101 Cell Phone Service Manual	$20
SA-10 Stereo Amplifier	$2

RCA

WR-64B Color Bar Generator(copy)	$5
5-E 5KW AM Broadcast Xmtr	$50

Sabotronics

2000 DMM	$10

Signal One

CX7A (partial copy -- schematics mostly)	$10

Teac

MV-550 VCR Service Manual	$20
MV-800 Owners Manual	$5

Tektronix

DC505A Counter (bound copy)	$20
FG503 Function Generator	$25
FG504 Funct Gen. (SN <40000)	$30
FG504 Funct Gen, comb bound copy (SN >40000)	$20
PS503A Power Supply (back cover missing)	$20
SG503 Leveled Sine Wave Gen	$25

Yaesu
FT-101 service manual -- not quite complete copy
though I think it has all the "real" service info, plus
a dozen or so FT newsletters (copies) (1974-76) $30

FT-101E / FT101 ES (in Japanese) $10

All of the above plus shipping, if necessary, naturally.

*********** Air Variable Capacitors ********

Hammarlund NZ-10 Neutralizing capacitors, shiny NOS, $25 pair

Johnson 154-506 Dual 153pF 3KV air variable used, good �" shaft, $20ea (2 available)

Johnson D Series Dual 200pF .080 air spacing about 4"x4"x8" overall, �" shaft $20

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, �" shaft $2ea (2 available)

Cardwell 400pF, .045" air spacing, about 4"x4"x3" overall (plates open) �" shaft. $5ea (2 available)

********* Ceramic Doorknob & Disk caps *****

These are all made by Sprague, they are either NOS or little used.
(Large) Doorknob style $15 ea

2400pF 40KV (last one)

These are used Centralab or similar -- $5 ea or 5/$20

500pF 10KV "TV" style
68pF 5KV 850 series

These are NOS disks by KD & Erie $3ea or 4/$10

1500pF 7.5KV
.01uF 4KV

And a couple NOS Silver Mica caps.

2200 pF 500V CM06 $1 ea
5100 pF 500V CM07 (high current rating) $2 ea

All of the above plus shipping, if necessary, naturally.

********** Crystals and Oscillators***********

CTS Knights JKTO-47 970-2602 -- 1MHz ovenized oscillator
also bears Collins part number: 292-0308-010. Looks new, w/data sheet.
   Original cost was $325!   now only $50

US Army Signal Corps dual compartmented crystal case CS-137
with complete set of 120 FT-243 crystals -- channels 270 (5675 kc)
 through channel 389 (8650 kc) inclusive; all checked good! $300

PR Crystals Z6-A 100KHz -- $15 ea

Signal Corps octal cased Crystals -- $15 ea
     DC-9AJ 1000KC
     DC-9D 1000KC
     DC-15A 200KC

FT-241 -- 200 KC $10 ea

FT-243 -- 1000 1500 2000 2500 5000 5350(10.7 marker) 10000 -- $10 ea

Bliley AX-2 (FT-243 pin spacing) -- 3974.0 14125.2 $4 ea
CR-1A -- 5910 kc -- $4

FT-243 crystals -- $3 ea, 10 for $20, or $50 for all

1640.93 2506 2550 2637 3093 4035 4190 4280 4340 4450 4495
5295 5327.5 5500 5660 5995 6554.5 6555 6673.3 6783.33
7313.8 7340 7366 7825 7900 8230 8250 8330 8333.3 8405 8850
 12460 14346 14741 14760 14780 14800

HC-6 / CR-18 / CR-27 (large case modern) Crystals -- $3 ea, 10 for $20, or $50 for all
1152 2126 2142 2182(10) 2206 2512 2522 2565 2566 2597 2620 2638(5) 2670(5)
 2694 2738 2830 2895.5 2921 2967 2977 3053 3075 3093 3120 3125 3193 3285

11915.416(5) 12652.92(2) 12878.33 13108.33(2) 13633.33(short pins)
13683.33 39814.815 47045(2) 47946.666 KHz

HC-49 / CR-81 (small case modern) crystals -- $3 ea
 18.350 39.7222 40.220 40.300 40.680 47.250 50.31388 61.250 MHz
 152R4500(FTM-15) 152T450 157R710 457T2875 452R40 457T40(16.94074)
 Pair marked CH26 T&R KSS9GO ($6 pair)

Assorted larger cases
41.7 128 141.480 744 KHz -- $10 ea

Crystal pairs $10 pair
HW-202 Crystals
  146.37 T & 146.97 R
  147.345 T & 147.945 R

TR2200 Crystals
  146.37 T 146.97 R

TR2200A Crystals
  147.345 T 147.945 R

James Knights G-9 / Northern Electric T-9D/E Glass octal (tube style) base crystals
 97 KHz (split electrodes) 100 KHz 1 MHz -- $20 ea

Motorola B5490303P2 Crystal ovens, octal base $10 ea

Two Meter HC-6 & SC-17 Crystals $5 ea

x24 Transmit Crystals
  KHz   /   MHz
6036.66 / 144.88 (2)
6061.666 / 145.48
6083.750 / 146.01
6121.250   / 146.91
6122.5 / 146.94
6148.750 / 147.57

HC-6 for some Motorola Receiver
11348333 / 144.88
11398.333 / 145.48 (2)
11492.5 / 146.61

SC-17 for something

26982   / 146.91
27114 / 147.57

An HC-6 Pair
  144R89 145T49 one pin cut short on each

All of the above plus shipping, if necessary, naturally.

********** Test Equipment -- all functional!! ******

Bud GIMIX Wavemeter 80-10 Meters, has some white paint splatter just on the top. $10

Data I/O Unipack 2, PROM progamming fixture for 29A/B programmers. $50

DataPulse (Systron Donner) Model 101, 10 MHz Pulse Generator,
10 Hz TO 10 MHz in 6 Ranges, 8.5" x 4" x 11" deep $50

General Radio 758-A 55-400 MHz Wavemeter. Dial in need of severe polishing
but, insides are clean. $30

Heathkit / Zenith ET-3100 Electronic Design Experimenter. Small protoboard plus 200Hz-20KHz Sine & Squarewave generator, individually variable +/- 15 V supplies, 30VCT AC source, 1K & 100K undedicated potentiometers. AC Line powered. $75

Hewlett Packard 141T Spectrum Analyzer system including mainframe, 8552B IF section,
8553B, and 8555A RF sections plus 8443A Tracking generator.
All original knobs, terminators,etc. clean and working fine; no internet "surprises"!
With manuals (or copies thereof...) for all units. $2200

Hewlett Packard 427A (transistorized) volt-ohmmeter with nice 4" mirrored scale. Reads as low as 10 mV full scale on AC and up to 1000V AC or DC. Including a spare battery and an original HP manual -- $75

Hewlett Packard 461A, 1 KHz - 150 MHz Amplifier, 50 ohm in/out, switchable 20 & 40 dB gain. $100

Harrison (later HP) 865B 40V .5A Max. Constant Voltage-Constant Current Laboratory Power Supplies $40 ea $70 pair

Hewlett Packard 4260A Universal Bridge -- measures resistors, capacitors and inductors. Also checks inductor Q and capacitor D using either internal 1KC source or external oscillator. Has "semi-auto" nulling feature in L&C modes. 6" hi x 8" wide x 12" deep overall -- 115/230 VAC powered. Cosmetically very good. $300

Kepco Dual PCX 15-1.5 MAT 15 volt 1.5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage adjust -- $100

Kepco Dual PCX 40-0.5 MAT 40 volt .5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage adjust -- $100

Polarad 1207A Microwave Signal Generator 3.7-8.4 GHz. $100

Pomona #2399 cast Aluminum Boxes (2�" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA female connector on each end. New (in factory sealed plastic bag) -- $15 ea

Sierra Electronics model 164B Bi-Directional Power / SWR meter with 181-A-1000 element -- covers 200-1000 MHz with four power ranges: 10W, 50W, 100W & 500W full scale. Case is in fair-good condition finished in "Howard Hughes" (light) green -- leather carrying strap is in very good condition. N connectors (M&F) -- $100

Teaberry model TB 6503 HF SWR / Power meter. 100W / 10W ranges FWD & REF power plus SWR. UHF connectors. $10

Tektronix P6006 10X Scope Probe (used) $10
P6012 10X Scope Probe (used) $10

All of the above plus shipping, if necessary, naturally.

*************** RF Attenuators ************

Heavily built RF Attenuator, adjustable between 0-50dB in 10dB steps. 8" flying leads w/one terminated in a BNC Bulkhead female and the other with an N Male connector. Looks like it should be good to at least 1 GHz. 3 1/2" diameter by 4" deep overall and weighs about 4 pounds each. There are tapped holes in the front frame for panel mounting. No manufacturer is indicated. A 3/8" shaft adjusts by pulling (with a spring return) and turning so there is no chance of inadvertent resetting. No knob nor dial is included. $25

Tekscan LA-54 0-59 dB 50 ohm RF attenuator -- about 1.5" diameter by 4" long overall with concentric knobs (10db & 1 dB steps) & side mounted BNC connectors. 30dB position reads about 2.5 dB too high -- $35

Telonic TB-50A 0-10dB 50 ohm RF attenuator -- 3" diameter by 3" deep w/ side mounted BNC connectors. $25

Telonic TG-950 0-100dB 50 ohm RF attenuator -- Nine toggle switches attenuate by 1,2,3,6,10,20,20,20 &20 dB steps. 9" long by 2/5" hi by 2" deep w/ end mounted BNC connectors. $45

Mfg. Unknown, L-101A in-line VHF Waveguide-beyond-cutoff style attenuator, -30 to -100 dB range. 10" long overall max. w/ UHF connectors. $20

6 dB low power pads with N connectors, male on one end, female on the other. Approx. 1"x1"x3" overall. 2 available $10 ea.

All of the above plus shipping, if necessary, naturally.

********** Old Radio Books & Catalogs **********

RCA HB-3 Tube Handbook
Loose leaf 6 ring binder style data sheets starting in the late '40's with
additions and
updates through October 1966. Sepatate sections cover Transmitting Tubes,
Receiving Tubes (Part 1 & 2),
Industrial receiving tubes, Photosensitive devices, Thyratons & such, CRT's &
Picture tubes,
Miscellaneous types, & semiconductors.   The updates appear to have been made
in all
these sections except Picture Tubes which is somewhat disorganized. It also
appears that the
obsolete data sheets were kept for reference. The whole collection is about
30" wide on a shelf.
Shipping weight will be 20 lbs. Excellent condition; mostly never read! One
gotcha - No binders. $250

Heathkit Catalogs
1954, 55, 56, 57, 58, 59 &
Fall-Winter '62-63,
Xmas '89 + Winter & Spring '90 $100 all

Handbook of PREFERED CIRCUITS
Navy Aeronautical Electronic Equipment
vols. 1&2 (1955 tubes & 1962 transistors)
very good condtion $40

Most Often Needed 1926-1938 Radio Diagrams, originally published by
Supreme Publications 1941. This is a REPRINT, by Vintage Radio.
240 pages, solid schematics! Like new, $20

RCA TT-3 Air-Cooled Transmitting Tubes 1938 copyright
overall good condition w/slight damage at top & bottom of
spine & first 20 pages of lower right corner. 192 pages -- $30

Radio Supply Company catalog 1934 (they used to be in downtown Los Angeles)
-- a little smudging on the back cover and two middle pages torn on the
edge but, otherwise in fine condition. There is a sticker from the
(original?)
owner on the first inside page. 85 pages, the last 10 or so of which are
receiving and transmitter tube data from the era. $20

5 Meter Radiotelephony by Frank Jones -- This is a REPRINT of a 1934 booklet

Excellent condition 20 pages or so $10

Elin company overview book 1932
very good condition except cover is almost loose
Text is in GERMAN. Lots of photographs of electrical equipment,
tools, machinery, and construction projects.
128 pages $10

Radio Doings Call Book Spring 1931 edition
cover taped at spine, otherwise very good
50 pages $15

Radio Doings Vol 15, #1 June 1929 edition
cover, first two & last two sheets missing otherwise o.k.
pages 5-62 remain $10

Official Radio Service Manual 1930, originally published by Gernsback
Publications. This is a REPRINT by Vestal Press, 1984. Schematics &
some service info. 352 pages, like new $20.

All of the above plus shipping, if necessary, naturally.

This is New In The Box.  My vertical came down this winter and
is beyond help.  I had ordered it over the winter but now I have no
use for it.  It cost $120.00 from HRO and you can have it for $95.00
shipped UPS ground.

Please Email direct as I am putting this on a few news groups.

Thanks and have a great day,  John w1hzh

Lake County Amateur Radio Club's Annual Dads' Day Hamfest and Computer Show The Lake County Amateur Radio Club will hold their Annual Hamfest and Computer Show on Sunday, June 17, 2001 (Fathers' Day) at the Lake County Fairgrounds Industrial Arts Building, Crown Point, Indiana.

The doors will open promptly at 8:00 a.m.

The indoor show features commercial vendors of ham radio equipment, computer hardware and software, and an electronic and computer parts and equipment flea market. Food and beverages as well as walk-in VE testing (for amateur radio licenses or upgrades) will be available.

Tickets are $5.00 and available at the door. Table rental is $6.00

****** VACUUM CAPACITORS & other Vacuum things ***********

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S	300pF	15KV	$250	with standard puller, later manufacture (blue)
UCSL-750	750pF	3KV	$150	with standard puller
UCSL-1000	1000pF	3KV	$150	with standard puller

R1G SPST 20KV 20Amp Vacuum Switch $100

---------Fixed vacuum caps----------

Jennings VC-12	12pF	20KV	$25	
Jennings	50pF	86KV	$86	
Western Elec	100pF	5KV	$50	(This one hi-pot checked @ 14KV)

--------- Vacuum Relays -----------

Old "T" style vacuum relays for sale, where the coil slips over one leg of the glass enclosed contact assembly -- One of the contacts has a Penta Labs part number: 420 53 3875. The coils are 28V. $10 ea

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum relay mounted on top of a small (2"x3"x4") metal enclosure. There is a 15 pin Jones connector on the side of the box. I believe that there are some auxiliary contacts in the box in addition to the vacuum relay. This is also a 28V unit. $15

*********** Air Variable Capacitors ********

Hammarlund NZ-10 Neutralizing capacitors, shiny NOS, $25 pair

Johnson 154-506 Dual 153pF 3KV air variable used, good �" shaft, $20ea (2 available)

Johnson D Series Dual 200pF .080 air spacing about 4"x4"x8" overall, �" shaft $20

G.I. Corp 70 pF, .080" air spacing, about 3.5"x3.5"x3" overall, �" shaft $2ea (2 available)

Cardwell 400pF, .045" air spacing, about 4"x4"x3" overall (plates open) �" shaft. $5ea (2 available)

All of the above plus shipping, if necessary, naturally.

************ POWER TUBES **************

450TH Eimac -- These are the pulls and spares from what was a working power amp. in the estate. $100 ea

7580W/4CX250R (Amperex & Eimac) pulls $25 ea --or-- 5 for $100

7034/4X150A pulls $10 ea --or-- 5 for $40

--------- Planar Tubes-----------
2C39A pulls $10 ea (one left)
7698 pulls $5 ea
7843 pulls $5ea
Y602B pull $5
Y2177 pulls $5 ea
EE144 pull $5

-------- Lighthouse tubes -------
2C40A pulls $3 ea
2C46 pull $3
446A pulls $3 ea

-------- Pencil tubes -----------
6442 pull $5 ea
7554 pull $5

--------- Acorn tubes -----------
6F4 used $3
954 used $1 ea
955 used $1 ea
956 used $1 ea

--------- and the rest -----------

4637 (RCA) pull $40
5654 (6AK5) pulls $2 ea
5763 pulls/NOS $5 ea
6481 new $50

************* SOCKETS **************

Eimac SK-1500A mounted to a 17" square aluminum panel. Includes a current transformer to monitor filament current. $200

Johnson 211 / Birnbach 434 "50 watt" sockets fit 450TL/TH etc. used $20 ea

Johnson 248 / RCA UT-106 & Other 7 Pin Septar (for 8877, 829, etc) used $10ea

Eimac SK 510 socket, "Overused": One screen contact missing - lower air channel milled off for 4-1000A / 3-1000Z fine for a lamp! $10

4CX250 family sockets --
Johnson 124-115-2 new (tarnished from age) $25 ea, used $15 ea
Eimac SK 610 (cathode grounded) used $15 ea

Eimac SK 606 Chimneys like new! :-) $10 ea.

Eimac HR-3 plate disspators (.072 hole) $2ea
  Larger fin version of above (by Bud?) $3ea

Plate dissipators from 3-400Z's, I think (1/8" hole) $4ea

Millen #36002 ceramic plate caps (3/8" hole) $3ea   4/$10

All of the above plus shipping, if necessary, naturally.

******** Used Coax Connectors *************

Andrews Heliax UHF connectors 1/2" 44AP male -- $10 (last one)

UG-643 C Female-Female barrel connectors, $3 ea
UG-637 UHF Male to C Female adapters, $5 ea

UG-259A/U 91836 -- HN female to LC female bulkhead adapter -- $30

6 dB low power pads with N connectors, male on one end, female on the other.
Approx. 1"x1"x3" overall. 3 available $10 ea.

********* New Coax Connectors ***********

UG-1213/U HN Male Cable connector NOS -- $10

Kings KH-39-11 HN Female Cable connector NOS -- $10

Below are all new crimp on connectors, with all hardware, in individual plastic bags; early-mid 1990's date codes.
I believe that they are all for RG-59 size cable.

Kings Electronics (US made in New York, new home state of ex-President William Jefferson Clinton)

KC-59-642-M06 BNC Cable Male -- $1 ea

KA-59-385-M06 TNC Cable Male -- $1 ea

KA-19-43 TNC Bulkhead Female -- $1 ea

********* Coax Antenna Relays **********

These all have (3) UHF connectors. They are somewhat old looking on the outside but,
I popped the inspection port on each and all the contacts are all happy.
And they all go click upon application of the appropriate voltage.

Dow-Key DK-60 style
110-115 VAC coil -- $30

Advance (same style but, heavier contacts & construction)
115 VAC coil -- $30

All of the above plus shipping, if necessary, naturally.

General Radio 758-A 55-400 MHz Wavemeter. Dial in need of severe polishing but, insides are clean. $30

Heath AW-1 Audio Wattmeter with manual $30.

Heathkit / Zenith ET-3100 Electronic Design Experimenter. Small protoboard plus 200Hz-20KHz Sine & Squarewave generator, individually variable +/- 15 V supplies, 30VCT AC source, 1K & 100K undedicated potentiometers. AC Line powered. $75

Harrison (later HP) 865B 40V .5A Max. Constant Voltage-Constant Current Laboratory Power Supplies $40 ea $70 pair

Hewlett Packard 461A, 1 KHz - 150 MHz Amplifier,
50 ohm in/out, switchable 20 & 40 dB gain. $100

Hewlett Packard 141T Spectrum Analyzer system including mainframe, 8552B IF section,
8553B, and 8555A RF sections plus 8443A Tracking generator.
All original knobs, terminators,etc. clean and working fine; no internet "surprises"!
With manuals (or copies thereof...) for all units. $2200

Kepco Dual PCX 15-1.5 MAT 15 volt 1.5 amp max lab power supply in Kepco
PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage adjust -- $100

Kepco Dual PCX 40-0.5 MAT 40 volt .5 amp max lab power supply in Kepco
PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage adjust -- $100

Polarad 1207A Microwave Signal Generator 3.7-8.4 GHz. $100

Pomona #2399 cast Aluminum Boxes (2�" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA female connector on each end.   New (in factory sealed plastic bag) -- $15 ea

Tektronix	P6006 10X Scope Probe (used)	$10
	P6012 10X Scope Probe (used)	$10

********** More Test Equipment ****************

Hewlett Packard 204B Opt. 2 Audio Oscillator (transistor), 5Hz to 560KHz in 5 ranges. 5" x 6" x 8" deep.
This is a rechargeable battery unit but, the batteries died and were removed long ago.   The batteries would need to be
replaced before operating or the unit could be converted to AC operation by adding a couple capacitors & zeners.
I believe the unit is otherwise complete & functional but, I can't test nor

guarantee that!
This is from a friend's estate and it may have been in storage for as long as 25 years.
An original HP manual is included -- $50.

All of the above plus shipping, if necessary, naturally.

********** MICROWAVE ***********

Micromega 28450-1265 Solid State sources.
I believe that these are on 12.65 GHz and can be tuned but,
I don't know how far. And these are also phase lockable but,
I don't know the reference frequency input. WR-75 output flange.
Terminals are marked. $50 ea

Hughes M-band balanced mixer assemblies which have WR-75 flanges
on the RF & Oscillator inputs and wire terminals on the IF outputs. $30 ea

Avantek SD7-0738N GaAs Fet Preamp. 3.7-4.2 Ghz WR-229 input flange.
N output connector. 4 pin AN type power connector -- pin assignments
noted on label. $50

Rantec FU-301 Filter? or Delay Line?? at some GHz ...I don't know.
N connectors -- 7 3/4" x 3 3/4" x 1" overall. $10

Display (or paperweight) Traveling Wave Tube. The tube was cut in half and
encased in clear resin. 15" x 4" x 1.5" thick. There are some scratches on
the resin surface which I think could be buffed out. $50

And a similar display piece of just the cathode assembly from a
larger Traveling Wave Tube. 3.5" x3.5" x 1.25" thick $25

Hewlett Packard 930A Switch WR-90 X - band $30
Note: this is a waveguide part

WR75 terminations $3 ea

IMPATT Diodes -- NOS individually packaged with test data
NEC ND8P15-5H-C 1W @ 14.8 GHz $75 ea
NEC ND8V12TU 2.5W @ 12.6 GHz $100 (one only)
Loral GC-5831E 300mw @ 12.5 Ghz $40 ea

Microwave Mixer Diodes (I think!) -- NOS in original capsule packaging
Sylvania D5163   4 pcs $40 all

All of the above plus shipping, if necessary, naturally.

************** MISCELLANEOUS ***************

Teaberry model TB 6503 HF SWR / Power meter. 100W / 10W ranges FWD & REF power plus SWR. UHF connectors. $10

Homebrew 435 MHz power splitter with (3) N connectors. This made out of brass sheet stock and is about 15" long by 1" square. $10

Late '70's vintage likely Military, probably airborne, VHF power amplifier assembly. It consists of 7 almost identical amplifier assemblies clustered around a central housing that has splitter combiner networks which are plugged onto each end with a bunch of SMB connectors. There are TNC's for the main in's & outs. I think it was originally configured as one amp, driving two, driving four boards. The complete assembly measures 7.5" x 5" x 3.5" overall -- the individual RF amp boards are 4.5" by 2". The outer covers are mostly missing. Each amplifier is a push pull design -- they appear to be 50 ohm in & out impedance with either PT6747 or PT6702 TRW transistors. I would guess this unit operates on 28VDC. I don't know what frequency range it covers nor the power level though, just guessing, it probably puts out at least 100W. And there is no manufacturer name -- probably went with the outer cover. Six of the stages are marked OK and one, the input stage I think, is marked NO Good. The individual amps have integral heat sink plates so, they could be removed from the assembly and used separately. $70

Heavily built RF Attenuator, adjustable between 0-50dB in 10dB steps. 8" flying leads w/ one terminated in a BNC Bulkhead female and the other with an N Male connector. Looks like it should be good to at least 1 GHz. 3 1/2" diameter by 4" deep overall and weighs about 4 pounds each. There are tapped holes in the front frame for panel mounting. No manufacturer is indicated. A 3/8" shaft adjusts by pulling (with a spring return) and turning so there is no chance of inadvertent resetting. No knob nor dial is included. $25

Red & Black Five Way Binding Posts -- NOS, look like HH Smith 459, requires 1/2" mounting hole up and will fit up to 3/8" thick panel. $1/ pair (one ea red & black)

Large Silver Plated 6uH (calculated) coil -- 12 turns of 3/8" diameter copper tubing, 4" diameter x 9" long overall. The ends are factory finished into flat tabs w/ 3/16" mounting holes. The silver is tarnished over about 1/2 its surface from age. $30

200W (or so -- 10" long) 1500 ohm 10 tap (every 150 ohms) power resistors -- used good, $10 ea

Ohmite 100 ohm 225 W resistors (10" long) used good, $8 ea

10 Meg meter resistor assembly used to measure 10KV with a 1mA meter movement. It consists of 2 large, 10" long, 5 Meg resistors mounted in a nicely made 12" x7" x 2" plexiglass housing. $10

Drake TR4 (probably fits the 3 also) factory made DC power cable (10 pin Jones to 12 pin Jones) - used good $10

Lambda FBH-24 Hybrid Regulators NOS -- $10 ea

Motorola 4-pin Microphone connectors 28-16730 or Amphenol 01-MC4M -- NIB $5ea

Motorola 0180700T14, 4-wire coily cord mike cable assembly with a mike connector as above on one end and a spring strain relief on the other. There are some flat pins on the free wire ends -- NIB $15

Powerstat Type 10 120V 1.25 A variable transformer (variac) used, no knob or dial -- $15
Type 10B 120V 1.75 A variable transformer (variac) used, with dial, no knob -- $20
Later 10B 120V 2.25 A variable transformer (variac) used, with dial, no knob -- $25
Later 10B 120V 2.25 A variable transformer (variac) NOS, with dial, no knob -- $30

Switchcraft 4PDT lever switches (#160012L) NIB/NOS -- $3ea
Three pos., 2 form C momentary (#130312) NOS -- $2ea

Mossmann 3PDT lever switch (4803Z1P2) NOS -- $2

A couple old RF chokes:
#22 enameled wire space wound 24 TPI for 2.75 on a 1" diameter grooved fiberglass form 5" overall -- $10
#27 (green enameled) wire wound 40 TPI for 4.3" on a 3/4" diameter ceramic form which steps to a 1.3" diameter base tapped for two 6-32 screws, 5.5" long overall. Looks like winding has been cleanly spliced, twice -- $15

6 dB low power pads with N connectors, male on one end, female on the other. Approx. 1"x1"x3" overall. 3 available $10 ea.

Pomona #2399 cast Aluminum Boxes (2�" x 1-1/8" x 7/8" o.d.) w/ gold plated SMA

female connector on each end.   New (in factory sealed plastic bag) -- $15 ea

Sarkes-Tarzian Model 78D center-tapped Selenium Rectifiers. NOS! $5ea

TIP34A 10A 60V TO-218 PNP Power Transistors, Motorola NOS. 4/$1

General Electric WW2 vintage (has that BC-375 look) 6 position RF switch. Very solid detents! Used, excellent. $10

Filter Cap Assemblies: Eight 80 uF/450V axial electrolytics mounted to a 5"x8" fiberglass PCB -- these are currently wired sort of series-parallel but, could be reconfigured by cutting & jumping a couple PC traces. $20 ea. (2 available)

GE rectifiers, 100A, 200PIV, 1N3289, DO-8 large stud package. These look like NOS --
(It doesn't appear that the anode leads have ever been bolted to anything.)
4 pieces -- $30 all

Motorola rectifiers, 50A, 100PIV, plate mounted. 2ea MR1201FL & MR1201FLR (a bridge worth)-- NOS $10

Westinghouse 6-1-1B/1N1188 3 Phase 600V 35 Amp rectifier assembly with heatsink. Unused but, tarnished from long storage $10.

Fuse assortment, still in the original Littlefuse or Buss boxes of 5.
Including:

- 1/100 A
- 1/8 A
- .175 A
- 1/4 A
- 1/2 A
- 3/4 A
- 1 A
- 2 A
- 3 A
- 5 A
- 10 A
- 20 A
- 30 A

Plus a few inbetween values. Most are 3AG, some are slow blow.
30 boxes total -- $30

***** Mechanical Things & tools *****

Sanyo-Denki 103-775-0611 Stepper Motors -- 1/4" dia. shaft extends about 3/4" out each end.
Outer Case is about 2.2" round, with a square flange on one end, by 1.5" deep.

1.8Deg (200 step/rev) 2.25V, 1.25A, 8 lead configuration presently wired as 4 lead units
(I think the coils are wired in series for bi-directional drive) to "Molex" connectors.
RFE 10 pieces, $100 all

NOS fan that fits some Japanese radio...marked: 57 10.01 100V
The wires from the motor are about 4' long and are terminated in a 2 pin JST connector.
The impeller has 8 blades and is 7 cm in diameter.
It is mounted to a U shaped metal frame with four mounting holes spaced 5cm by 9cm
$10

Craftsman 335.25926 "Drill Press" -- adapts a 1/4" electric drill (not included)
to function as a small drill press. Used, but not much! $20

All of the above plus shipping, if necessary, naturally.

I'm looking for R4C's, non-working models OK as long as PTO is good.
Prefer 250 Hz and 500Hz optional filters.

Any S/N, even the ones with the MOSFET mixer, are OK since I gut the
mixers out anyway.

I have a 75S1 and a KWM-2, in pretty good shape, I'll trade for EQUAL
value Drake gear. And no..... I won't swap even up for a non-working
junk R4C.

Drop the 2 from my e-mail.

73 Tom W8JI
